CLUB RACING BOARD MINUTES | December 3, 2019
The Club Racing Board met by teleconference on November 5, 2019. Participating were Peter Keane, Chairman; David Arken, Tony Ave, Jim Goughary, Paula Hawthorne, Sam Henry, John LaRue, Steve Strickland and Shelly Pritchett, secretary. Also participating were: Bob Dowie, Marcus Merideth, and Peter Jankovskis BoD liaisons; Eric Prill, Chief Operations Officer, Deanna Flanagan, Director of Road Racing; Rick Harris, Club Racing Technical Manager and Scott Schmidt, Technical Services Assistant. The following decisions were made:

**Member Advisory**
None.

**No Action Required**
F
1. #27905 (James Rogerson) F4 into FX
Thank you for your letter. The Club Racing Board appreciates your comments.

FA
1. #27516 (JEREMY HILL) Request to Balance FA and FB
Thank you for your letter. Please see the response to letter #27319 in this Fastrack's Technical Bulletin.

2. #27544 (DAVID OLEARY) Concerns About Grouping With FA
Thank you for your letter. Please see the response to letter #27319 in this Fastrack's Technical Bulletin.

3. #27785 (Greg Pizzo) Allow Mods to Current FB Rules So That F1000/FB Is Competitive
Thank you for your letter. Please see the response to letter #27319 in this Fastrack's Technical Bulletin.

4. #27789 (Dave Caswell) FB/FA Integration for 2020
Thank you for your letter. Please see the response to letter #27319 in this Fastrack's Technical Bulletin.

5. #27792 (S. Jay Novak) Request for Engines for FB Cars Integrated Into FA
Thank you for your letter. Please see the response to letter #27319 in this Fastrack's Technical Bulletin.

6. #27799 (Mark Nixon) Considerations for FB Joining FA in 2020
Thank you for your letter. Please see the response to letter #27319 in this Fastrack's Technical Bulletin.

7. #27866 (Thomas Copeland) F1000 - FA Parity
Thank you for your letter. Please see the response to letter #27319 in this Fastrack's Technical Bulletin.
8. #27893 (Mark Milazzo) Request to be included in new Formula X Class
Thank you for your letter. The Club Racing Board will consider classification of the Formula Speed2.0 in the FX class once complete specifications have been supplied.

FC
1. #27872 (Steve Thomson) Support for FX
Thank you for your letter. The Club Racing Board appreciates your comments.

FM
1. #27964 (Robert Wright) Support for FX Class
Thank you for your letter. The Club Racing Board appreciates your comments.

P2
1. #27815 (Chuck Bona) Request for No Reduction in Prototype 2 Performance
Thank you for your letter. The P1 and P2 classes were intended to occupy different spheres of competition, with P1 conceived as the premier class promoting advanced technology and innovation, and P2 envisioned as a lower-cost alternative through restrictions on chassis materials, engine power, and vehicle aerodynamics. One of the purposes of the differing class philosophies was to maintain a performance gap sufficient to justify having two classes. The Club Racing Board uses an SCCA-developed Power Factor formula (PF = Weight/Peak HP + Peak Torque/2) to set the weight and power parameters for classes such as P1 and P2, and periodically collects on-track data to confirm that cars in the same class have similar rates of longitudinal acceleration from approximately 60 to 100 mph, before a significant impact from aerodynamic drag comes into play.

The Power Factor numbers developed for P1 and P2 initially provided a sufficient performance gap between the classes, but over time this gap eroded, and in late 2018 the Club Racing Board announced adjustments to several P2 platforms to restore a proper gap between the classes. This was the first significant adjustment since the P2 class was inaugurated in 2014. Before announcing and implementing these adjustments, the FSRAC and the CRB arranged for the motorcycle engine builder who developed the P2 restrictor for the SCCA to test the new smaller restrictors and build ECU maps for the proposed changes. A comparison of the P1 and P2 lap times at the 2019 Runoffs shows that the adjustments have had their intended effect, and there is currently no plan to make a further across-the-board performance envelope change to the P2 class.

An individual adjustment to the stock 1.0 liter platform is not warranted at this time. There have been no creditable stock 1.0 liter efforts in several years, and the available dyno data fully supports the current restrictor size and minimum weight for this platform. If a competitor fields a representative stock 1.0 liter effort during the 2020 season, the Club Racing Board will collect on-track data to assess the car’s rate of longitudinal acceleration relative to other P2 cars and, if warranted, make appropriate adjustments to the platform. Likewise, an adjustment to alter the balance of performance between cars with automotive-based engines and those with motorcycle-based engines is not supported by the data collected during the 2019 Runoffs, where the leading examples of each type of car were closely grouped both on track and in terms of their rates of longitudinal acceleration below 100 mph. The Club Racing
Board will continue to monitor class performance and will make individual changes based on credible performance data.

2. #27913 (Tim Day Jr) Enterprise Sports Racer Parity
Thank you for your letter. Please see the responses to letter #27815 in this Fastrack and letter #27869 in this Fastrack's Technical Bulletin.

GCR
1. #27053 (Richard Kulach) Request for Rain light Requirements-Multi Class Racing Groups
Thank you for your letter. Please see the responses to letter #27815 in the July 2019 Fastrack.

2. #27780 (Gregory Cirillo) Comment on Body Contact Review
Thank you for your letter. The Road Racing department is working to develop guidelines that will assist drivers and race officials in better understanding racing incidents. We will include your advice in the development of these guidelines.

GT1
1. #27752 (Matthew Miller) Request to Reduce Weight Added for Use of Sequential Transmission
Thank you for your letter. Please see the response to letter #27750 in this Fastrack's Technical Bulletin.

2. #27760 (David Pintaric) Request sequential transmission weight penalty reduction
Thank you for your letter. Please see the response to letter #27750 in this Fastrack's Technical Bulletin.

3. #27761 (David Pintaric) Request for reduction in weight penalty for 18
Thank you for your letter. Please see the response to letter #27751 in this Fastrack's Technical Bulletin.

GT2
1. #27652 (Danny Lowry) Request for Paddle Shifter on Porsche 997.2 GT3 Cup
Thank you for your letter. Paddle shifter is already allowed with a 100 lb. weight penalty.

GT3
1. #27625 (Michael Lewis) Request BoP clarification
Thank you for your letter. Please see the response to letter #26958 in this Fastrack's Technical Bulletin.

GTL
1. #27716 (Troy Ermish) Request for Help for Older Sedans
Thank you for your letter. Age and aero is not allowed for in the classification process.
Strategic
1. #27321 (Armen Megregian) Request for Future Runoffs at Watkins Glen
Armen, thank you for your thoughts about holding the Runoffs at Watkins Glen. This is a great facility and we look forward to the Hoosier Super Tour event held at this iconic venue each year. Participation and enthusiasm are very high and many racers and workers enjoy the excitement Watkins Glen brings with the history that surrounds the entire geographical area. We appreciate your input.

T2
1. #26939 (Mark Boden) Tire Size in T2
Thank you for your letter. Recent changes have been made to the class to improve BOP. We will continue to monitor the class.

2. #27699 (William Moore) 2014 T2 Camaro Weight Adjustment and Restrictor Plate - GCR 651
Thank you for your letter. The TAC has made changes to the class and we'll continue to monitor the class.

3. #27749 (Ron Randolph) Request for more T2 Cars in 2020
Thank you for your letter. Changes have been made to the class to improve competition. If you have any specific ideas, please send them in for consideration.

Not Recommended
B-Spec
1. #27221 (David Oliveira) Request for Exhaust Wrap Material for Header
Thank you for your letter. After further research we have found the stock heat shield can be used.

2. #27720 (G. Brian Metcalf) Allow 2014 to Present Base Model Mini Cooper in B-Spec
Thank you for your letter. Turbo model cars are not allowed in B-spec racing at this time.

P1
1. #27867 (Jeff Shafer) Sealed Elan Engine
Thank you for your letter. The Club Racing Board does not recommend this change. On-track performance shows that the sealed DP02-spec 2.0L MZR engine is not within the performance envelope of the P1 class, but suitable modifications to the 2.0L engine will allow it to be competitive using the required Single Inlet Restrictor.

SRF3
1. #27657 (Mark Peyser) Request for Wheel Tethers
Thank you for your letter. The Club Racing Board does not recommend this change at this time. While wheel tethers have become relatively common in professional racing series, implementation of such a requirement in all open-wheel and sports-racing classes in the SCCA road racing program could not be readily accomplished at this time. Unlike professional racing series, which often use a single, spec chassis and typically involve a relatively small number of sponsored competitors, the SCCA road racing program includes dozens of chassis variations and hundreds of competitors of varying means. Wheel tethers are
not commercially available for every chassis type in the road racing program and therefore would likely need to be custom-made for each application. In addition, the SCCA’s volunteer technical staff does not have the resources to verify proper fitment of custom-made wheel tethers on each and every chassis variation that exists in the road racing program.

GCR
1. #27610 (Charles Tanck) Request to Put Wheelbase On All Cars
   Thank you for your letter. This is a local issue, other regions have platform scales and/or bridge ramps that do not require movement of scales due to changes in wheelbase.

GT3
1. #27666 (Richard Smith) Disenfranchised GT2 Mazda RX7 Weight Penalty
   Thank you for your letter. The disenfranchised GT2 cars running in GT3 penalties are appropriate as currently written.

2. #27667 (Richard Smith) Disenfranchised GT2 Mazda RX7 Restrictor Size
   Thank you for your letter. Disenfranchised GT2 running in GT3 penalties are appropriate as currently written.

GTL
1. #27406 (James Gregorius) Request 12a Rotary SIR Increase
   Thank you for your letter, The SIR is felt to be proper for current class balance, the Club Racing Board will continue to monitor the class.

FP
1. #27549 (David Boles) 93-98 Volkswagen Golf Help
   Thank you for your letter. The requested allowances are not recommended, as an alternate intake manifold and larger valves are outside the philosophy of Limited Prep.

HP
1. #27838 (Greg Amy) Request to Classify Porsche 914 2L in HProd
   Thank you for your letter. This classification is not recommended at this time, as 2.0L is considered too much displacement for HP. The Production Committee would like to see the 914-4 1.8L campaigned in HP, to better gauge the competitiveness of this vehicle.

2. #27855 (Mike Ogren) Please Move the 2015+ Honda Fit to FP
   Thank you for your letter. This is not recommended at this time. There has not been a fully campaigned example of this car ran yet to provide additional data. Also note that the stock specs of its engine are very close to those allowed on its spec line.
Prod General
1. #27679 (Jonathan Spiegel) Level 2 (Limited Prep) Cylinder Head 9.1.5.E.2.e
   Thank you for your letter. This allowance is not recommended at this time, because it is outside of the scope of Limited Prep. Also note that pistons are already unrestricted.

2. #27916 (David Mead) Request to Allow Removal of Control Arms Rendered Obsolete
   Thank you for your letter. There is not a significant advantage to allowing this, yet there’s certainly some unintended consequence that could arise from it. Therefore, this is not recommended.

SM
1. #26881 (Marc Cefalo) Request to approve additional hardware allowances
   Thank you for your letter. Additional hardware allowances are not recommended at this time; however, we will continue to monitor.

Recommended Items
The following subjects will be referred to the Board of Directors for approval. Address all comments, both for and against, to the Club Racing Board. It is the BoD’s policy to withhold voting on a rules change until there has been input from the membership on the presented rules. Member input is suggested and encouraged. Please send your comments via the form at www.clubracingboard.com.

B-Spec
1. #27647 (James Rogerson) Request Passenger Seat replacement
   In GCR, section 9.1.10.E., add the following:
   "44. A passenger seat meeting all the specs of the driver’s seat may be installed in the front passenger seat position. The seat may not be occupied during SCCA racing events."

2. #27686 (James Rogerson) Request for Automatic Transmission Inclusion
   In GCR, section 9.1.10.E.9., make the following changes:
   "Radio/stereo audio equipment and air conditioning refrigerant systems are the only options permitted and may be non-manufacturer, standard equipment. Two-way radios may be used. Hand controls are allowed in those instances where the driver can demonstrate the physical need for them. **Automatic and cvt transmissions versions of all legal cars are legal for competition in B-Spec meeting their spec line. Models with oem paddle shifters are acceptable.**"

3. #27687 (James Rogerson) Request to Add Transmission Coolers to Automatics
   In GCR, section 9.1.10.E., add the following:
   "43. Auxiliary transmission coolers may be approved on a case by case basis. Part numbers must be submitted and added to the cars spec line."

FM
1. #27712 (Moses Smith) New FM2 Class Proposal
   The FMZR will be classed in FA upon proof of compliance with GCR 9.4.5 Roll Cage Specification, other applicable safety regulations, and submission of the specification list prepared by the FSRAC.
GCR
1. #27753 (Richard Muise) Directive to Front Row Drivers Behind Pace Car
   In GCR Section 6.5.2.B.1., make changes as follows:
   "The front row drivers must be advised not to pass the pace car."

2. #27824 (SCCA Staff) GCR Event Credential Section 4.5.2 Change
   In GCR, section 4.5.1., make changes as follows:
   "Anyone participating in an event must sign the SCCA Release and Waiver of Liability Agreement (unless an annual waiver is on file at SCCA National Office) before an event credential (pass) will be issued."

   In GCR, Section 4.5.2., change as follows:
   "A. An SCCA issued photo ID One of the accepted forms of Photo ID is required for any registered event participant who is an SCCA licensed member.
      1. An SCCA-issued photo ID (hard card or electronic form) issued by the SCCA National Office, SCCA Pro Racing or an SCCA Region.
      2. A Government issued photo ID (Driver’s License, State Identification Card, U.S. Military ID, or Passport) with verification of current SCCA license and membership. The credential for the event must be clearly visible.
      B. The member’s name, current photograph, SCCA membership number, and credential for the event must be clearly visible. Identification cards from any other organization will not be accepted.
      C. Accepted photo IDs are those issued by the SCCA National Office, the Road Racing Department, the SCCA Pro Racing Department, or an SCCA Region. Any of these must be honored by any SCCA Region. A non-member or weekend member will be issued a paper pass or a wristband.
      D. Identification cards from any other organization, including civil authorities, will not be accepted.
      E. A non-member or weekend member will be issued a paper pass or a wristband rather than a photo ID:"

GT General
1. #27323 (Todd Oppermann) Windshield Clips
   In GCR section 9.1.2.F.6.c.1, add as follows:
   "Alternatively, the bottom may be captured in a channel.
   "No clips or straps are required if bonded-glass factory windshields and/or rear windows are attached to chassis per original specifications (i.e., glass-bonding adhesive)."

T2
1. #27912 (RICHARD KULACH) Request for Alternative Brake Kit on Nissan 370Z
   In T2, Nissan 370Z (09-17) / 370Z NISMO Edition (09-17), change Notes as follows:
   "53005-SS370 T-2 spring kit allowed; 54600-SS370 T-2 front and rear sway bar kit allowed. Sports Package is allowed. Springs up to 1000 lbs/in front and rear allowed. 54010- S2350 (F) and 55020-SZ350 (R) allowed. Cold Air Intake allowed. Header permitted - Part # 14002-SS370. Rear spring relocation permitted to allow coil over shocks. SPL suspension kit permitted that includes: rear camber arms #SPL RLL Z34, SPL rear toe arms #SPL RTA Z34, SPL rear traction arms #SPL RTR Z34, SPL front camber arms #SPL FUA Z34, SPL rear mid link #SPL RML Z34. Zspeed and Z1 alternative clutch slave permitted. The
following STOPTECH parts are allowed with a 50 Lb penalty: #83.488.6800.51 front, 83.657.0057.51 rear."

T2-T4
1. #27606 (Raymond Blethen) Request to Classify all Mazda RX8 Models in T3/T4
   In T3, change Spec Lines as follows:
   "Mazda RX-8 Base/R3 /Sport/GT (04-12)"

   In T3, change Spec Lines as follows:
   "Mazda RX-8 Base/R3 /Sport/GT (04-12)"

T4
1. #27329 (David Mead) Request to Allow Brake Upgrade On T4 Mustang
   In T4, Ford Mustang V6 (05-10), add to notes as follows:
   "An Aluminum driveshaft is allowed. Any LSD permitted. Ford brake kit M-2300-D allowed."

2. #27659 (Derrick Ambrose) Request for 2014-2018 Mazda 3 GT Brakes
   In T4, Mazda3 (14-18), add to notes as follows:
   "Any spring up to 800 lbs. front and 1000 lbs. rear springs may be used. Aftermarket wheels at a min. weight of 15 lbs. each. Cold air intake. Front camber plates. 25mm max rear sway bar allowed. Any year OEM Mazda 3 mirrors allowed. CorkSport rear camber arms (Part# AXM-3-318-10) permitted. Header allowed. RH Caliper GHY9-33-99Z, LH Caliper GHY9-33-98Z, Rotor GHR1-33-251A allowed."

3. #27763 (Ron Munnerlyn) Request to allow aftermarket OEM coolant expansion tank
   In T4, GCR section 9.1.9.2.D.3.a.2., add the following:
   "Any radiator and fans are permitted, provided it mounts in the original location, maintains the same plane as the original core, and requires no body or structural modifications to install. No new openings created by fitting an alternate radiator may be used to duct air to the engine. Any expansion tank permitted as long as it serves no other purpose."

4. #27764 (Ron Munnerlyn) Request to allow aftermarket OEM power steering reservoir
   In T4, Mazda MX-5 / Club Model (06-15) add to notes as follows:
   "Allow Mazda header part number 0000-06-5407. Any OEM or aftermarket hardtop is permitted that retains the OEM roof silhouette, including Mazda hardtop and part #0000-07-5901-CC. Aftermarket power steering reservoir is allowed."

5. #27831 (Nick Leverone) Request for Factory Installed Wings on Subaru BRZ
   In T4, change Spec Lines as follows:
   "Subaru BRZ, BRZ Limited (13-16)"

   In T4, change Spec Lines as follows:
   "Scion FR-S, 10 series (13-16)"
6. #27892 (John Heinricy) Request for Replacement Clutches
In GCR, Section 9.1.9.2.D.i.5., change as follows:
"T2-T3 only: Any clutch disc and pressure plate of OEM diameter may be used, provided that they shall be bolted directly to an unmodified stock flywheel and is no lighter than 95% of the factory OEM clutch disc and pressure plate."

**Taken Care Of**

**B-Spec**
1. #26952 (Dave Mead) Request to Add Sedan Model to Fiesta BSpec Classification
   Thank you for your letter. Please see the response to letter #26798 in this Fastrack's Technical Bulletin.

2. #27530 (Lucas Joslin) Sedan Versions of Cars
   Thank you for your letter. We addressed this in letter 26797 and 26798 in current Fastrack.

3. #27608 (Edward Werry) 2010 Honda Fit #53 post-Runoffs Comp Adjustments
   Thank you for your letter. We will have bop adjustments in the near future. We are doing some dyno testing and will have revisions soon.

4. #27611 (Charles Davis) Request for Weight Adjustment
   Thank you for your letter. We will have bop adjustments soon. We are doing some dyno testing and then they will be released.

5. #27719 (G. Brian Metcalf) Remove the Restrictor Plate From the 2011 - 2013 Mini Cooper
   Thank you for your letter. We are doing more testing and then we will release the bop adjustments for 2020.

6. #27800 (James Rogerson) Request for Balance of Power
   Thank you for your letter. We are doing more testing and will have bop adjustments released in the near future

**FV**
1. #27904 (Thomas Galuardi) Against Four Bolt Wheels
   Thank you for your letter. Please see the response to letter #27603, December 2019 Fastrack Technical Bulletin.

