

FR Competitor Advisory Memo

No: CAMFR-2020-018
Date: July 30, 2020
Subject: Barber 2020 Parc Fermé Details

For qualifying and all races at the Barber 2020 event, Parc Ferme will be at a central corral, not at team trailers.

There will be a reminder via WhatsApp message and radio announcement from the tower at the conclusion of each session. To be clear, even in the absence of an announcement, Parc Ferme will still be at the corral. Please remind your drivers.

After the checkered flag for each session, drivers selected to go to impound must proceed directly down pit lane, without stopping at their pit boxes, out the pit exit, and proceed without stopping to the tech inspection area at the tower. As usual, there will be an announcement of impound car numbers from the tower via WhatsApp and radio.

All remaining cars must proceed directly down pit lane after the checkered flag, without stopping at their pit boxes, out the pit exit, and proceed without stopping to the Parc Ferme corral located across from the tech area at the tower. See the map below.

Any cars stopping in their pit boxes after the checkered flag will be reported to the stewards as a violation.

Upon arrival at the corral, drivers must exit their car immediately and leave the corral area. One crew member must, under direct supervision of the SCCA staff member at the corral, remove the video card and turn it in, then exit the corral immediately. No other actions or work are permitted.

Thanks for your help in making this process work smoothly.
