

Waitlist Policy

- When the event hits the entry cap, the remaining competitors will be put on a waitlist.
- For those entrants on the waitlist, there is no guarantee the entrant will get into the event.
- As entrants on the entry list cancel, the next person in line on the waitlist will be notified via email that there has been a cancellation and they have now been moved into the event. If the entrant has a credit card on file with MSR it will be charged. If there is no card on file when that entrant is moved over, they will be required to log into MSR and pay for the event. The entrant will have 24 hours to pay for the event before that entrant is placed back on the waitlist and the next entrant is put into the event.
- We will continue to move entrants off the waitlist as we receive cancellations up until the time online registration closes.
- After online registration closes, no entrants will be moved off the waitlist onto the registration list for the event. The waitlist will be officially closed, and even if there is a cancellation, no one will be taken off the waitlist to fill that spot.
- On-site registration - if the event is full will not be open to anyone on the waitlist or new registrations.