**GCR**
1. #27656 (GCR Committee) Add Driver to Court of Appeals
   Thank you for your letter. This is not a GCR change and the item has been forwarded to the Board of Directors previously.

**HP**
1. #27847 (Greg Amy) Info in Support of 914 Letters 27814 and 27838
   Thank you for your letter. Please see the response to letter #27814 in this Fastrack's Technical Bulletin.
2. #27936 (James Rogerson) Request to Include All Honda Fit Years
Thank you for your letter. Please see the response to letter #27782 in this Fastrack's Technical Bulletin.

SM
1. #27055 (Spencer Rutherford) Tires Are Too Expensive
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

2. #27069 (Tyler Quance) Suggestion to Jim Drago Tire Management Plan
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

3. #27074 (Mitch Reading) SM - tire management input
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

4. #27125 (Tom Hampton) Tire Limiting Proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

5. #27126 (Gordon Kuhnley) Support Tire Management Plan for HST and Majors
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

6. #27127 (Chris Lefferdink) Tire Proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

7. #27128 (Kyle Webb) Tire proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

8. #27129 (Craig Berry) Request to limit tires in Super Tours
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.
9. #27130 (Erik Stearns) Tire limiting proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

10. #27131 (Case Crowell) Tire limiting proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

11. #27132 (Keith Mellen) Tire limiting proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

12. #27133 (Joe Crowell) Tire limiting program
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

13. #27134 (David Dewhurst) Tire Limiting Proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

14. #27135 (Stephen Jones) Tire Limiting Proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

15. #27136 (William keeling) Opposed to tire limits
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

16. #27137 (Darren Brady) Tire costs
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

17. #27138 (Todd Martin) One Tire Per Event Rule
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

18. #27142 (Tom Sager) Tire rule for 2020
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

19. #27143 (Craig Janssen) Tire management proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

20. #27144 (Cooper Lilly) Tire limiting proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

21. #27148 (Frank Todaro) SM Tire rule change and new tire
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

22. #27151 (Dennis Hamminga) Tire limiting proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

23. #27162 (Ken Sutherland) Tire Limiting Proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

24. #27163 (Clark Cambern) Spec Miata Tire Use Rule new proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

25. #27164 (John Connelly) Tire Limiting Proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

26. #27166 (Alan Cross) Supports Tire Limit Proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

27. #27167 (Will Schrader) Supports Tire Limiting Proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

28. #27168 (Richard Baratta) Tire management Program
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

29. #27177 (Dave Dunning) Supports Tire Limiting Proposal
Thank you for your letter. We are currently working on several programs to contain cost while providing the racing community with a tire that meets their standards. Please reference letters 24462 and 27041 in an upcoming Fastrack.

T2
1. #27681 (James Leithauser) Request to Address Porsche
Thank you for your letter. Please see the response to letter #27746 in this Fastrack's Technical Bulletin.

2. #27798 (William Moore) Request to Remove Non-Factory Rear Wings From Competition
Thank you for your letter. Changes have been made to help improve this issue. Please reference letter #27746.

T2-T4
1. #27326 (Stephen Blethen) In favor of jack points
Thank you for your letter. Please see the response to letter #27607 in the December 2019 Fastrack.

2. #27575 (Stephen Blethen) Request to Make all Trim Levels Eligible
Thank you for your letter. Please see the response to letters #27606, 27831, and 27832 in this Fastrack.

3. #27680 (Derek Kulach) Request for 350Z Parity
Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

4. #27808 (Ben Slechta) Request for Stillen Air Intake on 350Z Spec Line
Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

5. #27809 (Ben Slechta) Request for SPL Rear Mid Links on 350Z
Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.
6. #27810 (Ben Slechta) Request for SPL Rear Toe Links on 350Z
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack’s Technical Bulletin.

7. #27811 (Ben Slechta) Request for SPL Front Upper Camber/Caster Arms on 350Z
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

8. #27812 (Ben Slechta) Request for SPL Rear Camber Links on 350Z
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

9. #27813 (Ben Slechta) Request for SPL Rear Traction Arms on 350Z
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

10. #27818 (David Mead) Add Language to Runoffs Supps Enforcing Tear Down of Race Winner
    Thank you for your letter. Please see the response to letter #27831 in this Fastrack's Technical Bulletin.

T3
1. #27621 (David Muramoto) Changes Requested for 03-08 Nissan 350Z Classification
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

2. #27715 (Rob Hines) Please Help Nissan 350Z HR
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

3. #27747 (Joe Aquilante) E46 Balance of Performance
   Thank you for your letter. We have made changes to the class and will continue to monitor the performance. Please see the response to letter #27781 in this Fastrack's Technical Bulletin for your second concern.

4. #27754 (James Slechta) Request to Increase Nissan 350z Restrictor Size
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

5. #27783 (Ben Slechta) Nissan 350Z HR Engine Restrictor Plate/Minimum Weight
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

6. #27787 (Jim Slechta) Request for Nissan 350z Help
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

7. #27796 (Mark Johnston) Request for Nissan 350z Restrictor Change
   Thank you for your letter. Please see the response to letter #27442 in this Fastrack's Technical Bulletin.

T4
1. #27581 (Tyler Quance) Request for Help for the NC MX-5 in T4
   Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.
2. #27668 (Tom Fowler) Request for Parity
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

3. #27717 (Tyler Quance) Help for the NC MX-5 in T4 CORRECTION
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

4. #27721 (Matthew Miller) Allow 316mm Mustang GT front rotors on 2005 and up V6
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

5. #27740 (Josh Smith) Mazda Support of Letter 27739
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

6. #27757 (Kevin Fryer) Support for Letter 27739
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

7. #27758 (Ron Munnerlyn) Support letter 27739
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

8. #27759 (Morgan Mehler) Letter in support of 27739
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

9. #27762 (Steve Bertok) MX-5 minimum weight reduction, letter number 27739
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

10. #27765 (Steve Bertok) Support for letters 27763, 27764
Thank you for your letter. Please see the response to letters #27763 and 27764 in this Fastrack.

11. #27772 (Robert Spence) Letter number: 27739
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

12. #27773 (Mike Burke) Support of Letter #27739
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

13. #27784 (Thoas Hart) Request for MX-5 Weight Adjustment
Thank you for your letter. Please see the response to letter #27739 in this Fastrack's Technical Bulletin.

14. #27832 (Nick Leverone) Factory Aero
Thank you for your letter. Please see the response to letter #27831 in this Fastrack's Technical Bulletin, regarding the BRZ. The committee agrees that allowing basic OE spoilers will be allowed on a case-by-case basis to prevent unnecessary tech issues for non-advantageous parts.

**What Do You Think**
None.
DATE: December 20, 2019
NUMBER: TB 20-01
FROM: Club Racing Board
TO: Competitors, Stewards, and Scrutineers
SUBJECT: Errors and Omissions, Competition Adjustments, Clarifications, and Classifications
All changes are effective 1/1/2020. If any day of a race event falls on the first day of the month, the previous month’s rules will be in effect for that event only. The new rules will become effective at the conclusion of the race event unless otherwise noted.

American Sedan
None.

B-Spec
1. #26797 (B-Spec Committee) Add Yaris Sedan
In B-Spec, classify the Toyota Yaris Sedan (2007-) as follows:

<table>
<thead>
<tr>
<th>B-SPEC</th>
<th>Bore x Stroke(mm) Displacement (cc)</th>
<th>Wheelbase (mm)</th>
<th>Gear Ratios</th>
<th>Final Drive</th>
<th>Brakes (inches)</th>
<th>Weight (lbs)</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Toyota Yaris Sedan 2007-</td>
<td>74.9 x 84.6 1491</td>
<td>100.4</td>
<td>3.55, 1.90, 1.31, 0.97, 0.82</td>
<td>3.72</td>
<td>(F) 10.0 (R) 7.9 drum</td>
<td>2400</td>
<td>Bilstein B14 47-237834 kit is allowed. Rear Swaybar PTR11-52071 is allowed. Cold air intake K&amp;N 69-8612TFK is allowed.</td>
</tr>
</tbody>
</table>

2. #26798 (B-Spec Committee) Add 2011-2016 Fiesta Sedan
In B-Spec, classify the Ford Fiesta 4dr Sedan (11-16) as follows:

<table>
<thead>
<tr>
<th>B-SPEC</th>
<th>Bore x Stroke(mm) Displacement (cc)</th>
<th>Wheelbase (mm)</th>
<th>Gear Ratios</th>
<th>Final Drive</th>
<th>Brakes (inches)</th>
<th>Weight (lbs)</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ford Fiesta 4dr Sedan (11-16)</td>
<td>79.0 x 81.4 1596</td>

<td>3.86, 2.04, 1.28, 0.95, 0.74</td>
<td>4.07</td>
<td>(F) 10.2 (R) 7.9 drum</td>
<td>2495</td>
<td>Suspension kit #M-FR3-FAEB allowed. Rear axle bushing #000-4-2203-RR allowed. Allow rear torque bar Corksport #Mz2-3-070. Cold air intake K&amp;N 69-353075 is allowed. Allow Bilstein B14 suspension kit 47-167490. Powerflex PFR19-1511BX2 rear suspension bushing allowed. Eibach rear sway bar #35143.312 is allowed. Mazda</td>
</tr>
</tbody>
</table>
3. #26799 (B-Spec Committee) add 2015-2019 Kia Rio 
In B-Spec, Kia Rio 5-door/LX (12/14), change year as follows:
"(12-1419)"

4. #27858 (B-Spec Committee) Error and Omissions 
In B-SPEC, Mazda2 (10-14), make changes as follows:
"Coil over shock kit (Bilstein) 0000-04-2201-BL, Front springs (ERS) 0000-049350-07, Rear springs (ERS) 0000-04-9250-07, Helper springs F&R 000004-9926, Spring spacer F&R 0000-04-9925, Front sway bar end links adjstbl 0000-04-2202, Rear sway bar 0000-04-2203-RR, Modified strut bearing plate 0000-04-2204, Crash bolt set 0000-04-2205, Allow rear torque bar Corksport #Mz2-3-070. Cold air intake Corksport Mz2-6-117-31100 and Mz26-117-33100. air duct Mz2-6-120-10 are allowed. Exhaust Header Kit (cat delete) HB.EM 60-404-SSS or HP-MZD001is allowed. Allow Bilstein B14 suspension kit 47-167490. Powerflex PFR19-1511BX2 rear suspension bushings allowed."

Formula/Sports Racing
F
1. #27903 (Formula/Sports Racing Committee) Incorporate FM, F4, USF2000 and other spec lines if FX approved 
Remove Formula Mazda, GCR section 9.1.1.E, in its entirety and re-letter the following sections accordingly. 
Add to the FX rules the following:

<table>
<thead>
<tr>
<th>Table 1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Car</td>
</tr>
<tr>
<td>---------</td>
</tr>
<tr>
<td>Formula Mazda</td>
</tr>
</tbody>
</table>
In FA Table 2, remove FIA Certified F4 spec line in its entirety.
Add to the FX rules the following:

<table>
<thead>
<tr>
<th>Car</th>
<th>Engine</th>
<th>Wheel Width (in) ± .060</th>
<th>Aero</th>
<th>Transmission</th>
<th>Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIA Certified F4</td>
<td>See notes</td>
<td>See notes</td>
<td>See notes</td>
<td>See notes</td>
<td>See notes</td>
<td>Upon request, competitors must provide a copy of the rules in effect when the car was certified by the FIA.</td>
</tr>
</tbody>
</table>

In FA Table 2, remove Pro Formula F2000 spec line in its entirety.
Add to the FX rules the following:

<table>
<thead>
<tr>
<th>Car</th>
<th>Engine</th>
<th>Wheel Width (in) ± .060</th>
<th>Aero</th>
<th>Transmission</th>
<th>Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pro Formula F2000</td>
<td>2.0 Liter Zetec</td>
<td>(F) 8 Max (R) 10 Max</td>
<td>See FA Rules</td>
<td>Up to 5 Forward Gears, Limited Slip Differential (sequential Carries a 25 lb Weight Penalty)</td>
<td>1210</td>
<td>Engine must be prepared to current FC rules except that ECU map and cams are unrestricted. An air restrictor is not required.</td>
</tr>
</tbody>
</table>
In FA Table 2, remove USF2000 spec line in its entirety.
Add to the FX rules the following:

| Table 1 |
|------------------------|----------------|----------------|----------------|----------------|----------------|
| **Car** | **Engine** | **Wheel Width (in) ± .060** | **Aero** | **Transmission** | **Weight** | **Notes** |
| USF2000 Tube Frame | 2.0 Liter Mazda MZR | See notes | See notes | See notes | See notes | Car must comply with the 2012 Pro USF2000 rules. Competitors must have the current rules in their possession and present them upon request. The following sections of the 2012 Pro rules do not apply: 14.1.1 thru 14.1.4; 14.12.2 thru 14.12.13; 14.13.1; 14.13.2; 14.13.5; 14.18 in its entirety; 14.19 in its entirety; 14.27 in its entirety; 13.34 in its entirety |

F5
1. #27883 (Formula/Sports Racing Committee) Change 600cc restrictor size
In the F500 engine table, change the restrictor as follows:
Honda CBR600RR (03-13): "28mm Flat Plate Intake Restrictor"

In the F500 engine table, change the restrictor as follows:
Suzuki GSXR600 (03-13): "28mm Flat Plate Intake Restrictor"

In the F500 engine table, change the restrictor as follows:
Yamaha R6 (03-13): "28mm Flat Plate Intake Restrictor"
FA

1. #27319 (Jake Latham) Suggestions for FB/F1000 into FA
   In FA Table 2, Formula 1000 spec line, make changes as follows:

<table>
<thead>
<tr>
<th>Car</th>
<th>Engine</th>
<th>Wheel Width (in) ± .060</th>
<th>Aero</th>
<th>Transmission</th>
<th>Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Formula 1000</td>
<td>Motorcycle-based 4-cycle up to 1000cc, maximum compression ratio 13.5:1; otherwise, current FA engine rules apply</td>
<td>see notes</td>
<td>see notes</td>
<td>see notes</td>
<td>see notes 1025</td>
<td>Car must comply with December 2018 2019 GCR Formula 1000 (FB) Preparation Rules, found at <a href="https://www.scca.com/pages/technical-forms-and-downloads">https://www.scca.com/pages/technical-forms-and-downloads</a>, except that throttle bodies and ECUs are unrestricted as modified by this spec line. The CRB may require the use of Flat Plate Intake Restrictors at any time.</td>
</tr>
</tbody>
</table>

2. #27880 (Formula/Sports Racing Committee) Change Swift 016 - 2.3 liter Mazda Duratec restrictor size
   In FA Table 2, Swift 016 - 2.3 liter Mazda Duratec spec line, change the restrictor as follows:
   "The 2.3 Liter Mazda Duratec engine and ECU is unrestricted with the exceptions that a 31mm SIR must be used with a sealed air box (part no. FA11016INT) supplied by SCCA Enterprises, the maximum compression ratio is 14.0:1, and the maximum displacement is limited to 2266cc."
P1
1. #27745 (Formula/Sports Racing Committee) Update Revised Spec Line F
   In P1 Engine Table, Spec Line F, make changes as follows:

<table>
<thead>
<tr>
<th>Spec Line</th>
<th>Engine Series</th>
<th>Max. Displ (cc)</th>
<th>Max. Valves / Cyl.</th>
<th>Req’d Restrictor</th>
<th>Min Weight (lbs)</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>F</td>
<td>Restricted 2.0L Group CN-spec Honda K20A-FD2</td>
<td>2000</td>
<td>4</td>
<td>Stock Honda intake manifold with 64mm single throttle body</td>
<td>1400</td>
<td>No engine modifications except dry sump oil system, ECU mapping, and exhaust system. Must use stock Honda OEM parts as listed in CN Honda K20A-FD2 Parts List found here: <a href="https://www.scca.com/pages/technical-forms-and-downloads">https://www.scca.com/pages/technical-forms-and-downloads</a>. No machining allowed.</td>
</tr>
</tbody>
</table>

P2
1. #27821 (Keith Carter) Request for addition of BMW Engine in P2 Engine Table
   In P2 Engine Table, Line B.1, add the following:
   "4 cycle Motorcycle-based Kawasaki, Suzuki, Yamaha, Honda, BMW"

2. #27869 (Formula/Sports Racing Committee) Add ESR inlet restrictor
   In P2 Table 1, Enterprise Sports Racer line, add to the notes the following:
   "Effective 4/1/2020, the ESR 2.3L engine must have either an SIR or a Flat Plate restrictor fitted that meets the peak horsepower specified by the SCCA. The SIR or Flat Plate restrictor must be sized in whole or 0.5mm increments. Dyno data also must be submitted for restrictors 1.0 and 2.0mm on either side of the restrictor size that permits the engine to meet the specified peak horsepower."

GCR
1. #27580 (Greg Amy) 9.3.27 E&O, Probable Typo
   In GCR, section 9.3.27., make changes as follows:
   "All fuel, oil, and water lines, including gauge and vent lines, that pass into or through the driver/passenger compartment, shall be of steel tube or metal braided hoses or protected by a wall–like bulkhead container (Coolsuit lines are exempt)."

Grand Touring
GT General
1. #26308 (Andrew Wickline) Request Factory Five Daytona coupe classification
   In GTX - MISC., Classify and add as follows:
## GTX – MISC.

**GT1**

1. #27750 (J Richard Grant) Request to Adjust Transmission Penalty
   In GT1 Specifications, section 9.1.2.D.4.b.2., make change as follows:
   "Sequential shifting transmissions are permitted with a \(750\) lb. weight penalty."

2. #27751 (Matthew Miller) Request to Reduce Additional Weight for 18
   In GT1 Specifications, section 9.1.2.D.7.a.5., make change as follows:
   "For cars not specified to allow 18 inch wheels, 18 inch wheels permitted with a \(100\) pound weight penalty."

