We still have the very first ESP guitar that was built in the summer of 1975 at our original custom shop. Twenty-five years have passed since those beginnings in the back of a small music store. In that time, ESP's innovative designs and dedication to quality have become an integral part of the world music scene.

We celebrate this anniversary by building a limited series of instruments featuring the best of ESP handbuilt craftsmanship. These twenty-five neck-thru-body M-III style guitars with reverse headstocks feature mother of pearl fingerboard inlays bordered in sterling silver and a black aluminum scratchplate engraved with the ESP Twenty-Fifth Anniversary logo.

From our LTD and ESP Standard Models to our Signature Series and Custom Shop instruments, we're certain you'll find the guitar or bass that will meet your needs. And every instrument is covered by a Limited Lifetime Warranty.

Visit our website at www.esp-guitars.com for the latest product news and authorized ESP dealer locations, or call us toll-free at 800-423-8388.
