F4 Team Memo **#0015**

Dear Team Owners:

Attached is the latest estimated car delivery schedule, which as you see does not address, a question I am sure many of you have, what day can I collect my car?

To help speed up car deliveries, Crawford Composites has contracted a number of subcontractor supplier companies and in doing so it makes it hard to dictate precisely the final build completion day but this attachment attempts to narrow it down as close as possible until it can be better predicted.

I wish it was more detailed than this but rest assure we are all doing whatever can be done to get your cars to you as soon as possible.

It would be helpful if we can continue to direct questions to us, so we can avoid distracting Crawford Composites while they continue to focus on getting the cars finished.

This delivery shall be circulated weekly to keep you posted.

Important to note that cars being delivered at this time will be to teams fully intent and having the means to compete at New Jersey. We need you to please make sure you have completed the following prior to picking up your car.

1. Secured and have ready the money outstanding for your car cost.
2. Have a completed engine lease agreement, along with the required payment.
3. Complete your SCCA Pro membership requirements and entry applications.
4. Retain a driver and make sure he is registered with SCCA Pro F4.

Thank you in advance for your patience and continued support.

Yours Sincerely,

Derrick Walker