3. #27756 (Tim Adolphson) Request for Five Star Nascar Compliant Bodywork
   In GT1 Spec Lines, 9.1.2.c, General Motors Corporation, add the following:
   "5 Star NASCAR Camaro (2018-) body allowed"
GT2
1. #27701 (Matt Jensen) Porsche 991.2 GT3 Cup GT2 Classification
   In GT2, classify the 991.2 GT3 Cup Car as follows:

<table>
<thead>
<tr>
<th>Model</th>
<th>Years</th>
<th>Body Style</th>
<th>Driveline</th>
<th>Wheel-base (in)</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>991.2 GT3 Cup Car</td>
<td>(2017-)</td>
<td>2 Dr.</td>
<td>RWD</td>
<td>92.7</td>
<td>3.8L flat six. 3100lbs. w/63mm Throttle Body Restrictor (TBR). Cars must be prepared in accordance with the appropriate model/year Porsche factory 911 GT3 Cup parts catalog/service manual. Cars may not be altered in any way except as authorized below. Drivers must have the correct year manuals as they apply to their specific car in their possession. Safety, drivers comfort, driver control and instrumentation items may be modified per the GCR. Original factory installed Matter/IMV roll cages are allowed. The stock unmodified fuel tank is allowed. Windshield clips must be installed per GCR 9.3 Windshield Clips/Rear Window Straps. All other SCCA safety standards apply. The following additional modifications are authorized: Alternate hood provided it is a facsimile of the stock part. Any wheel, including 5 bolt (and the required 5 bolt modification to the hubs). Tires per GCR 9.3 Tires. Battery size and location is unrestricted. Shocks are unrestricted but they shall be installed in the stock locations with the stock, unmodified pick up points. Any suspension settings are allowed provided they are achieved without modifications. Machining of suspension components and pick up points to achieve caster/camber/toe is not allowed. Lubricants, consumable fluids (brake fluid, coolant etc.) and oil filters are open free. Modifications listed in Grand Am, IMSA Cup, World Challenge or any other rules, except those listed above, are specifically not allowed. Factory (OEM manufacturer) Lexan front windows allowed as delivered. ABS allowed with a 100lb. penalty.</td>
</tr>
</tbody>
</table>

2. #27755 (Shad Huntley) Request for Acura NSX Spec Line Changes
   In GT2/ST, Acura NSX, change weight as follows:
   "30002700"
3. #27914 (Grand Touring Committee) GT2 991.1 restrictor size change
In GT2, Porsche 991.1 GT3 Cup, change restrictor size in the notes as follows:
"67.70 mm"

4. #27915 (Grand Touring Committee) GT2 996/997.1 weight change
In GT2, Porsche 996/997.1 GT3 Cup, change the weight in the notes as follows:
"2900-2800"

5. #27920 (Grand Touring Committee) GT2/ST Corvette comp adjustment
In GT2/ST, Chevrolet Corvette (-2019), with Max. Displacement of 5967, change restrictor size as follows:
"75.70 mm"

GT3
1. #26958 (Chad BACON) Request restrictor size change request
In GT3 Engine Table, Mazda 13B Bridgeport, change Fuel Induction as follows:
"44mm 42mm"

2. #27322 (Armen Megregian) Request to Classify Alfa Romeo 4C
In GT3, classify the Alfa 4C as follows:

<table>
<thead>
<tr>
<th>Engine Family</th>
<th>Engine Type</th>
<th>Bore (mm)</th>
<th>Stroke (mm)</th>
<th>Disp. (cc)</th>
<th>Head Type</th>

HP

1. #27782 (SCCA Staff) Update years for the Mazda2, Honda Fit, & Mini

In HP, Mazda2 (07-11), make change as follows:
(07-11) \{11-14\}"

In HP, Honda Fit (2015), make change as follows:
(2015) \{15-19\}"

In HP, Mini Cooper (07-11), make change as follows:
(07-11) \{07-13\}"
2. #27814 (Greg Amy) Allow Dry Sump, Limited Prep Porsche 914
   In HP, Porsche 914-4 (1.8L), add to notes as follows:
   "A 2-stage dry sump is allowed, but it must be cam-driven only and mounted in the same location as the OEM oil pump."

3. #27854 (Mike Ogren) Please Allow Alternate Rear Axle Housing for RWD Toyota Corolla
   In HP, Toyota Corolla (71-74), add to notes as follows:
   "Rear axle housing from the 84-87 Corolla is permitted."

4. #27917 (Jack Banha) HP VW Rabbit Convertible 1.6L #1922 and 32mm chokes
   In HP, Volkswagen Rabbit 1588 (includes Cabriolet / convertible), change weight as follows:
   "1785 * 1830 ** 1874 1735 * 1778 ** 1822"

   In HP, Volkswagen Scirocco 1588, change weight as follows:
   "1785 * 1830 ** 1874 1735 * 1778 ** 1822"

**Prod General**

1. #27907 (STEVE SARGIS) Request to List Mazda Miata Throttle Body Size
   In FP, Mazda Miata 1.6L (90-97), make changes as follows:
   Brakes Std.:
   "Factory spec @ all 4 wheels (F) 235 x 18 Vented Disc (R) 231 x 9 Solid Disc"
   Throttle body Diameter:
   "stock throttle body I.D. 55mm"

   In EP, Mazda MX-5/Miata 1.6L (-1993), make changes as follows:
   Brakes Std.:
   "(F) 235 (9.3) x 18 Vented Disc (R) 231 (9.1) x 9 Solid Disc"
   Throttle body Diameter:
   "stock throttle body I.D. 55mm"

   In EP, Mazda MX-5/Miata 1.8L (90-97), make changes as follows:
   Brakes Std.:
   "(F) 235 (9.3) x 18 Vented Disc (R) 231 (9.1) x 9 Solid Disc"
   Throttle body Diameter:
   "stock throttle body I.D. 55mm"

   In EP, Mazda MX-5/Miata (94-97), make changes as follows:
   Brakes Std.:
   "(F) 235 x 18 Vented Disc (R) 231 x 9 Solid Disc"
   Throttle body Diameter:
   "stock throttle body I.D. 55mm"
In EP, Mazda MX-5/Miata (99-03), make changes as follows:

**Brakes Std.:**

"(F) 235 (9.3) x 18 Vented Disc (R) 231 (9.1) x 9 Solid Disc"

**Throttle body Diameter:**

"stock throttle body I.D. 55mm"

**Spec Miata**

None.

**Super Touring**

None.

**Touring**

**T2**

1. #27514 (Van Hunter) Request for Dailey Engineering Dry Sump on 2010 Camaro SS

In T2, Chevrolet Camaro SS/1LE (10-14), add to Notes as follows:

"1LE-SS Track Pack permitted. Tower Brace 22756880, oil-air separator 12653074, 75mm flat plate restrictor required. Springs up to 1200#/in front and rear permitted. Hotchkis swaybars # 22109, TPR rear upper shock mount # 22122, Pfadt lower control arm reinforcement # 1410135, ARE Dry Sump # LS3-3Y, Petersen # 8009W, Aviad # 009-92200, ATI # 917239, DSS # GNCA10-A, Turn One #T40RBZ28P, ZL1 front brake kit #22959672. GM Suspension Part # 23464729 and GM Aero Part #’s 23489551 & 23200132 are allowed. ANZE Suspension Rear Shock Mount #:MT-Camaro-5-R-Race1 allowed. ACS 2010-13 Z28 Spoiler #33-4-155 permitted on the 2010-13. Allow Ground Control rear shock mounting bracket (red bracket P/N SP133C5). Allow Ground Control rear shock mounting bracket (red bracket P/N SP133C5). Aviad Dry Sump #001-13110 allowed. Dailey Engineering dry sump P/N 20-02-0666-ASSY allowed. Belt tensioner part number GM 12569301 allowed. Any swaybar up to 35mm front and rear allowed. Lower control arms BMR TCA026 and rear trailing arms BMR TCA026."

2. #27584 (William Moore) Request for Half Shafts - 2014 Camaro SS 1LE

In T2, Chevrolet Camaro SS/1LE (10-14), add to Notes as follows:

"1LE-SS Track Pack permitted. Tower Brace 22756880, oil-air separator 12653074, 75mm flat plate restrictor required. Springs up to 1200#/in front and rear permitted. Hotchkis swaybars # 22109, TPR rear upper shock mount # 22122, Pfadt lower control arm reinforcement # 1410135, ARE Dry Sump # LS3-3Y, Petersen # 8009W, Aviad # 009-92200, ATI # 917239, DSS # GNCA10-A, Turn One #T40RBZ28P, ZL1 front brake kit #22959672. GM Suspension Part # 23464729 and GM Aero Part #’s 23489551 & 23200132 are allowed. ANZE Suspension Rear Shock Mount #:MT-Camaro-5-R-Race1 allowed. ACS 201013 Z28 Spoiler #33-4-155 permitted on the 2010-13. Allow Ground Control rear shock mounting bracket (red bracket P/N SP133C5). Allow Ground Control rear shock mounting bracket (red bracket P/N SP133C5). Aviad Dry Sump #001-13110 allowed. Belt tensioner part number GM 12569301 allowed. Any swaybar up to 35mm front and rear allowed. Lower control arms BMR TCA026 and rear trailing arms BMR TCA026. Drive Shaft Shop P/N RA-5424 and RA-5425 Allowed."
3. #27665 (Andrew Wickline) Request for Parity Among Vehicles

In T2, Ford Mustang Boss 302 (12-13), change Notes as follows:

“The following parts are allowed: GT/CS Front Fascia #BR3Z-17626-AA, GT/CS Rear Fascia #AR3Z-17F828-AA, Ford Accessories Spoiler #AR3Z-6344210-CA, 14” Brembo Brake Kit #M-2300-S, Rear Axle Cover #M-4033-K, Spring Kit #M-5300-A (M-5310-A front, M5560-A rear. Rear spring relocation to shock permitted with use of this kit), Strut Tower Brace #M-20201-S197, Swaybar Kit #M-5490-A, Jounce Bumper Kit # M-5570-A, Panhard Bar #M-4264-A, Rear Lower Control Arms #M-5649-R1, Rear Upper Shock Mount #M18197-A. Ford Racing oil pan #M-6675-M50BR permitted. Alternate metallic driveshaft is allowed. Front bushing kit M-5638-C permitted. Maximum spring rate 500 lbs (front), 300 lbs (rear)."

In T2, Ford Mustang GT 5.0L (11-14), change Notes as follows:

"The following parts are allowed: GT/CS Front Fascia #BR3Z-17626-AA, GT/CS Rear Fascia #AR3Z-17F828-AA, Ford Accessories Spoiler #AR3Z-6344210-CA, 14” Brembo Brake Kit #M-2300-S, Rear Axle Cover #M-4033-K, Spring Kit #M-5300-A (M-5310-A front, M5560-A rear. Rear spring relocation to shock permitted with use of this kit), Strut Tower Brace #M-20201-S197, Swaybar Kit #M-5490-A, Jounce Bumper Kit # M-5570-A, Panhard Bar #M-4264-A, Rear Lower Control Arms #M-5649-R1, Rear Upper Shock Mount #M18197-A. Ford Racing oil pan #M-6675-M50BR permitted. Alternate metallic driveshaft permitted. Front bushing kit M-5638-C permitted. 54mm flat plate restrictor required. 56mm flat plate restrictor required. Maximum spring rate 500 lbs (front), 300 lbs (rear)."

In T2, Ford Mustang GT 5.0L (15-17), change Notes as follows:

In T2, Chevrolet Corvette C-5 Incl. Fxd Cpe (98-04) Z06 (hardtop) (01-04), change Weight (lbs) as follows:

"3525 w/50mm flat plate restrictor
3225 (w/45mm flat plate restrictor)
3400 (w 55mm flat plate restrictor, only permitted when using OEM Wheels and Stock Brakes)"

In T2, Chevrolet Corvette C6 Coupe / Grand Sport (05-13), change Weight (lbs) as follows:

"3450-3400 Add 50 lbs. for larger wheels"

In T2, Porsche 911 / Carrera S 997.2 (09-12), change Notes as follows:

"60mm flat plate restrictor required. Restrictor must be placed in the front of the factory engine air intake manifold opening. The plate must seal the opening so that all air entering passes through the restrictor. Ducting for coolers is free, provided it doesn’t change size and/or shape of factory body
panels. Ducting of air to rotors is allowed. Removal of rotor dust shields is allowed. Tender springs 60-60-25, and spring holders ZT-1-X002A01 allowed. Springs up to 800#/in front and 1000 #/in rear allowed. Sway bar size and configuration is free. Spoilers & bumper/air dams are free provided they do not exceed the max. body width by any amount and/or the max. body length by more than 1”. Rear wings may be no higher than the roofline. Camber adjustment slots may be elongated. Porsche Motorsport front and rear control arms allowed. PDK transmission permitted at +100lbs. Alternate exhaust manifold Cargraphicts CARP97DF1FKR allowed."

4. #27746 (Joe Aquilante) Request to Readjust the T2 Porsches
In T2, Porsche 911/ 997 (06-08), change Notes effective 3/1/2020 as follows:
"Ducting for coolers is free, provided it doesn’t change size and/or shape of factory body panels. Ducting of air to rotors is allowed. Removal of rotor dust shields is allowed. Tender springs 60-60-25, and spring holders ZT-1-X002A01 allowed. Springs up to 800#/in front and 1000 #/in rear allowed. Sway bar size and configuration is free. Spoilers & bumper/air dams are free provided they do not exceed the max. body width by any amount and/or the max. body length by more than 1”. Rear wings may be no higher than the roofline. Camber adjustment slots may be elongated. Porsche Motorsport front and rear control arms allowed."

In T2, Porsche 911 / Carrera S 997.2 (09-12), change Notes effective 3/1/2020 as follows:
"60mm flat plate restrictor required. Restrictor must be placed in the front of the factory engine air intake manifold opening. The plate must seal the opening so that all air entering passes through the restrictor. Ducting for coolers is free, provided it doesn’t change size and/or shape of factory body panels. Ducting of air to rotors is allowed. Removal of rotor dust shields is allowed. Tender springs 60-60-25, and spring holders ZT-1-X002A01 allowed. Springs up to 800#/in front and 1000 #/in rear allowed. Sway bar size and configuration is free. Spoilers & bumper/air dams are free provided they do not exceed the max. body width by any amount and/or the max. body length by more than 1”. Rear wings may be no higher than the roofline. Camber adjustment slots may be elongated. Porsche Motorsport front and rear control arms allowed. PDK transmission permitted at +100lbs. Alternate exhaust manifold Cargraphicts CARP97DF1FKR allowed."

In T2, Porsche Carrera S (06-08), change Notes:
"60mm flat plate restrictor required. Ducting for coolers is free, provided it doesn’t change size and/or shape of factory body panels. Ducting of air to rotors is allowed. Removal of rotor dust shields is allowed. Tender springs 60-60-25, and spring holders ZT-1-X002A01 allowed. Springs up to 800#/in front and 1000 #/in rear allowed. Rear wings may be no higher than the roofline. Camber adjustment slots may be elongated. Porsche Motorsport front and rear control arms allowed."

5. #27776 (Bob Demers) Request for 2016-2020 Camaro SS Help
In T2, Chevrolet Camaro, 1LE (2016-), change Weight as follows:
"3600 3550"
6. #27839 (Marty Grand) Request for Competitive Adjustments to Honda Civic Type R
In T2, Honda Civic Type-R (2017-), change Weight as follows:
"3050-3000"

In T2, Honda Civic Type-R (2017-), change Notes as follows:
"HPD CAT Delete pipe 18150-F23S-R6; HPD 4th Gear Set 23460-F23S-R6; HPD Differential 41100-F23S-R6; HPD RR Damper Mount 52670-F23S-A6; HPD Spring Adjuster 52691-F23S-A6; HPD Adjustable RR Upper Arm 52390-F23S-A6; HPD ABS Modulator 57100-F23S-R6; 50mm 51mm TIR required. Alternate grill Custom Tuning FG-CIV16-V3-TR-BK allowed. Any sway bar front/rear up to 30mm allowed. Front springs up to 800lb allowed, rear springs up to 2000lb allowed, Aftermarket intercooler allowed."

T2-T4

1. #27439 (Carl Fung) Mustang Ecoboost and GT Transmission
In T3, Ford Mustang EcoBoost (2015-), add as follows:
"4.24, 2.54, 1.67, 1.24, 1.00, 0.70 or 4.17, 2.34, 1.52, 1.14, 0.87, 0.69 or 4.696, 2.985, 2.146, 1.769, 1.520, 1.275, 1.000, .854, .689, .636"

2. #27902 (Raymond Blethen) T4 RX8 Classification Error
In T3, Mazda RX-8 Base/R3 (04-12), add as follows:
"Mazda RX-8 Base/R3/Sport/GT (04-12)"

In T4, Mazda RX-8 Base/R3 (04-12), add as follows:
"Mazda RX-8 Base/R3/Sport/GT (04-12)"

3. #27910 (John Heinricy) Request to add Toyota 86 GT to Spec Line
In T3, Toyota 86 (2017-), add as follows:
"Toyota 86, GT (2017-)"

In T4, Toyota 86 (2017-), add as follows:
"Toyota 86, GT (2017-)"

T3

1. #27442 (Ben Slechta) Nissan 350Z HR Engine Restrictor Plate/Minimum Weight
In T3, Nissan 350Z Track/ Touring/ Standard/ Nismo (03-08), change Weight as follows:
"DE Motor: 3225-3275 HR Motor: 3275-3325"

In T3, Nissan 350Z Track/ Touring/ Standard/ Nismo (03-08), change Notes as follows:
"The following are allowed: Track option Aero package, Rear diff cover Nismo part #99996-35TDK or, alternatively parts #383510C021, OEM Breather 38356-EV00A, OEM Stud 38354-0C00A, Nissan Motorsports. Nissan heavy duty spring kit part #99996-65Z3OUS, Front sway bar max 37mm. Rear sway bar max 25mm. SPC Control Arms 72125 allowed. Springs up to 700 lbs./in. allowed front and rear. HR Engine: Two 37mm 42mm flat plate restrictors required. DE Engine: 57mm flat plate restrictor."
required. Rear spring relocation to shock permitted. Zspeed and Z1 alternative clutch slave permitted. Nissan brake kit part number 41000-BRKIT permitted."

In T3, Nissan 350Z Track/ Touring/ Standard/ Nismo (03-08) Spec Z, change Weight as follows:
"DE Motor: 3275  3325  HR Motor: 3325  3375"

In T3, Nissan 350Z Track/ Touring/ Standard/ Nismo (03-08), change Notes as follows:
"Nissan Motorsports: Shock Front left P/N E6110-SZ350 & Front right E6111- SZ350 & rear E6210-SZ350, springs front P/N 54010-SZ350 & rear 55020- SZ350, F&R 5600S-SZ350, Front sway bar max 37mm. Rear sway bar max 25mm, Bushings P/N (54541, 54560, 55045, 55148, 55149, 55152, 55153, 55158, 56218) - RRZ30 allowed. Nismo flywheel permitted. SPC Control Arms 72125 allowed. HR Engine:

In T3, Nissan 370Z (09-16) /370Z NISMO Edition (09-13), change Weight as follows:
"3275  3325"

In T3, Nissan 370Z (09-16) /370Z NISMO Edition (09-13), change Notes as follows:
"5300S-SS370 T-2 spring kit allowed; 54600-SS370 T-2 front and rear sway bar kit allowed. Sports Package is allowed. Two 37mm - 42mm flat plate restrictors required. SPC Control Arms 72125 allowed. Max spring rate of 700 lbs/in front and rear. Rear spring relocation to shock permitted. Zspeed and Z1 alternative clutch slave permitted. Any swaybar up to 37mm front and up to 30mm rear allowed."

2. #27572 (Nic Piekarski) Request help for the GMX5
In T3, Mazda MX-5 Global Cup Miata (2016-), change Tire Size as follows:
"Series spec tires: 215/610 R17 BF Goodrich G-Force Slick, 20/61-17 G-Force Wet-P2G or 225 DOT"

In T3, Mazda MX-5 Global Cup Miata (2016-), change Notes as follows:
"Shoulder harness installation must conform to FIA mounting specifications that are approved for this vehicle per section 6.2 FIA article 253, safety equipment. Must meet all MX-5 Global Cup rules in Appendix. Tires must conform to the Touring rules. Any OEM or aftermarket hardtop is permitted that retains the OEM roof silhouette, including Mazda hardtop Mazda hardtop part #0000-07-5902- ND and #0000-07-5902-ND part #0000-07-5901 (discontinued DG Motorsports). If a hardtop is used, latches shall be replaced with positive fasteners. OBD2 requirement does not apply. Ballast box may be removed."

