

ATTENTION!!!!!!

For the Crows Landing ProSolo, we are only allowed to enter on Ike Crow from CA-33.

Put intersection of W. Ike Crow Rd & CA-33, Crows Landing in for GPS (for Google Maps, Apple Maps, etc) destination. If you put in "NASA Crows Landing, GPS will try and guide you to Bell Rd which we are explicitly NOT supposed to use. Please be sure to use the correct directions. See link for specific directions:

http://www.sfrautox.com/?page_id=113 .

ALSO, Ike Crow Road is FULL of potholes. Please go VERY slowly. 15mph should be the about the max speed. Due to the potholes, the road is also muddy. Please just be aware.
