

**DAMPER RESERVOIR CLAMPS (Option)– Available Immediately**

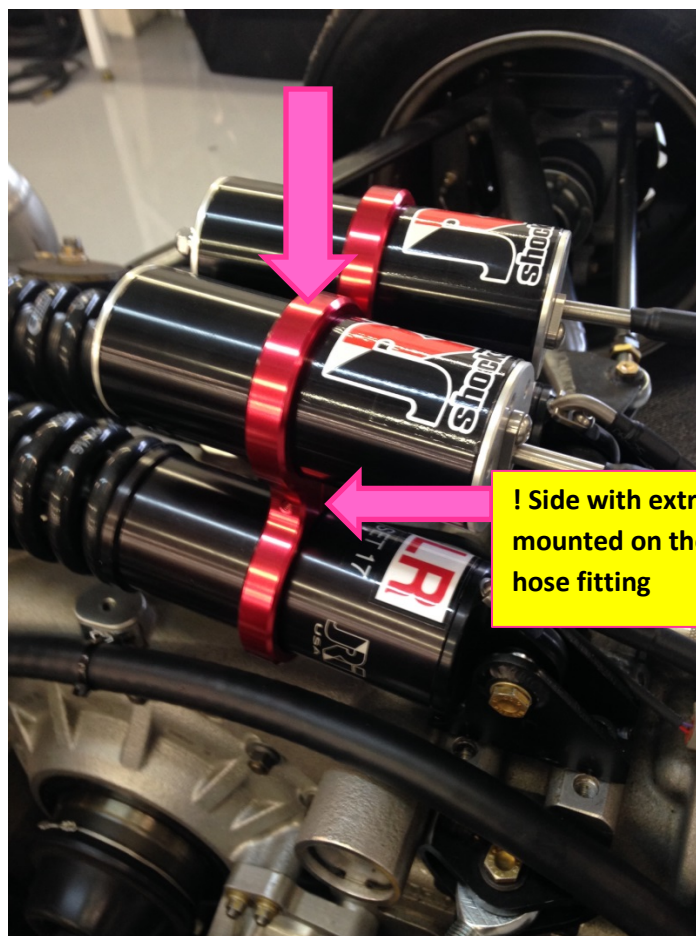

Damper Reservoir clamps have been designed and produced especially for the rear damper reservoirs. Although they can be fit to the front as well, please take caution in securing the canister hose away from the spring.

Parts will be available through Onroak Automotive NA Factory and Support Truck.

**PN: JRI13710453-A**

**FIA TYPE 1 PART**

**COST: \$150/pr**

**! Side with extra clearance notch needs to be mounted on the damper body, to clear the hose fitting**