3. #27777 (Marshall Mast) Request for 05-10 Mustang GT Suspension Upgrades
In T3, Ford Mustang Coupe GT & Shelby GT 4.6L & Cal. Special (05-10), change Notes as follows:
"The following parts are allowed: Strut tower brace part #M20201-S197, Radiator #M-8005-S197, Ford Spring kit M 5300 - Kmax spring rate of 500 lbs/in front, 300 lbs/in rear, sway bars M-5490-A, damper kit M18000-A. A flat plate restrictor with two 40 mm holes required directly behind throttle body. Rear
Lower Control Arm Kit # M-5649-R1, Rear Shock Mount Kit # M-18197-A, Jounce Bumper Kit # M-5570-A, Front Strut Mount # M-18183-C allowed. An Aluminum driveshaft is allowed. Rear Axle Cover #M-4033-K, Spring Kit #M-5300A (M-5310-A Front, M5560-A Rear), Strut Tower Brace #M- 20201- S197, Swaybar Kit #M-5490, Jounce Bumper Kit # M-5570-A, Panhard Bar #M-4264-A, Rear Lower Control Arms #M-5649-R1, Rear Upper Shock Mount #M-18197-A (Rear spring relocation to shock permitted with use of this kit). Alternate metallic driveshaft is allowed. Prothane front control arm bushings 6-220 and 6-218 and differential bushing 6-315 allowed. Ford Racing part # M-2300-S permitted.

4. #27781 (ALI SALIH) Please Update the BMW SpecE46 Rules
In T3, BMW SpecE46, change Notes as follows:
"Must conform to all SpecE46 rules Version 2.6 2.7. SpecE46 spec tire permitted or any DOT permitted up to 225 permitted. No other touring allowances permitted. Engines may not be modified unless specified in the Spec E46 rules and must conform to touring tech procedures. Driver must possess a current copy of the rules. Dyno results do not ensure engine compliance."

5. #27864 (David Matheson) Request for 02-03 WRX Spec Line Parts
In T3, Subaru WRX (02-05), change Weight as follows:
"3350-3250"

In T3, Subaru WRX (02-05), change Notes as follows:
"Following parts are allowed: 27mm max front and rear sway bar allowed, Max spring rate (F) 800 lbs/in, (R) 900 lbs/in. Aftermarket Intercooler allowed. 2006-2007 WRX TR brakes allowed. 2004-2007 WRX STI brakes allowed +100 lbs. 35mm TIR required."

T4
1. #27660 (Jared Lendrum) BRZ/FRS/86 Tire Size in T4
In T4, Subaru BRZ (13-16), change Tire Size (max) as follows:
"245-225"

In T4, Scion FR-S (13-16), change Tire Size (max) as follows:
"245-225"

In T4, Subaru BRZ (2017-), change Tire Size (max) as follows:
"245-225"

In T4, Toyota 86 (2017-), change Tire Size (max) as follows:
"245-225"

2. #27739 (Brian Nelson) NC MX5 2006-2015 Spec Adjustment Request
In T4, Mazda MX-5 / Club Model (06-15), change Weight as follows:
"2625 2550"
JUDGEMENT OF THE COURT OF APPEALS
Morey Doyle vs. SOM  COA Ref. No. 19-12-GL
December 10, 2019

FACTS IN BRIEF
Following the Sunday, October 27, 2019, Group 6 Regional race at the OVR Ohio Valley Autumn Classic XXXVIII at Mid-Ohio Sports Car Course, John Blanchard, driver of American Sedan (AS) #63, filed a Protest against Morey Doyle, driver of AS #27, for contact in violation of General Competition Rules (GCR) 6.11.1.A., B., C., and D. (Rules of the Road).

The Stewards of the Meeting (SOM) Corrine Carter, Hugh Laird, Jim Suhr, and Duane Harrington (Chairman) met to hear and rule on the Protest. The SOM heard witness testimony, reviewed witness statements, and viewed video evidence.

The SOM determined Mr. Doyle violated GCR 6.11.1.D. (failure to complete a safe pass). The SOM imposed two penalties: move to last place in class in race Group 6, and probation for two road racing event weekends. The penalties resulted in three penalty points being assessed against Mr. Doyle’s competition license.

Mr. Doyle appealed the ruling of the SOM.

DATES OF THE COURT
The SCCA Court of Appeals (COA) Laurie Sheppard, Michael West, and Jack Kish (Chairman) met on November 21, 2019, to review, hear, and render a decision on the appeal.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED
1. Appeal letter from Morey Doyle, received November 13, 2019.
3. Full race video from Car #11, received November 13, 2019.
4. Video clip from Car #27, received November 13, 2019.
5. Email testimony from Duane Harrington, SOM Chairman, received November 19, 2019.

FINDINGS
In his appeal letter, Mr. Doyle argues he “was completing a safe pass” and maintained his racing line. To support his appeal, Mr. Doyle submitted video footage not available during the initial SOM hearing.
Mr. Doyle (AS #27) started behind Mr. Blanchard (AS #63) and alongside Jay Pistana (AS #34). At the green flag, both Mr. Doyle and Mr. Pistana moved up alongside Mr. Blanchard. The initial contact occurred on Lap 1, entering the Turn 1 braking zone. The three cars, Car #34 (Pistana), Car #27 (Doyle), and Car #63 (Blanchard), were abreast and in close proximity, with Car #27 in the middle. As Car #63 and Car #34 braked for the turn, Car #34 and Car #27 touched. Car #27 lost control, crossed in front of Car #34, spun across the track, went off driver’s right, and was hit by Car #63.

Mr. Doyle’s decision to continue the pass attempt further into the turn resulted in contact with Car #34 prior to completion of the pass. Per GCR 6.11.1.D., “The overtaking driver is responsible for the decision to pass another, and to accomplish it safely.” The proximity of the cars on the first lap was a contributing factor in the incident. However, the video evidence provided by Mr. Doyle with his appeal is not sufficient to compel the COA to overturn the SOM’s ruling.

The COA finds Mr. Doyle was responsible for a failed passing attempt that resulted in Mr. Blanchard being unable to complete the race. The SOM ruling and penalties were within the rules and authorities granted in the GCR.

**DECISION**

The COA upholds the SOM decision in its entirety. Mr. Doyle’s appeal is well founded, and his appeal fee, less the administrative portion retained by SCCA, will be returned.
The Club Racing Board met by teleconference on January 7, 2020. Participating were Peter Keane, Chairman; David Arken, David Daughtery, Jim Goughary, Paula Hawthorne, Sam Henry, John LaRue, and Shelly Pritchett, secretary. Also participating were: Chris Albin, Bob Dowie, Marcus Merideth, and Steve Strickland BoD liaisons; Eric Prill, Chief Operations Officer, Deanna Flanagan, Director of Road Racing; Rick Harris, Club Racing Technical Manager and Scott Schmidt, Technical Services Assistant. The following decisions were made:

**Member Advisory**
None.

**No Action Required**

**F5**
1. #28064 (Zachary Morvik) Parity Eval/Perf Adjustments and/or Methods
Thank you for your letter. The 600cc motorcycle engines have not received annual restrictor changes; the Club Racing Board last changed the restrictor size three years ago. Please see the response to letter #21020, January 2017 Fastrack Technical Bulletin. The change to a 28mm restrictor for the 2020 season is well-supported by rate-of-acceleration data obtained during the 2019 National Championship Runoffs. The Club Racing Board will continue to monitor class performance and will make appropriate, data-based adjustments as necessary.

**FC**
1. #28116 (Eric Purcell) Formula X and USF2000 car
Thank you for your letter. The Club Racing Board appreciates your comments.

**FM**
1. #28047 (Sitara Wilson) FM - FX Class letter 28044
Thank you for your letter. The Club Racing Board is tasked with looking after the overall health of all SCCA competition classes, and GCR section 9.1.13.A requires the CRB to annually review participation numbers for U.S. Majors and Runoffs classes. A class that does not maintain sufficient participation numbers has one year to improve its participation level. If the class fails to improve, it will either be incorporated into another class or be designated as a Regional-only class. Formula Mazda had insufficient participation numbers in 2018, but instead of improving the class's participation numbers continued to decline in 2019.

The process of incorporating an underperforming class into another class is the Club Racing Board's responsibility and does not involve a reclassification of an individual car or a recommendation of a rule change that must be approved by the Board of Directors, so the 30-day comment period described in
"The Rule Making Process" and "The Rule Making Flow Chart" was not applicable to Formula Mazda's incorporation into the FX class. However, Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

2. #28049 (Andrew Entwistle) Formula Mazda
Thank you for your letter. Please see the responses to letters #28044 and #28047 in this Fastrack. The provision for probation relates to the issue of whether a class with fewer than ten entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class, but Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

3. #28050 (Rodger Fussell) FM Move To FX
Thank you for your letter. Please see the responses to letters #28044, #28047, and #28049 in this Fastrack. Entrants are free to organize an unofficial championship for Formula Mazda competitors within the FX class or to otherwise recognize Formula Mazda competitors' performance in FX.

4. #28052 (Karl Markey) FX Class Formation
Thank you for your letter. Please see the responses to letters #28044, #28047, #28049, and #28050 in this Fastrack.

5. #28073 (Brad Yake) FM Reclassification
Thank you for your letter. Please see the responses to letters #28044 and #28047 in this Fastrack. The provision for probation relates to the issue of whether a class with fewer than ten entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class, but Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

6. #28092 (Bryan Saxe) FM Elimination
Thank you for your letter. Please see the responses to letters #28044, #28047, and #28049 in this Fastrack. Entrants are free to organize an unofficial championship for Formula Mazda competitors within the FX class or to otherwise recognize Formula Mazda competitors' performance in FX.

7. #28098 (John Goetsch) Reclassification of FM
Thank you for your letter. Please see the responses to letters #28044, #28047, and #28049 in this Fastrack. Entrants are free to organize an unofficial championship for Formula Mazda competitors within the FX class or to otherwise recognize Formula Mazda competitors' performance in FX.
8. #28104 (Paul Crabtree) Complaint About FM Reclassification
Thank you for your letter. Please see the responses to letters #28044, #28047, and #28049 in this Fastrack. Entrants are free to organize an unofficial championship for Formula Mazda competitors within the FX class or to otherwise recognize Formula Mazda competitors' performance in FX.

9. #28132 (Travis Renegar) Concerns and requests with recent FM/FX decision
Thank you for your letter. Please see the responses to letters #28044, #28047, and #28049 in this Fastrack. Entrants are free to organize an unofficial championship for Formula Mazda competitors within the FX class or to otherwise recognize Formula Mazda competitors' performance in FX.

10. #28155 (Randall Voorhies) Opposes changes to FM Class
Thank you for your letter. Please see the responses to letters #28044 and #28047 in this Fastrack. The provision for probation relates to the issue of whether a class with fewer than ten entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class, but Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

11. #28156 (Jarret Voorhies) Opposes FM to FX
Thank you for your letter. Please see the responses to letters #28044, #28047, and #28049 in this Fastrack. Entrants are free to organize an unofficial championship for Formula Mazda competitors within the FX class or to otherwise recognize Formula Mazda competitors' performance in FX.

12. #28167 (Terrance Carraher) Opposes FM into FX
Thank you for your letter. Please see the responses to letters #28044, #28047, and #28049 in this Fastrack. Entrants are free to organize an unofficial championship for Formula Mazda competitors within the FX class or to otherwise recognize Formula Mazda competitors' performance in FX.

P1
1. #28018 (Kevin Kloepfer) Sealed 2.0 and 2.3 Liter MZR Engine
Thank you for your letter. Regarding the sealed 2.0L MZR option, please see the response to letter #28046 in this Fastrack's Technical Bulletin. The sealed 2.3L option was eliminated following the 2017 season. Please see the responses to letter #22614, October 2017 Fastrack Technical Bulletin, and letter #23875, March 2018 Fastrack Technical Bulletin.

GCR
1. #27923 (Tim Linerud) Rain Lights on Non Formula and Sports Racing Cars?
Thank you for your letter. This change is to address a safety issue when racing in the rain and is a fairly simple modification to implement.
2. #27960 (SCCA Staff) Lap Records
Thank you for your letter. Current GCR language is adequate as written.

GT General
1. #25579 (Ron Randolph) Request to Add PCA Club Racing class GTB1 to SCCA T2
Thank you for your letter. No additional requested information has been supplied.

GT3
1. #27890 (Larry Hansen) Request for Nissan Engine Competition Adjustment
Thank you for your letter. Please see latest Fastrack.

2. #27897 (Jason Whitley) Request for Nissan Choke Adjustment
Thank you for your letter. This change is not recommended at this time. The CRB is investigating all 4V vs. 3V engine potential change.

3. #27946 (Chad Bacon) Restrictor Size Change Request
Thank you for your letter. Please see latest Fastrack.

Prod General
1. #27805 (Bill Lamkin) Against a Tire Box Rule
Thank you for your input. This is not a topic that is actively being discussed at the moment. If that were to change, member input will be requested.

T2-T4
1. #27377 (Harley Kaplan) Aftermarket ECU's
Thank you for your suggestion. We are looking at your suggestion closely and we are researching aftermarket ECUs and their future role in the touring classes.

Not Recommended
B-Spec
1. #27881 (Tony Roma) B-Spec Ballast Ideas
Thank you for your letter. The ballast rules are adequate as written.

F5
1. #28065 (Chuck McAbee) Fuel/Air Inlet Area
Thank you for your letter. The calculation of the disparity in the air inlet area of the 600cc motorcycle engines and two-cycle snowmobile-derived engines does not take into account the significant difference between the four-cycle and two-cycle cars’ minimum weights. The Club Racing Board will continue to monitor class performance and will make appropriate, data-based adjustments as necessary.

2. #28068 (Jay Novak) Modification to Letter #27664
Thank you for your letter. These changes are not recommended. The Club Racing Board recently adjusted the minimum weight and inlet restrictor of the 600cc motorcycle-engine cars, and the Board of Directors has also approved the use of external jetting devices on the two-cycle cars. Time needs to be afforded these changes to evaluate their effectiveness in promoting competition between the two platforms.

FM
1. #28106 (Melvin Kemper) Reinstate FM as a Stand Alone Spec Class, Per 2019 GCR 9.1.1.E Thank you for your letter. Please see the responses to letters #28044 and #28047 in this Fastrack. The Club Racing Board is tasked with looking after the overall health of all SCCA competition classes, and GCR section 9.1.13.A requires the CRB to annually review participation numbers for U.S. Majors and Runoffs classes. A class that does not maintain sufficient participation numbers has one year to improve its participation level. If the class fails to improve, it will either be incorporated into another class or be designated as a Regional-only class. Formula Mazda had insufficient participation numbers in 2018, but instead of improving the class's participation numbers continued to decline in 2019.

The provision for probation relates to the issue of whether a class with fewer than ten entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class, but Formula Mazda's low participation numbers in 2018 were posted on the SCCA’s website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

FV
1. #28126 (Thomas Galuardi) Request to Allow Any Rain Tire for Regional Racing. Thank you for your letter. The Club Racing Board does not recommend this change. Please see the responses to letters #26213 and #26220 in the March 2019 Fastrack Minutes.

GT General
1. #27856 (Jonathan Spiegel) Options for weight adders
Thank you for your letter. The non IRS cars that wish to run IRS in GTL are required to run the 2.5 weight addition.

GT2
1. #27961 (Craig Anderson) Request to Create Separate Spec Lines for Corvette Generations
Thank you for your letter. For Club Racing purposes the CRB feels the rules adequately cover the engine combinations as written.

GT3
1. #27879 (William Davis) Weight adjustment for disenfranchised GT2 cars (Pontiac)
Thank you for your letter. Change is not recommended until such time that the CRB decides to make additional allowances for all "disenfranchised GT2 cars".
EP
1. #27819 (Aaron Downey) Mazda RX3 - Rear Coil-Overs
Thank you for your letter. After much thought, it is believed that changing the type of spring/suspension is too against the core philosophy of the Production Category to be considered.

FP
1. #27612 (Keith Church) Request weight penalty for Mazda Miata
Thank you for your letter. Qualifying results, collected in-car data, and season long competition does not support this change. The top four qualifiers were within half a second of the pole, were all under the track record, and were made up of three different classifications. Unfortunately, the top five qualifying non-Miata vehicles all suffered issues during The Runoffs race, which effected their finishing positions.

HP
1. #27729 (Dick Gagliardi) Request for Weight Adjustment for VW GTI and Scirocco Mk2
Thank you for your letter. Qualifying results, collected in-car data, trap speed data, and yearlong competition does not support this change.

2. #27853 (Mike Ogren) Please Add 100# to Early Honda
Thank you for your letter. Qualifying results, collected in-car data, and season long competition does not support this change. Please also note that the top six non-Honda qualifiers at The Runoffs, four of whom started in the top five, all suffered an issue that effected its finishing position.

Prod General
1. #27977 (Mike Ogren) Please Modernize the Valve Lift Measurement Rule
Thank you for your letter. This is not a significant of enough issue to be worth forcing a large number of competitors to spend significant time and money to re-design their cam shaft(s), with little to no effect on class parity/performance. If the letter writer feels there are certain vehicles that would've benefited significantly enough from this allowance to gain a real and needed performance advantage, then the performance potential of those specific vehicles needs to be looked at individually.

2. #27981 (Mike Ogren) Request for Air Dam Rule Clean Up to Meet Current Tech Protocol
Thank you for your letter. The front splitter/air-dam rules and fender flare rules are adequate as written. Each are well defined individually, and it is the responsibility of the competitor to ensure that their vehicle is in compliance with each. How they chose to tie the two areas together must be done within the confines of these rules as they are written and must be able to pass the scrutiny of tech inspection. The PAC/CRB would like to remind competitors that although "the exterior contour of all wheel openings may be flared", this flaring "may not alter the basic body configuration or change the wheel opening size, location or shape when viewed from the side".
ST General
1. #27638 (Eric Heinrich) Request Traction Control clarification
Thank you for your letter. Traction Control is not permitted to be used in the ST classes.

STL
1. #26917 (Alan Cross) RX8 weight/plate adjustment
Thank you for your letter. The current RX8 Renesis powered STL cars are matched to the MZR 2.0L, without further data, we feel no changes should be made at this time. We will continue to monitor data and evaluate for possible adjustments in the future.

2. #27669 (Tom Fowler) Request for Parity
Thank you for your letter. The Club Racing Board appreciates your comments. Please see the responses to letter #26917, January 2020 Fastrack.

3. #27925 (Christopher Childs) Request for RX8 Parity
Thank you for your letter. The Club Racing Board appreciates your comments. Please see the responses to letter #26917, January 2020 Fastrack.

4. #27938 (Alan Cross) Regarding Letter Number 26917
Thank you for your letter. The Club Racing Board appreciates your comments. Please see the responses to letter #26917, January 2020 Fastrack.

5. #28105 (Alan Cross) Tabled Letter 26917
Thank you for your letter. The Club Racing Board appreciates your comments. Please see the responses to letter #26917, January 2020 Fastrack.

1. #26492 (Randall Smart) Request to Classify Honda J35A4 Engine in GT3
Thank you for your letter. Touring 1 is moving away from classifications like this.

T2
1. #27770 (William Moore) Request to change 9.1.9.2 Touring (T2-T4) category specifications
Thank you for your letter. A rule change is not recommended at this time. Driver egress and safety may be compromised.

2. #28015 (Joe Aquilante) C5 BOP Post Runoffs
Thank you for your letter. As noted, recent changes have been made to these cars. We will continue to monitor the class and these cars.
T2-T4
1. #27431 (Stephen Blethen) Request for Ceramic Seals
Thank you for your letter. Modification of engine internals isn’t consistent with the T4 class philosophy.

T3
1. #28051 (Ben Slechta) Nissan 350/370Z Tire Size
Thank you for your letter. The Balance of Performance (BOP) in a class like T3 is established using lap times, data reports, race finishes, and on-track experience. These processes have established that the 350z can be competitive with the 245 tire. There have also been recent changes made to the 350z that should have a significant effect on its performance. Race results and data will be needed before further changes are made.

Recommended Items
The following subjects will be referred to the Board of Directors for approval. Address all comments, both for and against, to the Club Racing Board. It is the BoD’s policy to withhold voting on a rules change until there has been input from the membership on the presented rules. Member input is suggested and encouraged. Please send your comments via the form at www.clubracingboard.com.

