WHAT BECOMES YOU

It’s your vision, from the body shape, to the feel of the neck, the graphics, the inlays, the hardware, the materials, and more, limited only by your creativity. It can be as simple as making subtle changes to one of our existing ESP models, or as complex as creating a brand new design that exists only in your imagination. With access to the world’s most respected and experienced luthiers, ESP can literally turn your dreams into reality.

The ESP Guitar Company wants to give you everything you need to make personalizing a custom guitar fast and easy. Just visit espguitars.com and go to the Custom Shop page. You can download the custom order form and choose from every imaginable combination of guitar design options. Then submit the order form to any authorized ESP dealer for a price quote.

EXHIBITION LIMITED

The 2016 Exhibition Limited project consists of approximately 80 unique custom guitars & basses, each one both a work of art and a high performance instrument. Incorporating the world’s finest materials, intricate inlays, hand carving and custom finishes, each model is hand crafted by master luthiers at the ESP Custom Shop in Tokyo. While custom shop designs are usually specified by the people who order them, these special exhibition models have been designed by the master luthiers themselves.
As ESP's highest-quality series of production guitars and basses, ESP Original Series offers a level of detail that borders on the obsessive, and is designed for serious musicians who accept zero compromise in the finest woods, components, and aesthetics.
