

FR Technical Advisory Memo

No: TAMFR-2020-030
Date: August 13, 2020
Subject: Practice Tires for Sebring and Homestead

Respecting the time span between Barber and Sebring, as well as the demands of the track at Sebring, drivers will have the option of using one set (four tires) of new tires in the practice sessions at Sebring.

Specifics:

- New tires for use in practice at Sebring must be declared and scanned prior to practice. Use of undeclared tires will remain a technical violation per Sporting Regulations 24.5, with penalties as specified in TAMF3-2019-009.
- This set of tires may only be used at the 2020 Sebring and Homestead events.
- To be eligible for use in Sebring and Homestead practice, a set of tires must be supplied by Hankook at Sebring only. Tires supplied by Hankook at Homestead will not be eligible for use in practice there.
- Should any driver be eligible for a set of new practice tires under the “75 day rule” in 24.5, doing so will preclude them from getting a second set of new practice tires.
- Use of a new set of practice tires for Sebring will be optional. Tires declared for qualify/race from preceding events are still valid practice tires.