T2
1. #27582 (William Moore) Request for Two Piece Stop Tech Brake Rotors
In GCR, Section 9.1.9.2.D.6.a.6., add as follows:
"In T2 only - Ferrous metal 2-piece rotors allowed, must be within 5% of OE diameter."

What Do You Think
None.

RESUMES
None.
DATE: January 20, 2020  
NUMBER: TB 20-02  
FROM: Club Racing Board  
TO: Competitors, Stewards, and Scrutineers  
SUBJECT: Errors and Omissions, Competition Adjustments, Clarifications, and Classifications

All changes are effective 2/1/2020. If any day of a race event falls on the first day of the month, the previous month’s rules will be in effect for that event only. The new rules will become effective at the conclusion of the race event unless otherwise noted.

**American Sedan**

**AS**

1. #28007 (American Sedan Committee) Rear Trailing Arms

In AS, Section 9.1.6.4.d.5., change as follows:

"Bushing material is unrestricted except that bushing material must be at least as stiff as stock (i.e. equal or higher durometer rating). “Air”, foam or other soft materials that render the control arms ineffective, are strictly forbidden. Control arm to spindle/knuckle ball joints must be stock or equivalent replacement. Ball joint may be welded or positively attached. Original unmodified lower control arms (front and rear), and original unmodified front upper control arms must be retained. Vehicles with rear trailing arms may replace OEM arms with tubular arms. Arms must maintain stock length and serve no other purpose than locating rear axle assembly. Pins, keys, or weldment may be used to prevent the rotation of alternate bushings, but may serve no other purpose than that of retaining the bushing in the desired position."

2. #28010 (American Sedan Committee) Weight reduction for cars running iron heads

In AS Spec Lines, Ford Full Prep Cars (GT-40 & GT-40P), change Notes as follows:

"150 200 lb weight reduction."

In AS Spec Lines, General Motors full prep cars, change Notes as follows:

"150 200 lb weight reduction."

3. #28226 (American Sedan Committee) 05-10 Mustang with HR cam classification

In AS, classify the 05-10 Ford Mustang Coupe GT as follows:

<table>
<thead>
<tr>
<th>AS</th>
<th>Wheelerbase</th>
<th>Gear Ratios Std. (or Alt.)</th>
<th>Brakes (Max) (in/mm)</th>
<th>Weight (lbs)</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ford Mustang Coupe GT HR 4.6L OHC (05-10)</td>
<td>107.1</td>
<td>3.38, 2.00, 1.32, 1.00, 0.68</td>
<td>(F) 316/355 Vented Disc</td>
<td>3200</td>
<td>Max. Wheel Size: 18 X 9.5. Stock brakes or alternate Ford 14” Brembo Brake (Ford Racing Kit #M-2300-S) may be used. Cold Air Intake, Ford Racing Part M-9603-M463 is permitted. Replacement exhaust manifolds, or “headers,” may be used. Cylinder head mounting flange(s) shall be no thicker than 0.375 inch, and tubing diameter shall be no</td>

### Formula/Sports Racing

**F**

1. #28029 (Formula/Sports Racing Committee) Update list of Formula Category Classes

In GCR section 9.1.1, make changes as follows:

- "Formula 1000 – (FB)"
- "Formula Mazda – (FM)"
- "Formula X (FX)"

2. #28115 (Formula/Sports Racing Committee) FX class E&O

In GCR section 9.1.1.J.A, make changes as follows: "Purpose and Philosophy - The Formula X class is intended for winged, open-wheel formula cars of modest power and performance (sub FB/F1000/FA/F3/F1000). The class is to include cars which a) are built in significant numbers, but not sufficient enough to populate their own class; and b) may not have been constructed to existing class
formulas within the GCR. The class may also include cars which have been built to a recognized SCCA formula but are not running insufficient numbers to warrant their own class."

In GCR section 9.1.1.J.B, make changes as follows:
2. Formula 4 – Shall comply with FIA Formula 4 Technical Regulations (2015) and all subsequent safety requirements as issued by the FIA and/or SCCA.
4. Pro Formula F2000 (tube frame) – Engine must be prepared to current FC rules except that ECU map and cams are unrestricted."

3. #28117 (Glen Thielke) Request to add data box mounting plate requirement to all FX cars
In GCR section 9.1.1.J, add a new section as follows:
"K. All cars competing in Majors Races and the Runoffs must have the AIM part #X47KPSOLO2R0 data box mount installed on the vehicle to provide the necessary mounting of the AIM Solo or Solo 2 data box. The mounting surface is to be approximately oriented either horizontally or vertically either parallel or perpendicular to the longitudinal axis of the car and must be accessible from the exterior of the car with the driver on board -- it should have a view of the sky, and not be located under carbon fiber or metallic bodywork. Sufficient space should be left between the mounting plate and the surface to which it is attached to permit the use of zip ties/tie straps to restrain the data box to the mounting plate. The purpose of this requirement is to allow the random placement of data boxes on cars in the pre-grid by SCCA assigned personal and the collection of the box when the car exits the racetrack. Contact AIM and their distributors for direct purchase."

FX
1. #28322 (Club Racing Board) Change to FX Table 1
In FX Table 1 Spec Line, change Pro Formula F 2000 Tube Frame notes as follows:
"Engine must be prepared to current FC rules. Except that ECU map and cams are unrestricted. An air restrictor is not required."

In FX Table 1 Spec Line, change USF2000 Tube Frame notes as follows:

P1
1. #28046 (Formula/Sports Racing Committee) Extend date for removing sealed DP02-spec 2.0L option by one year
In P1 Engine Table, Line F, make changes as follows:

<table>

</table>

4. #27276 (Miguelangel Aponte Rios) Request alternate dashboard
In T1 Spec Lines, BMW M3 E92 (08-13), add the following to notes:
"Carbon Dash allowed with 25 lb penalty."

In T1 Spec Lines, BMW M3 E92 (08-13), add the following to notes:
"Carbon Dash allowed with 25 lb penalty."

5. #27713 (Adrian Wlostowski) Request for Allowance of Coil Springs on Limited Prep C6 Corvette
In T1-LP Spec Lines, Chevrolet Corvette C-5 Incl. Fxd. Cpe (98-04) Z06 (hardtop) (01-04), add to Chassis Notes the following:
"Leaf spring suspension may be converted to conventional coilover suspension in T1 only."

In T1-LP Spec Lines, Chevrolet Corvette C6 Coupe (05-10) Grand Sport (10-13), add to Chassis Notes the following:
"Leaf spring suspension may be converted to conventional coilover suspension in T1 only."

In T1-LP Spec Lines, Chevrolet Corvette Z06 (06-12), add to Chassis Notes the following:
"Leaf spring suspension may be converted to conventional coilover suspension in T1 only."

T2
1. #27971 (Kurt Rezzetano) 2015- Current Ecoboost Mustang
In T2 Spec Lines, Ford Mustang Ecoboost 2.3 (2015-), change Weight as follows:
"3500 3400"

In T2 Spec Lines, Ford Mustang Ecoboost 2.3 (2015-), change Wheels as follows:
"18×11 19 x 11"
In T2 Spec Lines, Ford Mustang Ecoboost 2.3 (2015-), change Notes as follows:
"44mm 50mm TIR required. Speed Factory Intercooler, part # SF-55-002 permitted. BMR rear upper control arm camber links part#UTCA064 permitted. Performance Package Brembo front BBK and 380mm one-piece rotors permitted (Ford PN M-2300-V) at +100lbs. Optional: 6 speed automatic transmission (with paddle shifters)."

2. #28022 (Touring Committee) T2 Mustang
In T2 Spec Lines, Ford Mustang GT5.0L (15-17), change Wheels as follows:
'18 x 11 19 x 11"

In T2 Spec Lines, Ford Mustang GT5.0L (15-17), change Notes as follows:
"Solid Differential Bushings part#M-4425-M, Short Shift Kit part#M-7210-M8, Solid Subframe Bushings part#M-5872-M, Dampers in Handling Pack part #M-18000-F, Ford OEM Performance Package Brembo front BBK and 380mm rotors permitted (Ford PN M-2300-V) at no weight penalty +50lbs."

In T2 Spec Lines, Ford Mustang GT5.0L (2018-), change Notes as follows:
"Pack part #M-18000-F, Ford OEM Performance Package Brembo front BBK and 380mm rotors permitted (Ford PN M-2300-V) at no weight penalty +50lbs."

T2-T4
1. #27413 (Michael Pettiford) Please Switch the Solstice GXP as Specified in T2, to T3
In T3 Spec Lines, add T2 Spec information for Pontiac Solstice GXP Coupe / Convertible (07-09) with the following changes in Max Wheel Size:
'18 x 8 9.5"

In T3 Spec Lines, add T2 Spec information for Saturn Sky / Convertible (07-09) with the following changes in Max Wheel Size:
'18 x 8 9.5"

In T3 Spec Lines, add T2 Spec information for Saturn Sky / Convertible (07-09) with the following changes in Weight:
'3250 3200"

2. #27606 (Raymond Blethen) Request to Classify all Mazda RX8 Models in T3/T4
In T3, change Spec Lines as follows:
"Mazda RX-8 Base/R3/Sport/GT (04-12)"

In T3, change Spec Lines as follows:
"Mazda RX-8 Base/R3/Sport/GT (04-12)"

T3
1. #26663 (Michael Kritikos) 2006 BMW E90 330i Sedan Classification
In T3 Spec Lines, add BMW 330i 2006-2012:
2. #27658 (Jared Lendrum) Request for 2005 Subaru STI Changes
In T3 Spec Lines, Subaru WRX STI (03-07), change Tire Size as follows:
"275 245"

In T3 Spec Lines, Subaru WRX STI (03-07), change Weight as follows:
"3350-3400"

In T3 Spec Lines, Subaru WRX STI (03-07), change Notes as follows:
"The following parts are allowed: Phoenix Performance brake duct kit # IPBK01. Front Sway bar Whiteline PN #BSF36XXZ and Rear Sway bar Whiteline PN #BSF37XZ allowed. Racecomp Brake duct kit part #RCE-CFKBK is allowed. Max spring rate (F) 800 lbs/in, (R) 900 lbs/in. Aftermarket Intercooler allowed. 35mm-37mm TIR required. 18x10 wheels allowed 400 lbs."

In T3 Spec Lines, Subaru Legacy GT/Spec B (05-09), change Weight as follows:
"3300-3350"

In T3 Spec Lines, Subaru Legacy GT/Spec B (05-09), change Notes as follows:
"Up to 22mm front and 20mm rear sway bars allowed. Intercooler allowed. Max F/R spring rate 800 lb/in. 35mm 37mm Turbo inlet restrictor required. SPC- 67665 rear camber arm allowed."
3. #27700 (Matthew Fess) Request to Classify 2017 Ford Fiesta ST

In T3 Spec Lines, add Ford Fiesta ST:

3. #28129 (Kenneth H Payson) Weight Change Request for 1999 Mazda Miata
In T4, Mazda MX-5 / Miata, 2001-2005, change the weight as follows:
"2450-2400"

In T4, Mazda MX-5 / Miata, 1999-2000, change the weight as follows:
"2450 2400"

**Recommended Items – Effective February 01, 2020**
The letters listed below were voted on by the BoD at the face to face meetings held at the National Convention on January 16, 2020. These rule changes will be effective on February 01, 2020.

**B-Spec**
1. #27686 (James Rogerson) Request for Automatic Transmission Inclusion
In GCR, section 9.1.10.E.9., make the following changes:
"Radio/stereo audio equipment and air conditioning refrigerant systems are the only options permitted and may be non-manufacturer, standard equipment. Two way radios may be used. Hand controls are allowed in those instances where the driver can demonstrate the physical need for them. **Automatic and cvt transmissions versions of all legal cars are legal for competition in B-Spec meeting their spec line. Models with OEM paddle shifters are acceptable.**"

2. #27687 (James Rogerson) Request to Add Transmission Coolers to Automatics
In GCR, section 9.1.10.E., add the following:
"43. Auxiliary transmission coolers may be approved on a case by case basis. Part numbers must be submitted and added to the cars spec line."

**GCR**
1. #27647 (James Rogerson) Request Passenger Seat replacement
In GCR, section 9.1.41., add the following:
"A passenger seat meeting all the specs of the driver’s seat may be installed in the front passenger seat position. The seat may not be occupied during SCCA racing events."

2. #27753 (Richard Muise) Directive to Front Row Drivers Behind Pace Car
In GCR Section 6.5.2.B.1., make changes as follows:
"The front row drivers must be advised not to pass the pace car."

3. #27824 (SCCA Staff) GCR Event Credential Section 4.5.2 Change
In GCR, section 4.5.1., make changes as follows:
"Anyone participating in an event must sign the SCCA Release and Waiver of Liability Agreement (unless an annual waiver is on file at SCCA National Office) before an event credential (pass) will be issued."

In GCR, Section 4.5.2., change as follows:
"A. An SCCA issued photo ID **One of the accepted forms of Photo ID** is required for any registered event participant who is an SCCA licensed member."
1. An SCCA-issued photo ID (hard card or electronic form) issued by the SCCA National Office, SCCA Pro Racing or an SCCA Region.

2. A Government issued photo ID (Driver’s License, State Identification Card, U.S. Military ID, or Passport) with verification of current SCCA license and membership. The credential for the event must be clearly visible.

B. The member’s name, current photograph, SCCA membership number, and credential for the event must be clearly visible. Identification cards from any other organization will not be accepted.

C. Accepted photo IDs are those issued by the SCCA National Office, the Road Racing Department, the SCCA Pro Racing Department, or an SCCA Region. Any of these must be honored by any SCCA Region. A non-member or weekend member will be issued a paper pass or a wristband.

D. Identification cards from any other organization, including civil authorities, will not be accepted.

E. A non-member or weekend member will be issued a paper pass or a wristband rather than a photo ID.

**GT General**

1. #27323 (Todd Oppermann) Windshield Clips

   In GCR section 9.1.2.F.6.c.1, add as follows:

   "Alternatively, the bottom may be captured in a channel."

   "No clips or straps are required if bonded-glass factory windshields and/or rear windows are attached to chassis per original specifications (i.e., glass-bonding adhesive)."

**T2**

1. #27582 (William Moore) Request for Two Piece Stop Tech Brake Rotors

   In GCR, Section 9.1.9.2.D.6.a.6., add as follows:

   "In T2 only- Ferrous metal 2-piece rotors allowed, must be within 5% of OE diameter."

2. #27912 (RICHARD KULACH) Request for Alternative Brake Kit on Nissan 370Z

   In T2, Nissan 370Z (09-17) / 370Z NISMO Edition (09-17), change Notes as follows:

   "5300S-SS370 T-2 spring kit allowed; 54600-SS370 T-2 front and rear sway bar kit allowed. Sports Package is allowed. Springs up to 1000 lbs/in front and rear allowed. 54010- SZ350 (F) and 55020-SZ350 (R) allowed. Cold Air Intake allowed. Header permitted - Part # 14002-SS370. Rear spring relocation permitted to allow coil over shocks. SPL suspension kit permitted that includes: rear camber arms #SPL RLL Z34, SPL rear toe arms #SPL RTA Z34, SPL rear traction arms #SPL RTR Z34, SPL front camber arms #SPL FUA Z34, SPL rear mid link #SPL RML Z34. Zspeed and Z1 alternative clutch slave permitted. The following STOPTECH parts are allowed with a 50 Lb penalty: #83.488.6800.51 front, 83.657.0057.51 rear."

**T4**

1. #27329 (David Mead) Request to Allow Brake Upgrade on T4 Mustang

   In T4, Ford Mustang V6 (05-10), add to notes as follows:

2. #27659 (Derrick Ambrose) Request for 2014-2018 Mazda 3 GT Brakes

   In T4, Mazda3 (14-18), add to notes as follows:
"Any spring up to 800 lbs. front and 1000 lbs. rear springs may be used. Aftermarket wheels at a min. weight of 15 lbs. each. Cold air intake. Front camber plates. 25mm max rear sway bar allowed. Any year OEM Mazda 3 mirrors allowed. CorkSport rear camber arms (Part# AXM-3-318-10) permitted. Header allowed. **RH Caliper GHY9-33-99Z, LH Caliper GHY9-33-98Z, Rotor GHR1-33-251A allowed.**"

3. **#27763 (Ron Munnerlyn) Request to allow aftermarket OEM coolant expansion tank**
   In T4, GCR section 9.1.9.2.D.3.a.2., add the following:
   "Any radiator and fans are permitted, provided it mounts in the original location, maintains the same plane as the original core, and requires no body or structural modifications to install. No new openings created by fitting an alternate radiator may be used to duct air to the engine. **Any expansion tank permitted as long as it serves no other purpose.**"

4. **#27764 (Ron Munnerlyn) Request to allow aftermarket OEM power steering reservoir**
   In T4, Mazda MX-5 / Club Model (06-15) add to notes as follows:
   "Allow Mazda header part number 0000-06-5407. Any OEM or aftermarket hardtop is permitted that retains the OEM roof silhouette, including Mazda hardtop and part #0000-07-5901-CC. **Aftermarket power steering reservoir is allowed.**"

5. **#27892 (John Heinricy) Request for Replacement Clutches**
   In GCR, Section 9.1.9.2.D.i.5., change as follows:
   "**T2-T3 only.** Any clutch disc and pressure plate of OEM diameter may be used, provided that they shall be bolted directly to an unmodified stock flywheel and is no lighter than 95% of the factory OEM clutch disc and pressure plate."
FACTS IN BRIEF

Following the Saturday, November 2, 2019, Group 7 race of the 2019 American Road Race of Champions at Michelin Raceway Road Atlanta, Assistant Chief Steward (ACS) Russ Gardner filed a Chief Steward’s Action (CSA) against Mauro Fauza, driver of Formula Continental (FC) #55, for a false start in violation of General Competition Rules (GCR) 6.5.2.B.1. (The Pace Lap). The CSA penalized Mr. Fauza two positions in class. Mr. Fauza protested the CSA.

The Stewards of the Meeting (SOM) John Fine, C Michael Powell, and Robert Mayes (Chairman) met to hear and rule on the Protest. The SOM heard witness testimony, evaluated witness statements, and reviewed race control logs. After review, the SOM upheld the CSA and disallowed the protest. Mr. Fauza appealed their decision.

DATES OF THE COURT

The SCCA Court of Appeals (COA) James Averett, Jack Kish, and Pat McCammon (Chairman) met on December 5, 2019, to review, hear, and render a decision on the appeal.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED

1. Appeal letter from Mauro Fauza, received December 3, 2019.

FINDINGS

Mr. Fauza provided no new evidence to support his appeal. The Group 7 race included multiple car classes; FC cars were segmented into a second group led by a second pace car. Mr. Fauza (FC #55) was the pole sitter in class. The appointed Start Judge reported FC #55 accelerated and was approximately one car length ahead of the second place FC car prior to the FC group’s green flag. A second witness also described FC #55’s acceleration prior the green flag. In his appeal, Mr. Fauza alleges the second-place starter slowed, and asserts, “As the pole setter [sic], my responsibility is to set the starting pace as I did.” The COA notes Mr. Fauza did not raise his argument (second place car slowed) in his testimony before the SOM.
GCR 6.5.2.B.1. states, “Drivers may not pass the pace car until it turns off its emergency lights and pulls off the track, and the pole car will maintain the speed of the pace car before it pulled off track until the green flag.” The COA reviewed the Official Observer’s Report and available witness statements from the event and finds the SOM reached a reasonable conclusion when they determined FC #55 accelerated to a speed above that of the pace car prior to the green flag in violation of GCR 6.5.2.B.1. The penalty assessed by the SOM was within the rules and authorities granted in the GCR.

