

FR Technical Advisory Memo

No: TAMFR-2020-014

Date: June 10, 2020

Subject: Reminder on Engine Change Notification

Section 28.7 of the 2020 SCCA Pro Racing FR Sporting Regulations states that the series Technical Director must be notified of engine changes. This notice applies to all engine changes, including those done during the off-season.

If you have changed the engine in a car that competed in at least one race in either 2018 or 2019, notice is required. Cars presented at tech with engines changed without notice will be reported to the Stewards as a technical violation.

The only way to provide notice is through this form on the series web site.

<https://www.f4uschampionship.com/pages/engine-removal-replacement>

Note that this is the correct link for FR engine notice, event though the URL states F4.

This notice needs to be completed no later than 8 AM Central Daylight on Thursday, June 18, 2020.
