

## TECHNICAL ADVISORY MEMO

**No:** TAMF4-2018-012  
**Date:** May 7, 2018  
**To:** All  
**Subject:** Engine Oil-to-Water Heat Exchanger Bypass

These will be available for all teams from Onroak at Road Atlanta.

The bypass is a Type 1 part.

This is an optional upgrade.

If not running this bypass, the only other option permitted is to run the original heat exchanger as delivered and unmodified. Due to the time constraints of the schedule at Road Atlanta, compliance will not be enforced until qualifying.
