Homestead Miami Speedway

April 7-9, 2017

Rounds 1,2 and 3

SUPPLEMENTAL REGULATIONS

3-21-17 / V7

RV Parking: RV/ and Toterhomes are subject to a \$275 per night fee. Water & electric are available on a first come/first serve basis.

Promoter Test Day:

Will handled directly by Homestead Miami Speedway. Test day form is attached.

Pirelli Tires: All tire orders must be placed with Frisby Performance Tire via email at least 2 weeks prior to the event at;

[HTTPS://www.frisbyracetire.com/f4-us-championship-series-html](https://www.frisbyracetire.com/f4-us-championship-series-html)

Shipments: Package Deliveries – please ship to:
Team Member's Name/ Cell Phone number
Homestead-Miami Speedway
1 Ralph Sanchez Speedway Blvd, Homestead, FL 33035

Garage Rental Information:

There are 56 garage rentals are available for this event. Each garage bay at this facility is a covered rectangle of 18x20 space. you can request to rent as many garages as you want; HOWEVER, preference will be given to all teams on the basis of "one car, one space" until the deadline of **March 31**. After that date, we will accommodate any teams that want additional garage bays based on the "first come, first served" method. The cost will be **\$250** per 18x20 space. Garage rental forms are available on the website or fill out the attached form and send to CherriLea Roduner; croduner@sccapro.com.

Minimum Ride Height Requirement:

Ride height will be measured as describe in Rule Clarification (RC) 003.

Spotters: All teams are advised to employ the use of spotters for all cars in all sessions. The Nascar spotting stations at the top of the grandstands will be open.

Overpasses: Overcrew passes are available and can be purchased at Registration.

Paddock Parking Information:

Paddock will open for all F4US competitors on Thursday, April 6, after 2pm

Spec Race Fuel:

Sunoco 93 octane must be purchased at track pumps

Disposal and Recycling:

Please use disposal barrels located throughout the paddock for trash. No tires or fuel containers may be left behind. A fee will be charged if these items are not removed.

Driver Licenses:

Minor Drivers holding a SCCA Pro competition license or SCCA Pro Provisional Competition license can compete for Championship points. Issuance of FIA Superlicense points are subject to FIA rules and regulations.

Radio Frequency:

All teams are required to monitor the Race Control Frequency –

466.3875 DPL 664

All teams are required to submit their team frequencies to the series.

Please email your radio frequencies to the F4US Technical Delegate Mike Wright - mwright@sccapro.com

Transponders: All F4US cars are required to have a working transponder mounted in factory location. Please register your transponder numbers before the event with Steve Oseth – soseth@sccapro.com or CherriLea Roduner – croduner@sccapro.com.

Video Cameras:

All F4US cars must have operable video cameras located in the stock position on the left side of the roll bar. All cars must submit video cards to tech within 30 minutes of the end of that session. SEE Rules Clarification # 0005 for complete procedure description.

Starting Light Systems / Standing Start Practice:

Standing start practice will be available during Friday test session and official practice. The lights will be located in the last pit stall before pit exit. Drivers must complete at least two observed practice starts prior to qualifying.

Pirelli Tire Operating Parameter:

As published in TRB 004, tire operating parameters are:

2017 F4 US Championship
CIRCUIT TECHNICAL BULLETIN # 1 - Homestead

SLICK		RIM WIDTH	TIRE SIZE	P. TARGET (PSI)	P. MIN (PSI)	CAMBER MAX
	FRONT	13x9"	200/540-13	22	16	-3.80
	REAR	13x11"	250/575-13	22	16	-3.80
RAIN						
	FRONT	13x9"	200/540-13	23	18	-3.80
	REAR	13x11"	250/575-13	23	17	-3.80

P. TARGET :

Target optimum hot pressure value for the tire. The pressure should be measured immediately after the use of the tire on the track. Never set the pressure at lower values than recommended. Dry air or nitrogen is recommended to inflate tires to avoid excessive pressure build up.

P. MIN :

Minimum cold starting pressure for the tire. The minimum pressure needs to be checked before the car is run on the track. Never use the tire below the minimum pressure otherwise you will compromise the integrity of the tire.

Pressure below the minimum value will cause excessive deflection of the sidewall, risk of air loss between the bead and rim, and risk of bead unseating.

During the first lap out from the pit and the warm up lap we strongly recommend to avoid curbs or any other kind of hard impact to prevent air loss.

CAMBER MAX:

This value need to be determined with respect of the P. MIN value so you can achieve the P TARGET during the use of the tyre on the track

This value need to be checked and adjusted to the calculated value at the same time every day until the end of the event.

ROVAL ALIGNMENT & PRESSURE:

For combination road course ovals with sections of high banking, the camber settings must be significantly reduced because the banking dramatically increases the load on the tires. Negative camber must be reduced by 1 degree on the outside wheels and 1.5 degrees on the inside wheels. The minimum cold starting pressure and the target hot pressure also need to be increased by 4 psi on the outside tires and 2 psi on the inside tires.

TREAD PATTERN TEMPERATURE:

SLICK tires – optimum tread temperature is between 160°F and 220°F. The temperature should never be higher than 250°F. The temperature difference between the inside shoulder and outside shoulder of the tires should not be greater than 40°F.

Pirelli strongly recommends the use of metal valves and caps.

Roll Bar Cover:

All teams are advised to specify the team name and car number inside of the roll bar cover should it be lost during an incident or while the car is being recovered.

Driver/Crew Attire:

All team members including the driver are expected to be in complaint F4 team apparel when at the track. Any teams in violation of this are subject to monetary and competition penalties.

Parc Fermé:

Teams are reminded that after qualifying and all races, Parc Fermé will commence at the sessions checkered flag. Cars entering pit lane after the checkered flag cannot stop in pit lane and must report immediately to impound.

Flags:

SCCA Pro Racing flagging rules will apply to all official sessions.

Homestead-Miami Speedway Promoter TEST DAY (April 7, 2017) Registration Form

Homestead-Miami Speedway
Infield RV/Toterhome "Overnight" Parking/Camping
