From our humble beginnings in 1975 as a small custom shop, ESP has always maintained the same priorities. Above and beyond anything else, we’re obsessed with respecting musicians turning to ESP for the instruments that help define their sound. Today ESP is a world-renowned instrument manufacturer with choices that satisfy every range of player, but we’ve never lost sight of our original goal. That relentless pursuit to make the finest guitars and basses available to everyone is what defined us in 1975, and remains our driving force today.
Who knows what your dream guitar is like? Only you; it’s your vision, from the body shape, to the feel of the neck, the graphics, the inlays, the hardware, the materials, and more, limited only by your creativity. It can be as simple as making subtle changes to one of our existing ESP models, or as complex as creating a brand new design that exists only in your imagination. With access to the world’s most respected and experienced luthiers, ESP can literally turn your dreams into reality.

The ESP Guitar Company wants to give you everything you need to make personalizing a custom guitar fast and easy. Just visit espguitars.com and go to the Custom Shop page. You can download the custom order form and choose from every imaginable combination of guitar design options. Then submit the order form to any authorized ESP dealer for a price quote.
For 2011, James Hetfield has delivered an entirely new body style for ESP and LTD with the Snakebyte, a nod to the past and a bold view into the future of hard rock.

**BASS CASES**
ESP Hard-shell case has a form fit interior for every ESP body shape, allowing you to rest comfortably knowing your instrument is well protected. Contact your ESP dealer today for model availability and pricing.
ESP proudly features Gotoh locking tuners on many new and existing ESP Standard Series instruments. These heavy duty parts have long been the choice for many ESP customers who demand quality and reliability. The system automatically locks the string to the bridge while reducing the tuning key turning to pick it.

In 2011 we introduced our own locking tuners on many new and existing LTD Signature & Deluxe series instruments. Ease of use and elegant design were our key goals in designing these keys. Our tuning keys automatically lock the string to the shaft while improving tuning stability, reducing string slippage and simplifying the restringing process.

We have been using these fine tuners on our instruments for many years. Always requested by professional artists, these tuners are a small but very demanding precision. The key to their design is eliminating wear and slippage on the string post, which can cause string slippage and tuning problems. Simply allows the string to run freely, then slide along the post, lock the threaded locking shaft, cut off the remaining string, tune up and you are finished — faster tuning stability and no more restringing nightmares.

Our innovative neck construction technique gives you the look and feel of a one-piece set-thru body design while maintaining the warmth and tone characteristics of a set-neck instrument. Access to the upper frets is improved by having stability, reducing string slippage and simplifying the restringing process.

Two-Way Adjusting Truss Rod

Most of our instruments are built using a 2-way adjusting truss rod. Unlike a traditional 1-way adjusting type, our truss rod is adjustable back and forth to compensate for any neck crown. Our truss rod is adjustable back and forth to compensate for any neck crown, no more restringing nightmares.

ESP APPAREL / SPECIAL FEATURES & CONTROLS

Download the NEW ESP GUITAR EXPERIENCE app from the App store.

Tuner, tech tips, and much more.

Featuring exclusive lessons, interviews, stories, videos, and much more. Available now at the App store.

The ESP Guitar Experience smartphone app provides you with access to a comprehensive collection of ESP guitar-related content, including:

- Exclusive lessons
- Interviews with ESP artists
- Stories and behind-the-scenes content
- Videos featuring ESP guitar gear
- Tune-o-matic bridge
- Gotoh locking tuners
- Tonepros bridge systems
- Gotoh locking tuners
- Tonepros bridge systems
- Tune-o-matic bridge
- ESP Guitars

The app is designed to be a comprehensive resource for ESP guitar enthusiasts, offering a wide range of content to help you get the most out of your ESP guitar. Whether you’re a seasoned player or just starting out, the ESP Guitar Experience app is the perfect companion for your ESP journey.

The app includes the following features:

- **Premium Lessons**: Access to exclusive guitar lessons from ESP artists and experts.
- **Interviews**: Engaging conversations with ESP artists and influencers.
- **Behind-the-Scenes Content**: Exclusive content from ESP’s workshops and studios.
- **Videos**: Watch performance videos, interviews, and more.
- **Tone-o-matic Bridge**: Learn about the features and benefits of the Tone-o-matic bridge.
- **Gotoh Locking Tuners**: Explore the features and benefits of Gotoh locking tuners.
- **Tonepros Bridge Systems**: Discover the features and benefits of Tonepros bridge systems.
- **Tune-o-matic Bridge**: Learn about the features and benefits of Tune-o-matic bridges.
- **ESP Guitars**: Dive into the world of ESP guitars and learn about their unique features.
