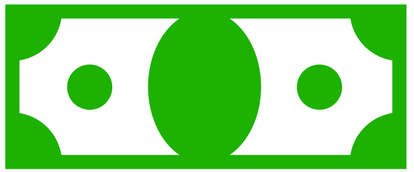
Your Profit



Merchandise can be a significant source of income for artists. At Reward Music, we make producing and selling merchandise very easy.

How it works:

Once you turn your site live and have your merchant services account set up so your fans can pay you directly, we will either use your logo or an image you provide and create your first T-shirt for you for free. You will instantly have product to sell and you don't have to front any money. Your shirt will be available in sizes from small to 3X. We will automatically set your default retail price to $25.00 but you can change it at any time. We charge you $14.00 to produce the shirt.
That means…. **You make a 41% profit without investing a cent. Only Reward Music does this.**

For each additional merchandise product, there is a $25.00 one time charge to produce the artwork in each of your desired color options (up to three per product) and sizes and then load the products into your Reward Music website store.

Once your merchandise is up for sale on your website, you can simply click one button to feature it on your front page for as long as you desire. To increase your sales, you can easily email all your fans on Reward Music, post a link to it on your social media pages, and even if you don't do any of that, Reward Music will automatically feature it in our fully automated "What You Missed" emails that we generate for you and send to all you fans.
