MEET THE PRESS.....

Jay Bonvouloir of Denver belongs to Colorado Region SCCA, where, as a third-generation driver, he raced Spec RX-7. Jay has traded in his helmet for cameras. Well, sorta. He's an avid iRacer, and has a large collection of die-cast race cars and he still has the race car. He is a photographer with the Pirelli World Challenge Series and Sports Car Magazine. Jay has been photographing motorsports for 13 years. He has shot twelve SCCA National Runoffs, numerous IMSA and IndyCar races as well as a Bathurst 1000.
This is Jay's eighth Formula One race, and his third with a credential - as a photographer for the Newsletter.

Annie is a 41-year member of Colorado Region SCCA, where she's been a marshal in various categories - F&C, T&S, Grid, Divisional Steward and newsletter, as well as racing SSC/ITC/ITA and Spec RX-7. The newsletter skills translated into her day job - avocation for vocation. Annie runs her own race car graphics business. She spends a third of the year at the races, including working with the full Pirelli World Challenge Series. Over the years Annie has spectated many F1 races in the US and Canada, and this is her second F1 race with the Newsletter.

Pablo Matamoros is the newbie on the crew, this being his first Formula One race in this capacity. He follows the IndyCar circuit, writing and shooting for Estilo Deportivo. His occupation is an educator in Minnesota.

Ron Searle is returning, after a two-year hiatus from the Newsletter. He is now retired from his job as chemical engineer for Exxon which had him traveling around the world, most recently Doha in Qatar. Ron has dual citizenship in the US and Australia. He is a long-time photographer for the Australian version of the Officials Newsletter, called the Gazette, shooting for the past 10 years.

Sydney Davis Yagel of Houston designed the layout for the newsletter and helps out with meeting deadlines. However, after her first year with the Newsletter, her many talents were recognized and selected for bigger and better things. She is the Assistant Race Director and last year wrote the Hurricane Evacuation Plan which unfortunately had to be utilized. She's the one who makes sure you have a bus, lunch, registration, etc. There's no end to her many talents. Sydney belongs to Houston Region SCCA where she is the Race Chairman, EP Miata racer, and newsletter editor. Her day job is Director of Events and School at MSR Houston, a road course race track. In her spare time she writes and shoots for SportsCar.

Lynne Huntting of Oakland belongs to San Francisco Region, where she works F&C and Assistant Race Chairman.
It was her idea to have an Official s Newsletter for all USGP's at COTA.
For the past 20 years she has been doing an Officials Newsletter for CAMS at the Australian Grand Prix.
Lynne is a retired Child Abuse Child Welfare Worker, who now likes to travel, observe and write about racing.
As math is not her strong suit, she lost track of her Formula One races sometime after 70 Grands Prix, dating back to 1978 at Long Beach.
She s worked at all the US, Mexico, Montreal and Australian GPs since 1985.
The Officials Newsletter is a joint effort and without the team working together with each other, COTA, ACCUS and FOM, it couldn't happen.
And the payoff is that we all get to work with you, observe and record you, and especially get to know you!
