Course Designer

Pre-Event Responsibilities

- Design a course per the requirements of the Solo Rules
- Provide a copy of the course design to the SCCA National Office 6 prior to the event for approval
- Determine the number of corner stations your course will require and report the number to the Administrative Manager for the event (Champ and Match Tours only)
- Make an adequate number of copies of Day 1 and Day 2 course maps for handing out at check-in
- Provide 5 copies of each of the individual corner station sections on your course, ensuring that cone numbers are clearly marked. These are used for the corner station clip boards
- Work with SCCA Event Lead and Chief of Safety to finalize course layout prior to marking
- Ensure that each cone on course is clearly and correctly marked and numbered once it has been approved
- Ensure that the course is lined

Event Day Responsibilities

- Be available in the event there is an issue with the course or surface which could lead to a layout modification
- Be ready at the end of Day 1 Competition to change the course over to Day 2 Competition (Champ Tours only)
  - Work with the SCCA Event Lead & Safety to finalize course layout
  - Mark and number any new cones
  - Mark out any un-used boxes
  - Chalk any new areas or changes
  - Ensure that the course is lined

Post Event Responsibilities