DECISION

The COA upholds the SOM decision in its entirety. Mr. Fauza’s appeal is not well founded. His entire appeal fee will be retained by SCCA.
The Club Racing Board met by teleconference on February 4, 2020. Participating were Peter Keane, Chairman; David Arken, David Daughtery, Jim Goughary, John LaRue, Paula Hawthorne, Sam Henry, Tony Ave, and Shelly Pritchett, secretary. Also participating were: Bob Dowie, Chris Albin, and Marcus Meredith, BoD liaisons; Eric Prill, Chief Operations Officer, Deanna Flanagan, Director of Road Racing; Rick Harris, Club Racing Technical Manager and Scott Schmidt, Technical Services Assistant. The following decisions were made:

**Member Advisory**
None.

**No Action Required**

**B-Spec**
1. #28125 (James Rogerson) Request to Classify Four Door Chevy Sonic Sedan
Thank you for your letter. Please refer to letter #27948 in the current Fastrack.

**F**

**F5**
1. #28185 (Jim Murphy) Request to clarify rule change procedure for F500 rear spoiler
Thank you for your letter. The Club Racing Board recommended this rule change in March 2018. Please see the response to letter #23870, April 2018 Fastrack Minutes. After the proper comment period, the Board of Directors approved the proposed change as recommended in its August 2018 meeting. Please see the response to letter #23870, October 2018 Fastrack Board of Directors Minutes. The rule change went into effect January 1, 2019.

**FM**
1. #28019 (Melvin Kemper) Opposed to Including FM In the Proposed Formula X Class
Thank you for your letter. Please see the response to letter #27793, January 2020 Fastrack Board of Directors Minutes, which was approved as recommended in the Board of Directors’ December 2019 meeting, and the response to letter #27903, January 2020 Fastrack Technical Bulletin.

**FX**
1. #28465 (Dale VandenBush) Question for FM/FX
Thank you for your letter. The Formula X class was not intended to be an "incubation" class created for the purpose of allowing included cars to potentially become separate U.S. Majors classes.

**P1**
1. #28198 (Keith Carter) Request more data input with data boxes
Thank you for your letter. The CRB appreciates the concern for collecting sufficient data for decision making. There are many factors that influence data collected at any given event; track configuration,
weather conditions, and most important entry list. For Major’s events the entry list is reviewed and
must represent a reasonable mix of engine platforms for data to be collected. The CRB will continue to
monitor the entry lists and collect data where there is a reasonable expectation of good data being
available.

2. #28400 (Michael Major) P1 Sealed 2.0L Engines
Thank you for your letter. Competitors have always had the ability to choose between running a DP02-
spec sealed 2.0L engine without an inlet restrictor under Line F or an unsealed 2.0L engine with a 30mm
SIR under Line G. Delaying the previously announced sunset date for the DP02-spec sealed engine
option until 1/1/2021 does not affect a competitor's ability to run an unsealed 2.0L engine during the
2020 season.

GCR
1. #27871 (Jim Creighton) Windshield Clips/Straps
Thank you for your letter. The new rule is appropriate as written in 2020 GCR 9.3.55.

2. #28248 (C W Armbrust) F&C Licensing
Thank you for your letter. It has been forwarded to the specialty license division.

GT2
1. #28042 (Phillip Reith) Request to Reintroduce Rear Spoiler
Thank you for your letter. A rear spoiler has not been prohibited in GT2.

2. #28127 (Alex Phelps) In Regard to Letter #27570
Thank you for your letter. Please see letter # 28119 in current Fastrack.

3. #28180 (Jon Anderson) Request adjustments for C5 corvette (1997-2004)
Thank you for your letter. Please see letter # 27961 in February 2020 Fastrack.

GT3
1. #28183 (Mark Crellin) Request Nissan 200 SX Classification
Thank you for your letter. Car and engine are already classified in GT3.

Prod General
1. #27529 (Peter Jankovskis) Request all current BSpec cars be allowed to compete in HP
Thank you for your letter. The Production Advisory Committee (PAC) is committed to creating,
managing, and balancing Production classifications and Production cars. The PAC does agree that every
car actively being raced in B-Spec should have an available classification in Production. Effort has been
made over the past several months to make the necessary additions to Production so that every
make/model that was raced in BS at the 2019 Runoffs, now currently also has a Production classification
that it could compete under. If there are any B Spec racers whose vehicle is still not included in
Production, and they are interested in competing in Production, they are urged to send in a letter for
Production classification. Please note that by running under a Production classification, the competitor
is expected to compete to the 9.1.5 Production Category rules of the GCR.
Please also note the current existence of Production Category rule 9.1.5.B.5, which allows Improved Touring cars (a non-Runoffs eligible category) to compete in the Production class in which the same make and model car is classified, but wholly under the preparation, modification, and classification of their Improved Touring spec line and the Improved Touring rules.

2. #28245 (WILLIAM TRAINER) Metal Shims to Attain Compression
Thank you for your letter. It is believed that this would already be considered legal under the rule 9.1.5.E.1.m.1 and 9.1.5.E.1.m.1: "The use of alternate engine components which are normally expendable and considered replacement parts, such as fasteners, gaskets, seals, bearings, water pumps, etc., is permitted."

Strategic
1. #26991 (Harley Kaplan) Time to change the show
Thank you for your letter. The CRB has been working closely with the committees to monitor and classify cars as required in each category. For 2020, the Runoffs qualification criteria have changed from "starts" to "finishes".

STL
1. #27816 (Jacob Clark) Request to Classify K20A
Thank you for your letter. The JDM and Euro K20s are STL legal with the use of the USDM intake manifold, 11.0:1 compression and 0.425 valve lift or the USDM OEM cam shaft. Aftermarket pistons are allowed in STL to achieve the 11.0:1 compression ratio.

STU
1. #27632 (Eric Heinrich) Request small displacement NA engines intake/tb
Thank you for your letter. STU aftermarket intake manifolds are approved on a case by case basis.

T2-T4
1. #27901 (Raymond Blethen) Request to Restrict Jack Point Size
Thank you for your letter. We will monitor this situation and if it becomes a problem, we will make a change.

Not Recommended
B-Spec
1. #27718 (G. Brian Metcalf) Request to Allow All Base Model Mini Coopers in B-Spec
Thank you for your letter. Please refer to letter #27861 in the current Fastrack.

2. #27970 (Chris Salyer) Request for Mazda 2 Radiator
Thank you for your letter. The CRB does not recommend opening the radiator to any aftermarket part on the Mazda 2. When a cooling solution for the Mazda is identified with part numbers we will consider their inclusion.
FA
1. #28179 (Dudley Fleck) Request Inlet Restrictor change
Thank you for your letter. This change is not recommended at this time. The Club Racing Board will continue to monitor class performance and will make appropriate, data-based adjustments as necessary.

FF
1. #28133 (Joseph Marcinski) Request new FF parts approval
Mr. Joseph Marcinski, Letter # 28133

Thank you for your letter of January 6, 2020 concerning an alternative piston, rings, wrist pin and valves for Formula F. Although your letter failed to designate what engine these parts were intended for, we will assume that it is the Ford Kent 1600 cross-flow.

First, your letter provides no detail concerning the Manley valve(s) you propose for use. No part number, drawings, part(s) or dyno comparison. It is not possible for this part to be evaluated on what has been submitted.

Be advised that JE submitted a request for approval of a piston on or about November 9, 2018 for the Ford Kent 1600 cross-flow engine through SCCA’s letter system. That request included an engineering drawing of the piston, but did not include dyno comparison results or a sample part. It was further unclear to the FSRAC at that time, and to this day, whether JE has actually manufactured a piston or has simply produced a drawing and will produce such if asked to do so. The FSRAC recommended to the CRB that the request be denied. The CRB accepted that recommendation and published notice thereof in the January 2019 Fastrack. A follow-up inquiry was made by JE’s Jim Irwin concerning the request and a response was provided by the FSRAC Chairman, David Locke, on February 1, 2019. The letter advised Mr. Irwin that the FSRAC did not see evidence of a need for an alternative Kent piston, but assuming that such need could be demonstrated a dyno comparison to the currently approved piston would be required. Locke welcomed further submission of dyno test results and a sample piston; to date JE has not made further inquiry or submission on this matter.

As you may or may not be aware, about twenty (20) years ago parts for the Kent engine were in very short supply and the quality of those available were questionable. Since that time members of the Formula F community have worked to produce parts, including a block, which have proven to be of good quality and provide a useful engine life many times that which existed previously. In the absence of a proven shortage of parts, or valid reason for approving “alternative” parts, we do not believe it prudent to introduce such into the stream of competition. Even “if” the proposed parts are dimensionally the same, differences in material composition and processing could result in a part that would not produce the same power or worse yet, longevity. It would at a minimum introduce a variable into the class that could result in “perceived” performance differences which we believe would have a negative impact upon its overall health.

Thank you for your continued support of Formula F and the SCCA.
P2
1. #28072 (GREG GYANN) No Assisted Shifting for FIA Group CN Cars in P2
Thank you for your letter. The Club Racing Board does not recommend this change. The Group CN spec line divides equipment into two categories: (1) certain listed components of the original FIA homologation that competitors are required to use; and (2) certain listed components permitted by the premier V de V Endurance Series that competitors are allowed to use. The shifting system is not one of the original FIA-homologated components that competitors are required to use, but assisted shifting is one of the components permitted by the V de V Endurance Series that competitors are allowed to use. The intent of the spec line is to allow CN cars to run in P2 as they run in the V de V Endurance Series, and to control the cars’ performance in P2 by the use of an appropriately-sized flat plate intake restrictor, as determined by rate-of-acceleration data obtained by the SCCA. The Club Racing Board will continue to monitor class performance and will make appropriate, data-based adjustments as necessary.

GT2
1. #28028 (Barry Boes) BOP of TA2 Cars in GT2
Thank you for your letter. The car is competitive as classed and the CRB will continue to monitor performance at the Super Tour and Runoffs for all drivers/cars combinations in class.

2. #28069 (Brad McAllister) Request to Repeal the TA2/GT2 100lb Addition
Thank you for your letter. The car is competitive as classed and the CRB will continue to monitor performance at the Super Tour and Runoffs for all drivers/cars combinations in class.

3. #28084 (Barry Boes) GT2 Super Tour Results
Thank you for your letter. The car is competitive as classed and the CRB will continue to monitor performance at the Super Tour and Runoffs for all drivers/cars combinations in class.

GT3
1. #28097 (Jim Froula) GT3 Nissan Inlet Restrictors
Thank you for your letter. The car is competitive as classed and the CRB will continue to monitor performance at the Super Tour and Runoffs for all drivers/car combinations in class.

IT General
1. #27941 (chi ho) Request to Allow Removal of Mass Air Flow Sensor
Thank you for your letter. The CRB believes the rule is correct at this time but will continue to keep the request in mind for a review of the ITCS.

HP
1. #28228 (Mike Ogren) Request to measure Toyota push rod 2TC engine cam lift as raced
Thank you for your letter. This request is not recommended at this time. Factory valve clearances cannot be taken into account for every classification, nor is it believed that variances of this spec from car to car will have any effect on performance potential or class balance.
2. #28229 (Mike Ogren) Request to move the MR2 to FP  
Thank you for your letter, but this request is not recommended at this time. No new knowledge has been presented to make performance potential expectations any different than originally believed. This classification has also not been campaigned enough to gather sufficient real world data, nor has it been campaigned at the highest levels and subject to thorough technical checks and investigation.

SM  
1. #28283 (Nathan Klein) Hardtop Back Glass Substitution  
Thank you for your letter. The SMAC investigated the suggested unavailability of this part and concluded the replacement glass is available through Mazda.

ST General  
1. #27430 (Dale Shoemaker) Request for RX8 Window Framework Removal  
Thank you for your letter. Current window removal rules are adequately written.

2. #27806 (Bill Lamkin) Strut Car Weight Reduction (Existing Rule) Question  
Thank you for your letter. With the allowable STU suspension pick up point modifications, the CRB believes a front strut weight reduction is necessary. The CRB will continue to monitor performance.

3. #28188 (Eric Heinrich) Request to allow polycarbonate for sunroof replacement  
Thank you for your letter. Sun roof replacement rules are adequate as written.

STL  
1. #27459 (Robert Tanon) PWC TCA MX5 2.0 weight revision  
Thank you for your letter. PWC TC MX5 rule set is no longer available to the SCCA.

STU  
1. #27458 (Robert Tanon) Request for PWC TC MX5 2.5 Weight Revision  
Thank you for your letter. PWC TC MX5 rule set is no longer available to the SCCA.

2. #27532 (Michael Kritikos) Request to Change Tire Section Width to Weight Based  
Thank you for your letter. Current STU tire rules are adequately written.

3. #27620 (David Muramoto) Request to Classify Nissan 350Z in STU  
Thank you for your letter. The Nissan VQ30 engine is eligible for STU.

4. #27630 (Eric Heinrich) Request small displacement NA engines need help  
Thank you for your letter. The CRB does not believe STU small displacement engines need to be adjusted. The CRB will continue to monitor performance.

5. #27633 (Eric Heinrich) Request advanced aero changes  
Thank you for your letter. Current advanced aero rules are adequately written.
6. #27634 (Eric Heinrich) Request a mid-engine placement adjuster
Thank you for your letter. The CRB does not believe STU mid engines chassis need to be adjusted. The CRB will continue to monitor performance.

7. #27635 (Eric Heinrich) Request FWD weight adjustment
Thank you for your letter. The CRB does not believe STU FWD weights need to be adjusted. The CRB will continue to monitor performance.

8. #27636 (Eric Heinrich) Request to fix the TIR chart errors
Thank you for your letter. The CRB does not believe STU FWD weights need to be adjusted. The CRB will continue to monitor performance.

9. #27644 (Christopher DeShong) Aftermarket Intake Manifolds and Throttle Bodies
Thank you for your letter. STU aftermarket intake manifolds are approved on a case by case basis. Aftermarket throttle bodies are not within the STU class philosophy.

10. #28071 (Thomas Green) Request for STU Car Adjustment (Approved Turbo)
Thank you for your letter. Please refer to 9.1.4.1.H.5 the STU alternate turbo list.

**T2**

1. #27767 (William Moore) Request weight for automatic transmissions
Thank you for your letter. Recent changes to T2 have been made and we will continue to monitor the BOP in the class. Please Note, there is already a 100 pound penalty for the PDK.

2. #27919 (Ryan Szyjakowski) Request for E46 M3 Big Brake Kit
Thank you for your letter. There are already 2 options on this spec line. We feel that the current rules are complex enough and adding another option over-complicates the rules set.

**T2-T4**

1. #28036 (Chip Bailey) No Adjustable Shocks and Reduce Weight on the Mazda
Thank you for your letter. No change is recommended at this time. We will continue to monitor the class.

**T4**

1. #27876 (Derrick Ambrose) Request for 8 Inch Wide Wheels on FWD Cars
Thank you for your letter. The TAC likes to use race data to make changes to cars on a case by case basis. The current BOP in the class has been established using the current allowances for each of the cars that are classed. If a change is needed, we'd prefer to evaluate one car at a time.
**Recommended Items**

The following subjects will be referred to the Board of Directors for approval. Address all comments, both for and against, to the Club Racing Board. It is the BoD’s policy to withhold voting on a rules change until there has been input from the membership on the presented rules. Member input is suggested and encouraged. Please send your comments via the form at www.clubracingboard.com.

**ST General**

1. #28224 (SCCA Staff) Request to clarify wicker height
   In ST, GCR section 9.1.4.D.4.d., add as follows:
   "Maximum allowable wicker height is 0.50 inches."

**Taken Care Of**

   Thank you for your letter. The Club Racing Board appreciates your comments.

27. #28190 (Mike Agnifilo) Alternative FF piston and valve request
   Thank you for your letter. Please see the response to letter #28133 in this Fastrack.

28. #28191 (Samuel Eyer) Request new FF parts approval requested
   Thank you for your letter. Please see the response to letter #28133 in this Fastrack.

29. #28192 (Roland Johnson) Opposes alternative FF Proposed parts
   Thank you for your letter. Please see the response to letter #28133 in this Fastrack.

30. #28216 (Doug Learned) Opposes proposed new engine parts for FF (pistons and valves)
   Thank you for your letter. Please see the response to letter #28133 in this Fastrack.

31. #28235 (Alan VanDeWeghe) Support for New FF Parts Approval Request
   Thank you for your letter. Please see the response to letter #28133 in this Fastrack.

32. #28270 (Mark Mervich) New Formula Ford Parts Request
   Thank you for your letter. Please see the response to letter #28133 in this Fastrack.

FM

1. #28207 (Bill Weaver) Please reconsider moving Formula Mazda into FX
   Thank you for your letter. Please see the responses to letters #28044, #28047, and #28049 in the
   February 2020 Fastrack Minutes. Entrants are free to organize an unofficial championship for Formula
   Mazda competitors within the FX class or to otherwise recognize Formula Mazda competitors' performance in FX.

2. #28208 (Stewart. Tabak) Request one-year probationary status for FM
   Thank you for your letter. Please see the responses to letters #28044 and #28047 in the February 2020
   Fastrack Minutes. The provision for probation relates to the issue of whether a class with fewer than ten
   entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class. Please however note that Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

3. #28209 (Jerry Dutch Schultz) Opposes FM Class Change
   Thank you for your letter. Please see the responses to letters #28044 and #28047 in the February 2020
   Fastrack Minutes. The provision for probation relates to the issue of whether a class with fewer than ten
   entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class. Please however note that Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full
year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

4. #28211 (Jim Mali) Opposes FM to FX
Thank you for your letter. Please see the responses to letters #28044 and #28047 in the February 2020 Fastrack Minutes. The provision for probation relates to the issue of whether a class with fewer than ten entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class. Please however note that Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

5. #28213 (Brad Drew) Request for 2020 Probation for FM as Stand Alone Class
Thank you for your letter. Please see the responses to letters #28044 and #28047 in the February 2020 Fastrack Minutes. The provision for probation relates to the issue of whether a class with fewer than ten entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class. Please however note that Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

6. #28215 (Derry O'Donovan) Request probation for FM
Thank you for your letter. Please see the responses to letters #28044 and #28047 in the February 2020 Fastrack Minutes. The provision for probation relates to the issue of whether a class with fewer than ten entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class. Please however note that Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

7. #28217 (Bruce Carpenter) Request 1 yr probation
Thank you for your letter. Please see the responses to letters #28044 and #28047 in the February 2020 Fastrack Minutes. The provision for probation relates to the issue of whether a class with fewer than ten entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class. Please however note that Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

8. #28219 (William Sturgeon) Please keep FM as a standalone spec class for 2020
Thank you for your letter. Please see the responses to letters #28044 and #28047 in the February 2020 Fastrack Minutes. The provision for probation relates to the issue of whether a class with fewer than ten entries may crown a National Champion (see GCR section 3.7.4.C.2), not to the process of incorporating an underperforming class into another class. Please however note that Formula Mazda's low participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.
participation numbers in 2018 were posted on the SCCA's website and provided competitors with a full year's notice of the need to improve the class's participation level in accordance with the requirements of GCR section 9.1.13.A.

9. #28240 (Bruce Semler) Keep Formula Mazda as Own Group Please
   Thank you for your letter. Please see the responses to letters #28044, #28047, and #28049 in the February 2020 Fastrack Minutes. Entrants are free to organize an unofficial championship for Formula Mazda competitors within the FX class or to otherwise recognize Formula Mazda competitors' performance in FX.

