

F4 Technical Advisory Memo

No: TAMF4-2020-030

Date: September 11, 2020

Subject: Jongbloed Front Wheels for Rain Tires at Sebring and Homestead

Ligier advises that arrival date of stock of new Dynamic wheels remains unclear. As such...

Enforcement of 2020 F4 Sporting Regulations section 26.3.o for the 2020 events at Sebring and Homestead will continue to be revised to allow the use of Jongbloed front wheels, as formerly supplied by Ligier, for rain tires only. This revision is only permits substitution of the front wheels when using rain tires.

Another TAM will be issued prior to COTA either extending this permission or ending it, depending on when stock arrives.

The requirement for Dynamic wheels, both front and rear, rain and dry, will resume for 2021.

Both the Dynamic and Jongbloed wheels referred to in this memo must be the correct Type 1 parts, as supplied by Ligier, and unmodified.
