

[L5 SILVER]

[L5 ANTHRACITE]

[L5 WHITE]

If you're up against the wall trying to squeak killer sound out of a room that is conspiring against your every sonic wish, we have a suggestion. Stick it to that wall. This is precisely why we make the L5. It's really our M5 driver set in drag – dressed up in a compact, easy to install wall-mounting rig. The L5 is ideal for surround channels (in conjunction with any Evolution system) or flanking your flatty-TV. And for that Karma Sutra position, the L5 can be rotated (even spun, depending how fast you wanna go) a full 180 degrees. A bona fide wall hugger.

[SPECIFICATIONS]

System Type:	High-output wall mount speakers
Configuration:	3-way acoustic suspension
Woofers:	(2) 5.25" polypropylene cone
Midrange:	3" treated paper cone
Tweeter:	1" fluid cooled aluminum dome tweeter
Magnetically Shielded:	No
Frequency Response:	Between 70Hz - 30kHz +/- 3dB
Crossover Frequency:	380Hz, 3.5kHz
Crossover Slopes:	12dB LP, 12dB HP
Sensitivity:	85dB (2.83v@1m)
Impedance:	6 ohms nominal
Inputs:	5-way binding posts on rotate-able terminal cup
Recommended Amplifier Power:	35W/channel minimum, 150W/channel maximum
Dimensions:	7.7" W x 21.8" H x 5.6" D
Weight:	18 lbs each
Finish:	Matte white (paintable), Silver, Anthracite
Other:	Integrated wall bracket, magnetically attached end caps
