January 18, 2017

Team Memo #64

To All F4 Teams:

Linked below is the 2017 Style Guide. There are some slight variations from last year to this year. The most notable changes are switching the Crawford logos out to Onroak Automotive decals (with the exception of the deer head) and moving the Honda and F4 U.S. decals from the air intake to the engine cover so the Honda decal doesn't split down the middle.

The form to order your FREE set of decals for each car from F4 is also linked below. You will need to request what color (black or white) of each asset that you will need.

All liveries will need prior approval before production. They can be sent to Amy (agreenway@sccapro.com) or Steve (soseth@sccapro.com).

For your car to be compliant by the first F4 U.S. race, all requests need to be made no later than Monday, March 20.
