

FR Technical Advisory Memo

No: TAMFR-2020-018

Date: June 18, 2020

Subject: Transmission Oil at Mid-Ohio Event June 2020

SCCA Pro Racing has recently become aware of gear pitting in FR transmissions which have been run with the spec Red Line oil. Investigations are underway on several fronts, but are unlikely to be completed in time for Mid-Ohio.

At the June 2020 Mid-Ohio event, SCCA Pro Racing will not enforce Section 26.8.b of the 2020 FR Sporting Regulations regarding transmission oil. We will advise regarding VIR and Barber as we gain a better understanding.

Use of Red Line engine oil as defined in 26.8.a will remain mandatory.