GT3
1. #28376 (Grand Touring Committee) Restore original Mazda specs to GT3 Spec Line
   Thank you for your letter. Please see letter 28119 that has corrected the error in the GT3 Mazda MZR spec line.

   Thank you for your letter. These concerns were addressed in letters 27899 and 28238.
What Do You Think

SM
1. #28303 (Spec Miata Committee) Tire Limiting Process Proposal

The SMAC is requesting input from the SM community for the Tire Limiting Proposal. Please provide feedback through the letter log system by **Sunday, March 15.** [http://www.clubracingboard.com/](http://www.clubracingboard.com/)

Below is an outline of a theoretical process of how a tire limiting strategy might work.

**Outline of Proposal:**

1. Competitor comes to registration at beginning of the weekend to pick up their registration packet. In the registration packet with the tech sheet is a tire claim card and a tire claim sticker. The tire claim card and tire claim sticker will have a spot for the competitor to record or claim the serial number of (5) new or used tires to be used for all timed sessions on track throughout the race weekend. The serial number will be molded into the sidewall of the Hoosier tire form the factory.

2. Once competitor chooses which 5 tires they are choosing to run, they will record the 5 serial numbers on the tire claim card and the tire claim sticker.

3. The tire claim card and tire claim sticker need to be presented to tech with the standard tech form to receive a tech sticker for the weekend. Tech will take and keep the tire claim card on file. Tech will verify that the serial numbers on the tire claim card match the serial numbers on the tire claim sticker.

4. Competitor to place the tire claim sticker inside the rear windshield on the driver’s side so that it may be viewed from outside the car by tech and will not be impacted by weather.

5. Competitor may only use claimed tires in all qualifying and race sessions throughout the event.

6. Practice sessions do not require the claimed tires to be used. Any tire may be used for practice sessions.

7. In the event of a flat spotted or damaged tire the competitor may replace the damaged tire with the 5th tire that they have claimed on the tire claim sheet with no penalty.

8. If a competitor needs to put a non-claimed tire on the car due to multiple tires being damaged, then they lose the times from the previous sessions which would then require them to start from the back of the next session.

**Example 1** - You flat spot tires in Q1 and you need to put a non-claimed tire on the car you would lose your qualifying times for Q1 which would then require you to start from the back of Q2.

**Example 2** - You flat spot tires in Race 1 and require a non-claimed tire to be put on the car for Race 2 then you would start at the back for Race 2, but would keep your finishing position from Race 1.

As with any new change in process and rules there can be both positive and negative impacts. We have outlined below a few positives and negatives we would like you to consider when evaluating your position on the need for a tire limiting strategy for Spec Miata Super Tour Events.
**Positives:**
- Reduced tire cost for all competitors who would normally use more than one set per weekend.
- Possible increased competitiveness for those who were not using multiple sets of tires per weekend.
- Reduced number of tires to be hauled to the track, mounted, stored, swapped, etc.

**Negatives:**
- Essentially requires a new set of tires for every event to be competitive.
- You would be penalized by no fault of your own for an on track incident. i.e. you get hit and spun.
- Opportunity to use multiple sets of used tires per weekend is not possible increasing the cost for competitors who normally manage their used tires for a race weekend.
- Additional requirements from tech and the volunteer community to implement a plan like this may not make it possible.
- Tire issues such as blistered tires or defective tires would leave you no recourse.
- Tire cost may increase (less than $5.00 per tire) to have the serial numbers molded into the tires.
- Could cause a safety issue if a competitor chooses to run a damaged or compromised tire rather than start at the back.
- Some competitors will likely use all 5 tires in a given weekend which could cause other to feel like they have to do the same to be competitive.
- Could impact the number of tires purchased at the track which might affect the support from tire suppliers.
- Could impact the number of tires sold by Hoosier for each event which could cause tire prices to increase in the future to make up for the loss in sales.
- Reduction of low heat cycle used tires that many front runners sell off to other racers trying to control tire costs.

**Questions:**
- Will the CRB/BOD support this plan?
- Will Hoosier support this plan?
- Can this be implemented at events outside of Super Tours, such as at Majors?
- Does it actually reduce tire costs?
- Is this what is best for the class given the survey results?
- Do the positives outweigh the negatives?
- Can tech support the logistics and implementation of the plan and effectively penalize?

**Spec Miata Community:**
The SMAC is now asking that competitors review the tire survey results and provide feedback on both the survey and the draft proposed tire limiting process. This feedback will be formally requested in the What Do You Think (WDYT) in the March 2020 Fastrack.
RESUMES
GT General
1. #28181 (Samuel Fouse) Resume for GT
Thank you for your resume. We will keep your resume on file for future needs on the GTAC AdCom.
DATE: February 20, 2020
NUMBER: TB 20-03
FROM: Club Racing Board
TO: Competitors, Stewards, and Scrutineers

SUBJECT: Errors and Omissions, Competition Adjustments, Clarifications, and Classifications
All changes are effective 3/1/2020. If any day of a race event falls on the first day of the month, the previous month’s rules will be in effect for that event only. The new rules will become effective at the conclusion of the race event unless otherwise noted.

American Sedan
None.

B-Spec
1. #27850 (Tony Roma) Request for Model Years Updating
In B-Spec, Chevrolet Sonic (12-16), update the year as follows:
(12-16 19)

In B-Spec, Fiat 500 (2012), update the year as follows:
(12 -15)

In B-Spec, Ford Fiesta 5dr Hatchback (11-16), update the year as follows:
(11-16 19)

In B-Spec, Ford Fiesta 4dr Hatchback (11-16), update the year as follows:
(11-16 19)

In B-Spec, Honda Fit (2015), update the year as follows:
(2015 15-19)

2. #27861 (G. Brian Metcalf) Request to classify Min Cooper models
In B-Spec, classify the (02-06) Mini Cooper Hatchback (R50) as follows:

<table>
<thead>
<tr>
<th>B-SPEC</th>
<th>Bore x Stroke (mm)</th>
<th>Wheelbase (mm)</th>
<th>Gear Ratios</th>
<th>Final Drive</th>
<th>Brakes (inches)</th>
<th>Weight (lbs)</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mini Cooper Hatchback</td>
<td>77.0 x 85.8 1598</td>
<td>2466</td>
<td>4.10, 2.37, 1.56</td>
<td>3.51</td>
<td>(F) 11.0 (R) 10.2</td>
<td>2545</td>
<td>KW: Coilover Kit: Variant 2: Gen 1 or KW equivalent, Bilstein B14 kit # 47-126916, Vorshlag Mini R50/53 Camber Plates &amp; Perches allowed. Ride height measured from</td>
</tr>
</tbody>
</table>
In B-Spec, classify the (07-10) Mini Cooper Clubman (R55) as follows:

<table>
<thead>
<tr>
<th>B-SPEC</th>
<th>Bore x Stroke(mm) Displacement (cc)</th>
<th>Wheelbase (mm)</th>
<th>Gear Ratios</th>
<th>Final Drive</th>
<th>Brakes (inches)</th>
<th>Weight (lbs)</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mini Cooper clubman (R55) (07 - 10)</td>
<td>77.0 x 85.8 1598</td>
<td>2547</td>
<td>3.21, 1.79, 1.19, 0.91, 0.78, 0.68</td>
<td>4.35</td>
<td>(F) 11.0 (R) 10.2</td>
<td>2545</td>
<td>L/F Strut-spring assembly 31 31 1 126, R/F Strut-spring assembly 31 31 1 125, Rear Shock-spring assembly 33 50 1 125. Ride height measured from the bottom of the plastic door rocker molding shall be no less than 5 inches. Front adjustable sway bar links part number 31 35 6 771 is allowed. Rear adjustable sway bar links part number 35 50 6 772 is allowed. Allow rear sway bar Progress #62.0210. Allow Bilstein B14 suspension kit 47-139060.</td>
</tr>
</tbody>
</table>

In B-Spec, classify the (12-15) Mini Cooper Coupe (R58) as follows:

<table>
<thead>
<tr>
<th>B-SPEC</th>
<th>Bore x Stroke(mm) Displacement (cc)</th>
<th>Wheelbase (mm)</th>
<th>Gear Ratios</th>
<th>Final Drive</th>

Ride height measured from the bottom of the plastic door rocker molding shall be no less than 5 inches. Front adjustable sway bar links part number 31 35 6 771 is allowed. Rear adjustable sway bar links part number 35 50 6 772 is allowed. Adjustable front camber plate part number 31 30 1 507 is allowed. Allow rear sway bar Progress #62.0210. Allow Bilstein B14 suspension kit 47-139060.</td>
</tr>
</tbody>
</table>

3. #27947 (B-Spec Committee) remove fog lights
   In B-Spec, GCR Section 9.1.10.E.42, change fog light wording as follows:
   "Fog light holes may be completely covered. Fog lamps may not be removed. Fog light holes must be completely covered."

4. #27948 (B-Spec Committee) add sonic sedan
   In B-Spec, classify the (12-19) Chevrolet Sonic 4dr Sedan as follows:

<table>
<thead>
<tr>
<th>B-SPEC</th>
<th>Bore x Stroke(mm) Displacement (cc)</th>
<th>Wheelbase (mm)</th>
<th>Gear Ratios</th>
<th>Final Drive</th>
<th>Brakes (inches)</th>
<th>Weight (lbs)</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chevrolet Sonic 4dr Sedan (12-19)</td>

<td>3.72, 1.96, 1.32, 0.94, 0.75</td>
<td>3.94</td>
<td>(F)10.8 (R) 9.0 drum</td>
<td>2650</td>
<td>32mm flat plate restrictor required. GM suspension kit #23123679 permitted. Allow rear sway bar ZZ Performance #ZZ-SNCRSB.</td>
</tr>
</tbody>
</table>

5. #28394 (B-Spec Committee) B-Spec Balance of Performance based on 2018 and 2019 seasons
   Effective 05/01/2020, in B-Spec, Ford Fiesta 5dr Hatchback (12-19), make changes to the spec line as follows:
   Wheelbase: "98 2490"
   Add to beginning of Notes:
   "36mm flat plate restrictor required."
Effective 05/01/2020, in B-Spec, Ford Fiesta 4dr Hatchback (12-19), make changes to the spec line as follows:
Wheelbase: "98 2490"
Add to beginning of Notes: 
"34mm flat plate restrictor required."

Effective 05/01/2020, in B-Spec, Honda Fit (09-12), make changes to the spec line as follows:
Wheelbase: 
"98.4 2500"
Weight: 
"2550 2525"

Effective 05/01/2020, in B-Spec, Honda Fit (15-20), make changes to the spec line Notes as follows:
"32mm 30mm flat plate restrictor"

Effective 05/01/2020, in B-Spec, Mini Cooper Hatchback (07-10), make changes to the spec line Notes as follows:
"Mini Cooper Hatchback (R56) (07-10)"
Wheelbase: 
"97.1 2466"
Add to beginning of Notes: 
"40mm flat plate restrictor"

Note from the CRB: After reviewing the performance of different cars across different regions in B Spec and after reviewing data based on track performance, trap speeds and dyno data, the Ford Fiesta, 2007-2010 Mini Cooper and 2015-2020 Honda Fit will get a small reduction in power. The 2009-2012 Honda Fit will receive a small weight reduction to help improve performance.

**Formula/Sports Racing**

**FA**
1. #28430 (Formula/Sports Racing Committee) FA weight correction/clarification
In FA Table 1 Engine Notes, change as follows:
"(only apply to Table 1 and Table E)"
In FA Table 2, change the Pro Formula Mazda engine column as follows:
"See Table 1 for engine specifications"

**FF**
1. #28443 (Formula/Sports Racing Committee) Update rain tire designation
In GCR section 9.1.1.B.10.e, change as follows:
"Wets:
Front-Hoosier Wet or W3 Radial 44421 185/60R13
Rear-Hoosier Wet or W3 Radial 44426 205/60R13"

FV
1. #28444 (Formula/Sports Racing Committee) Update rain tire designation
In GCR section 9.1.1.C.3.D, change as follows:
"The following rain tire is required:
Hoosier #44266
22.5 x 5.0 x 15 Hoosier WET or W3 (rain)"

FX
1. #28415 (SCCA Staff) Request to remove tire marking language from FM
In FX, Formula Mazda, add to the notes as follows:
"Marking tires is no longer required. Car must comply with all December 2019 GCR Formula Mazda

P2
1. #28247 (Greg Bell) Request for Fly by Wire Rule Wording Change
In GCR section 9.1.8.D.L.g, make changes as follows:
"Electronic throttle control (ETC, Fly-by-wire, Drive-by-wire)-: Engines utilizing stock ECUs with
Drive-By-Wire systems are permitted as long as the throttle pedal activates the original throttle shaft
activation mechanism of the production system."

PX
1. #28461 (Formula/Sports Racing Committee) Revise PX eligibility
In PX, GCR section 9.1.8.I.B, change as follows:
"12. Other like vehicles as submitted to the CRB for classification on a case by case basis"

GCR
1. #28442 (SCCA Staff) Appendix C - Fees clean up
In GCR Appendix C, 2.4 Additional Licensing Information make changes as follows:
“B. An applicant for any Permit or License who requests expedited processing is subject to the current
special handling fee found on the license application. must add an additional $125 to the license fee
shown in Table 1. The special handling fee guarantees a 24 hour business day turnaround and the
License is returned via Federal Express.”

In GCR Appendix C Table 1, FEE column, make changes as follows:
Replace the dollar figures in the FEE column with “See Novice Permit or Competition License Application
Form for current fees.”

2. #28454 (SCCA Staff) 2.2.6 Unmanned Aircraft Systems - update language
In GCR 2.2.6 Unmanned Aircraft Systems, change as follows:
"Commercial and private unmanned aircraft systems (aka “drones”) are prohibited unless authorized in the Supplemental Regulations. Subject to local venue rules and regulations and approval from the event organizer, unmanned Aircraft Vehicle (“UAV” or “Drone”) operators/owners must have proof of FAA certification and $10M of primary liability insurance naming SCCA and the Race Track as additional insureds. Recreational use of UAVs is prohibited."

**Grand Touring**

**GT2**
1. #28194 (Nathan McBride) Request 991.2 Porsche engine displacement verify typo
In GT2, Porsche 991.2 GT3 Cup Car, change engine displacement as follows:
"3.8L 4.0L"

**GT3**
1. #28119 (Sam Fouse) Error Regarding Mazda Engine Listing
In GT3, Mazda MZR L5-VE, Fuel Induction, change spec line as follows:
"Unrestricted 31mm SIR"
In GT3, Mazda MZR L5-VE, Weight, change spec line as follows:
"1950 2195"
In GT3, Mazda MZR L5-VE, Notes, change spec line as follows:
"Limited to GT2 engine prep levels based on standard bore and stroke – no direct Injection. Direct injection not permitted. Allow 2.3L 94.0 mm stroke crankshaft with displacement of 2339cc."

In GT2 Engines - Mazda, classify the MZR/L5-VE engine as follows:

| GT2 Engines - | | |
|---------------|---|---|---|---|---|---|---|---|---|
| Engine Family | Engine Type | Bore (mm) | Stroke (mm) | Disp. (cc) | Head Type | Valves / Cyl. | Fuel Induction | Weight (lbs) | Notes |
| MZR/L5-VE | DOHC | 89.0 | 100.0 | 2488 | Crossflow | 4 | Unrestricted | 1950 | Direct injection not permitted. Allow 2.3L 94.0 mm stroke crankshaft with displacement of 2339cc. |

**GTL**
1. #28243 (Grand Touring Committee) GTL wing end plates addition
In GTL, GCR section 9.1.2.F.7.b.13.A, change the GTL wing rules as follows:
"The maximum width of the entire single element, flat plane wing assembly (wing element, endplates, and mounting hardware) is 56.0 inches, but it may be no wider than the bodywork including fender flairs. The maximum chord is 8.0 inches. Wing endplates must fit within a rectangle measuring 8.5 inches wide by 3.0 inches high, may be a maximum of 64 Sq. inches. Endplates must be flat, with no curvature or Gurney tabs. A maximum 0.5-inch wicker-bill may be employed."
2. #28309 (Grand Touring Committee) Clarification to letter #27406
In GTL, Mazda Engines 12A Street Port, change weight as follows:
"2000 1950"

Improved Touring
ITS
1. #28272 (Tom Fowler) Request OEM hardtops for IT
In IT, GCR 9.1.3.D.8.f., change as follows:
"Convertible tops and attaching hardware shall be completely removed. Note: Convertible model cars are permitted if they were only available as convertibles (e.g. MG Midget), or if the convertible model is specifically allowed on the vehicle spec line. Convertible models may compete with their respective OEM hardtop or aftermarket hardtop that retains the OEM silhouette. Rear glass in such hardtops may be of automotive safety glass or polycarbonate material."

Legends Car
None.

Production
EP
1. #27662 (Kevin Koelemeyer) Request to Review Horsepower Parity
In EP, BMW Z3 2.5L, change notes as follows:
"Comp. Ratio limited to 12.0:1, Valve lift limited to .500". To replace stock drive-by-wire throttle body, alternate throttle body from BMW 92-95 325i (part #13541748105) with Turner Motorsports adapter plate (part #TEN9990850) is permitted. 59mm Flat Plate Intake Restrictor is required with both stock or alternate throttle body. Alternate throttle body from BMW 92-95 325i part number 13541748105 permitted only with Turner Motorsports adapter plate part number TEN9990850 to replace drive-by-wire throttle body."

In EP, BMW Z3 2.8L (97-00), add to the notes as follows:
"Comp. Ratio limited to 12.0:1, Valve lift limited to .500". 59mm Flat Plate Intake Restrictor is required."

In EP, Porsche 944S2 (89-91), add to the spec line as follows:
Fuel Injected Equipped Throttle Body Inside Diameter - "60mm" stock
"Comp. Ratio limited to 12.0:1, Valve lift limited to .500", Dry sump is allowed. 56mm Flat Plate Intake Restrictor is required. Can use the stock fuel tank if stock rear bumper and bumper support structure retained."

2. #28058 (Charles Baader) E36 (92-95) Brakes Errors and Omissions
In EP, BMW 325is M-Technic (1994), change as follows:
Weight:
"2650 2550
*2716 2614
**2783 2678"
Brakes Std.
"(F) (12.4 x 1.1) 286 vented"

3. #28422 (Production Committee) Add Throttle Body Size these EP BMW Spec Lines
In EP, Fuel Injected Equipped Throttle Body Inside diameter, make changes as follows:
Add "64" as maximum inside diameter and delete any other wording.
BMW Z3 2.5L
BMW Z3 2.8L (97-00)
BMW Z4 (03-05)
BMW 328i/is E36 (96-99)
BMW 328i/ci E46 (01-06)
BMW 325i/is (E46) (01-06)
BMW 325i/is E-36 (92-95)
BMW 325is M-Technic (1994)

FP
1. #27886 (Chuck Mathis) VW Weight and Valve Size Request
In FP, Volkswagen models, delete the following spec lines: replace as follows:
"Volkswagen Jetta (includes GLI) (82-84)
Volkswagen Rabbit 1457/1471 (includes Cabriolet/Convertible)
Volkswagen Rabbit 1588 (includes Cabriolet/Convertible)
Volkswagen Rabbit (includes Convertible) 1715 / 1780
Volkswagen Scirocco 1457/1471
Volkswagen Scirocco 1588
Volkswagen Scirocco 1715 /1780"

In FP, Volkswagen models, classify the following cars:

<table>
<thead>
<tr>
<th>FP</th>

3. #28336 (Brian Frank) Request Ford Fiesta Weight Adjustment

In FP, Ford Fiesta (78-80), change weight as follows:
"1790 1660"

HP

1. #28085 (Jack Banha) Letter #27917

In HP, Volkswagen Rabbit 1588 (includes Cabriolet /convertible), spec lines, change Carburetor. No & Type as follows:
"(1) 40 DCN, DCNF w/ 32mm choke(s), or fuel injection. 32mm choke(s) req'd. (2) auto type side draft(s) w/ 32mm chokes at 90lbs penalty."
In HP, Volkswagen Rabbit 1588 (includes Cabriolet / convertible), spec lines change Notes, as follows:
"Compression ratio limited to 11.5:1, Valve lift limited to .450". (2) auto type side draft carburetors with 32mm chokes permitted at weights of 1875/* 1922/** 1969. Mk2 VW front spindles, hubs and bearings are permitted."

