2020 ProSolo Index (PSI)

Background

- An Ad Hoc Committee, serving as PSI development consultants, was used to determine the index factors for 2020.
- This Committee has over 160 years of collective Solo experience and each has had personal involvement in the Street through Modified Categories, as well as the Junior Category.
- The PSI consultants all understand and have experience with Index classes as ProSolo competitors and wanted to develop as even a playing field as possible; they all had skin in the game.
- Indexes were chosen based on the 2020 RTP Solo index that has more data points as compared to the 2019 PSI. Consideration was then given to launch characteristics/advantages. The index factors change a lot when compared to last year's PSI, but are closer to the established and widely accepted RTP Index.
- Four years of data was used to determine the effect of the PSI index changes on past results to validate the approach.
- The Committee wanted to thank Rick Ruth for his years of development of the RTP into the gold standard of indexes, which provided them the basis for this new approach.

2020 Index Factors

Class	PSI
SS	0.824
AS	0.818
BS	0.807
CS	0.804
DS	0.804
ES	0.788
FS	0.802
GS	0.784
HS	0.772
SSC	0.788
SSR	0.848
STH	0.811
STS	0.806
STX	0.812
STR	0.825
STU	0.827

SSP	0.857
ASP	0.856
