

COTA Load In Memo October 26, 2024

To All Teams:

The track has informed us that we may move in Tuesday, October 29th. We've been given a window of 3:30pm to 4:30pm to bring trucks & trailers in from the staging lot. The staging Lot is Lot R (Elroy Road and Kellam Road – north end of the facility). Please do not park on COTA Blvd.

All teams will move from the staging lot to their assigned paddock space when directed by PMH staff. Any teams utilizing a garage for the event will be brought into the paddock during the same time window but may be delayed in parking in the spot for their garage if equipment is still occupying that space. Any effected teams will be parked in an adjacent area in the paddock until the garage parking becomes available. With 3:30-4:30 being our only anticipated entry window on Tuesday afternoon, any garage renters that want to move in before Wednesday morning must arrive during that time, regardless of the vacancy status of their garage space.

Please note, the 3:30pm to 4:30pm load in time on Tuesday is time certain. The track informed us that the tunnel and access road will close promptly at 4:30pm. Any teams not moving in Tuesday between the 3:30pm to 4:30pm window will move in at 8:00am Wednesday morning. Our first on-track sessions start at 1:00pm on Wednesday.

PMH will have a staff member in the staging lot both Tuesday afternoon and Wednesday morning to release the trucks for load in.

Thank you for your understanding regarding load in. The COTA track does a wonderful job on working to have all the F1 tents, temporary buildings and equipment removed for us by Tuesday afternoon, and we appreciate that we are able to accommodate load in on Tuesday afternoon.

On behalf of everyone at PMH, we wish all JS F4, F4 U.S. and FR Americas teams a safe trip.

Sincerely,
Scott.