In HP, Volkswagen Scirocco 1588, spec lines, change Carburetor. No & Type as follows:
"(1) 40 DCN, DCNF w/ 32mm choke(s), or fuel injection. 32mm choke(s) req’d. (2) auto type side draft(s) w/ 32mm chokes at 90lbs penalty."

In HP, Volkswagen Scirocco 1588), spec lines, change Notes as follows:
"Compression ratio limited to 11.5:1, Valve lift limited to .450". (2) auto type side draft carburetors with 32mm chokes permitted at weights of 1875/* 1922/** 1969. Mk2 VW front spindles, hubs and bearings are permitted."

2. #28111 (G. Brian Metcalf) Request to Classify 2007 - 2013 Mini Cooper Convertible
In HP, Mini Cooper (02-06), changes as follows:
"(includes convertible)"

In HP, Mini Cooper (07-13), changes as follows:
"(includes convertible)"

In HP, Mini Cooper (05-08), delete the spec as follows:
"Mini Cooper Convertible (05-08)"

3. #28121 (James Bell) Allow HP Datsun 510 Under Level 2 to Utilize Datsun Z Brakes
In HP, Nissan/Datsun PL510, make changes to the spec line as follows:
Brakes:
"Factory Spec @ all 4 wheels. (F) 9.1 Disc (R) 9.0 Drum"

Brakes Alt:
"Nissan/Datsun 240Z/260Z/280Z front rotors and calipers and rear aluminum drums are permitted."

Notes:
"Compression ratio limited to 12.0:1, Valve lift limited to .450". (2) auto type side drafts w/ 32mm choke(s) on I.R. manifold allowed @ 2050 (*2101 **2153). Nissan/Datsun 240Z/260Z/280Z front rotors and calipers and rear aluminum drums are permitted."

4. #28337 (Brian Frank) Request Ford Fiesta Weight Adjustment
In HP, Ford Fiesta (78-80), changes weight as follows:
"1775 1725
 * 1819 1768
 ** 1864 1811"
Prod General

1. #28195 (James Bell) Request to allow 40 DCOE carb for the Datsun 510
In HP, Nissan/Datsun PL510, make changes to the spec line as follows:
Carburetor No & Type:
"(1) 40 DCN or, DCNF w/ 32mm choke(s), 32mm choke(s) req’d, or (1) 36mm DCNVH. (2) auto type side draft(s) w/ 32mm choke(s) on I.R. manifold @ 90lbs penalty."

Notes:
"Compression ratio limited to 12.0:1, Valve lift limited to .450”. (2) auto type side drafts w/ 32mm choke(s) on I.R. manifold allowed @ 2050 (*2101 **2153). Nissan/Datsun 240Z/260Z/280Z front rotors and calipers and rear aluminum drums are permitted."

Spec Miata
None.

Strategic Planning
None.

Super Touring

STL
1. #28342 (SCCA Staff) Request to add wheel part numbers
In STL, Mazda Spec MX5 Challenge, add wheel part numbers to the notes as follows:
"0000-04-5706-GM, 0000-04-5706-SL"

STU
1. #27694 (David Fiorelli) Please Modify the STU Wheel Size Rule for Clarity
In STU, GCR section 9.1.4.1.F.1., change base weight as follows:
"Vehicles over 2950 2951 base weight may use a 9 inch wide wheel."

Note: Other requests in this letter are not recommended.

2. #28032 (Jose De Miguel) Turbo Engine Cars Base Weight
In STU, GCR section 9.1.4.1.H.6., change as follows:
"All turbocharged engines shall use a turbo inlet restrictor. Vehicle minimum base weight is determined by TIR size selected from the following table. Turbocharged engines of greater than 2.7L displacement shall use the weight either as listed in the lbs/cc or restrictor size/lbs charts, whichever is greater. Turbocharged engines utilizing Direct Fuel Injection (DI) shall increase their minimum base weight by 3%."
Touring

T1
1. #27427 (James Gallagher) Request for E46 wagon with S54 engine in T1
In T1, BMW E46 M3 & E36 / BMW Z3, add models and change displacement as follows:
"BMW E46, **E46-M3**, E36, **E36-M3**, Z3"
"3200 3250"

Note: The wagon body is allowed. The BMW S54 engine is commonly thought of as a 3.2 liter engine, while its actual displacement is 3250cc.

T3
1. #28238 (Marshall Mast) Clarify 05-10 V8 Mustang Spring Rates Wording/Adjust Restrictor
In T3, Ford Mustang Coupe GT & Shelby GT 4.6L & Cal.Special (05-10), add to the notes as follows:
"The following parts are allowed: Strut tower brace part #M20201-S197, Radiator#M-8005-S197, maximum spring rate of 500 lbs/in front, 300 lbs/in rear allowed, sway bars M-5490-A, damper kit M-18000-A."

2. #28288 (Touring Committee) Correct Touring 3 05-10 Mustang final drive
In T3, Ford Mustang Coupe GT & Shelby GT 4.6L & Cal.Special (05-10) add final drive as follows:
"3.31, 3.55 or 3.73"

T4
1. #27848 (Derrick Ambrose) Request for 12-13 and 14-15 Honda Civic Springs
In T4, Honda Civic Si (12-13), make changes to the notes as follows:
"The following items must remain stock: shock/struts (including mounts), original wheels, and transmission differential – unless specified below. **Transmission and Differential must be stock.** Honda Sport Suspension Kit, part number 08W60- TS9-100 permitted. H&R Sport Springs P/N 51891 and HPD part number (P/N 51410F23SA00) allowed. 47mm flat plate restrictor required. SPC Adjustable Control Arm - P/N 67466 permitted. Sway bars up to 32mm front and rear permitted. **Springs allowed up to 700 pounds.**"

In T4, Honda Civic Si (14-15), make changes to the notes as follows:
"The following items must remain stock: shock/struts (including mounts), original wheels, and transmission differential – unless specified below. **Transmission and Differential must be stock.** Honda Sport Suspension Kit, part number 08W60- TS9-100 permitted. H&R Sport Springs P/N 51891 and HPD part number (P/N 51410F23SA00) allowed. 47mm flat plate restrictor required. Camber plates permitted. Original wheels up to 18” maximum permitted. SPC Rear Adjustable Control Arm – P/N 67467 permitted. Sway bars up to 32mm front and rear permitted. **Springs allowed up to 700 pounds.**"

2. #27899 (David Mead) Request to Clarify T4 05-10 Mustang Spring Allowance
In T4, Ford Mustang V6 (05-10), add to the notes as follows:
"Any springs max F: 500 and R: 400 permitted."
JUDGEMENT OF THE COURT OF APPEALS
Pedro Prado vs. SOM  COA Ref. No. 19-14-SE
February 6, 2020

FACTS IN BRIEF
Following the Sunday, December 1, 2019, Group 6 regional sprint race at Sebring International Raceway, Assistant Chief Steward (ACS) Pedro Prado filed a Chief Steward’s Action (CSA) against Hartley MacDonald, driver of Formula S (FS) #127, for improving his position on the pace lap in violation of General Competition Rules (GCR) 6.5.2.C. (The Pace Lap). Mr. MacDonald protested the action.

The Stewards of the Meeting (SOM) Carrie Deleon, John Edridge, and Dennis Joyce (Chairman) met to hear and rule on the Protest. The SOM determined Mr. MacDonald had made “no inappropriate position improvement in accordance with GCR 6.1.1.B.” The SOM upheld Mr. MacDonald’s protest and overturned the CSA. Mr. Prado is appealing the ruling of the SOM.

DATES OF THE COURT
The SCCA Court of Appeals (COA) Jack Kish, Pat McCammon, and Laurie Sheppard (Chairman) met on January 30, 2020, to review, hear, and render a decision on the appeal.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED

FINDINGS
Mr. MacDonald qualified ninth of sixteen competitors in a mixed field of formula cars and prototypes. His car (FS #127) did not start when the group left the grid. He received a push start and joined the field at the rear. At the completion of the pace lap, FS #127 was ahead of three cars. After the race, ACS Prado informed Mr. MacDonald he would receive no points for the race based on a violation of GCR 6.5.2.C. (improving position on a Pace Lap). Mr. MacDonald protested ACS Prado’s action.
The SOM reviewed Mr. MacDonald’s onboard video and determined each of the cars following FS #127 to the green flag waved Mr. MacDonald by. The SOM determined Mr. MacDonald acted in accordance with GCR 6.1.1.B.

Mr. Prado, in his appeal letter, argued basing the decision on GCR 6.1.1.B. is not correct as the race had not started. Mr. Prado also alleges that since the three cars Mr. MacDonald passed continued to race, they did not meet the definition of a disabled car as described in the rules related to the Pace Lap.

GCR 6.1.1.B. (Yellow Flag/Double Yellow) states, “All stations will display double yellow flags for all pace and safety car laps.” It concludes with, “cars may carefully pass emergency vehicles and other cars that are disabled or off pace (see 6.6.2.)”. GCR 6.6.2 governs full course yellow procedures leading to a restart. GCR 6.6.1. redirects pace car procedures to GCR 6.5.2.B.1. Clearly, GCR 6.6.2. does not apply during pace laps. Rather, all pace laps prior to the Green Flag starting the race are governed by GCR 6.5.2.

GCR 6.5.2.C.3. permits passing “a car that is disabled and cannot keep the pace.” It states, “The driver must signal that his car is disabled by raising an arm, pulling to the side of the course, and staying well off the racing line.” The COA notes a driver approaching another vehicle which is slow, off line, and signaling with a raised arm may not know if the car is able to continue or not. This is even more of a challenge in low, open cockpit vehicles, where any signaling may be minimal due to the restrictions imposed by the driver’s safety equipment.

Chairman Joyce reported via email, “cars passed on the pace lap signaled for Mr. MacDonald to pass them and/or pulled off course allowing him to pass.” The COA reminds competitors that the above referenced GCR sections only permit passing under double yellow flag conditions when the car being passed has signaled they are disabled. A “point by” for reasons other than your car being disabled is not acceptable per the GCR.

The COA acknowledges Mr. Prado’s appeal is delayed beyond the typical timeframe described in the GCR. Delays were encountered in obtaining the official Observer’s Report and related documents, and the video viewed by the SOM was not retained and is unavailable. The Court notes GCR 5.12.1.B.1. states the Observer’s Report shall be sent to the Road Racing Department “not later than 10 days” following the event and must include all information and evidence (including video and photographic evidence) pertaining to the actions taken.

The COA finds the procedural issues noted above are not sufficient to warrant overturning the SOM’s decision.

DECISION

The COA upholds the SOM decision in its entirety. Mr. Prado’s appeal is well founded, and his entire appeal fee will be returned.
The Club Racing Board met by teleconference on March 3, 2020. Participating were Peter Keane, Chairman; David Arken, David Daughtery, Jim Goughary John LaRue, Paula Hawthorne, Sam Henry and Shelly Pritchett, secretary. Also participating were: Bob Dowie and Chris Albin, BoD liaisons; Eric Prill, Chief Operations Officer, Deanna Flanagan, Director of Road Racing; Rick Harris, Club Racing Technical Manager and Scott Schmidt, Technical Services Assistant. The following decisions were made:

**Member Advisory**
None.

**No Action Required**

**FA**
1. #28573 (William Wald) PM18 Additional Info
   Thank you for your letter. Please see the response to letter #28507 in this Fastrack. The Tatuus PM-18 is a different car than the proposed Formula Mazda FMzR, and the Club Racing Board’s recommendation regarding the FMzR in letter #27712 in the January 2020 Fastrack Minutes does not apply to the PM-18.

**FX**
1. #28307 (Dennis Sideri) Request to Allow FSV Cars in FX
   Thank you for your letter. Please see the response to letter #28057 in this Fastrack's Technical Bulletin.

**PX**
1. #28039 (Stanley Clayton) Please Approve Additional Cars in New FX and PX Classes
   Thank you for your letter. The Club Racing Board appreciates your comments. Please see the response to letter #28404 in this Fastrack's Technical Bulletin.

2. #28249 (Andres van der Dys) Request to Classify Radical SR8 in PX
   Thank you for your letter. Please see the response to letter #28404 in this Fastrack's Technical Bulletin.

3. #28250 (Andres van der Dys) Request to Classify Radical RXC in PX
   Thank you for your letter. Please see the response to letter #28404 in this Fastrack's Technical Bulletin.

4. #28405 (Jacek Mucha) In Reference to Letter 28403
   Thank you for your letter. Please see the response to letter #28403 in this Fastrack.
5. #28445 (Andres van der Dys) PX class for Radicals and Wolfs
   Thank you for your letter. The Club Racing Board appreciates your comments. Please see the response
to letter #28404 in this Fastrack’s Technical Bulletin.

GCR
1. #28123 (Peter Watson) Recent Fastrack Items
   Thank you for your letter. Per the Divisional Administrator for T&S, Section 6.10.1. is adequate as
   written and no further definition is required.

2. #28335 (Chris Rupnik) Request clarification of SFI belt certification
   Thank you for your letter. Per GCR Section 9.3.18.E.1. SFI Certified belts expire on December 31st of the
   year of their expiration date.

3. #28482 (Paul Messier) Clarification of the start/end of impound
   Thank you for your letter. Cars are technically considered in impound once they cross the Finish line
   after the Checkered Flag. They are then subject to the Impound Rules.

4. #28483 (Paul Messier) Request allowance for measuring tire pressure/temp during impound
   Thank you for your letter. The CRB does not consider checking tire temperatures or pressures as working
   on a car.

5. #28496 (Allen Davis) Requirement for Rain Lights to be Turned On.
   Thank you for your letter. It is within the Chief Steward/Race Director’s power to request a board be run
   on Grid instructing drivers to turn on their rain lights.

GT2
1. #28257 (Lou Gigliotti) More on GT2 vs GT2 ST tire issue
   Thank you for your letter. The balance of performance between the various rule sets are competitive,
   the CRB will continue to monitor performance and make adjustments as necessary.

2. #28334 (Craig Anderson) Request Corvette BOP between Corvettes
   Thank you for your letter. The CRB will continue to monitor class performance.

3. #28361 (Tyler Kicera) Request for TA2 BoP
   Thank you for your letter. The CRB will continue to monitor the performance of the class.

4. #28395 (Lou Gigliotti) Request for Ride Height Rule Merge
   Thank you for your letter. The balance of performance between the various rule sets are competitive,
   the CRB will continue to monitor performance and make adjustments as necessary.
EP
1. #28502 (James Rogerson) Opposes z3 2.8 restrictor plate
   Thank you for your letter. The performance potential of this vehicle will continue to be monitored, to
   ensure that its recent classification change still allows it to remain a viable option in the class. Competitors are encouraged to bring them out, so additional data can be collected.

Prod General
1. #28413 (David Stephens) Alternate Side draft Carburetor Intake Manifold (Prep 2)
   Thank you for your letter. 9.1.5.E.2.b.7 is the governing rule for all intake manifolds for all Prep Level 2
   vehicles, regardless of if the OEM piece or an allowed alternative is being used, unless otherwise
   specified on its spec line.

ST General
1. #26821 (Andrew Conner) Request to classify a 2006 E90 325 with S54 driveline
   Thank you for your letter. The BMW E90 chassis and S54 engine are currently allowed in STU.

2. #28549 (Eric Heinrich) Re: #27532 tire widths - smart call, support response
   Thank you for your letter.

STL
1. #28388 (Spencer Clark) Bumper Grille Removal
   Thank you for your letter. Front bumper grills may be opened for ducting.

2. #28390 (Spencer Clark) Radiator Ducting
   Thank you for your letter. Radiator grills may be modified to allow more air flow.

3. #28391 (Spencer Clark) Air Dam Mounting Clarification
   Thank you for your letter. Air dams may be mounted between the splitter and bumper cover.

STU
1. #24146 (John Whitaker) Request classification of a RealTime Racing V6 TSX
   Thank you for your letter. Car does not comply with the STU regulations in the current configuration.

2. #27013 (Eric Heinrich) Adapting Rules to Attract
   Thank you for your letter.

3. #27735 (Jim Drago) Direct injection Penalties
   Thank you for your letter. There is no change to the current TIR chart.

4. #27817 (Mark Liller) Request for Traction Control Systems
   Thank you for your letter. Traction control is not legal in the Super Touring classes.

5. #28552 (Jim Drago) Request response to letter 27735
   Thank you for your letter. Please see letter # 27735 in current Fastrack.
T1
1. #28040 (Chris Arbuckle) Clarification on 996 GT3 Cup in T1
Thank you for your letter. The 996 GT3 is allowed to run in T1. The "not allowed" wording only implies that the car isn't allowed to run that specific spec line. The car must run under the "Porsche 996 GT3 Cup (02-05)" spec line on page 625 of the February GCR.

T4
1. #28387 (Roldan de Guzman) BRZ/FRS/86 245 Section Width Tires in T4
Thank you for your letter. We'll continue to monitor the class.

Not Recommended

B-Spec
1. #28090 (Rob Piekarczyk) Request Cold Air Intake - 2011
Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time. However, the committee will take this change under advisement as we consider future changes.

2. #28091 (Rob Piekarczyk) Request Weight reduction - 2009-2012 Honda Fit
Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

3. #28197 (James Rogerson) Request to review Mini and balance of power
Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

4. #28312 (Rob Piekarczyk) Request for Help for 2009-2012 Honda Fit
Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

5. #28313 (Rob Piekarczyk) Request to Add Cold Air Intake for 09-12 Honda Fit
Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

6. #28314 (Rob Piekarczyk) Request for Weight Reduction for 2009-2012 Honda Fit
Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

F5
1. #28673 (Stanley Novak) Suggestion to save F500
Thank you for your letter. The Club Racing Board does not recommend this change. Please see the response to letter #27515 in the December 2019 Fastrack Minutes.
2. #28677 (Stanley Novak) Request removal motorcycle engines in F500
Thank you for your letter. The Club Racing Board does not recommend this change. Please see the response to letter #27515 in the December 2019 Fastrack Minutes and the response to letter #27883 in the January 2020 Fastrack Technical Bulletin.

FA
1. #28507 (William Wald) Request to classify PM-18 in FA
Thank you for your letter. The Club Racing Board does not recommend this change because the car is not within the intended performance envelope of the FA class.

FF
1. #28221 (Chris Bologna) Request modification of Formula F bodywork rule
Thank you for your letter. The Club Racing Board does not recommend this change. Please see the response to letter #23681 in the Board of Directors’ Minutes, March 2018 Fastrack.

P1
1. #28534 (Michael Major) Request change in MZR 2.0
Thank you for your letter. The Club Racing Board does not recommend this change. Removal of the required restrictor is not supported by the data: the P1 rules permit cars using a 2.0L engine to weigh 75 lbs. less than those using a 2.5L engine. The Club Racing Board will continue to monitor class performance and will make appropriate, data-based adjustments as necessary.

P2
1. #28432 (Mike Reupert) Updating the Prototype 2 Engine Table
Thank you for your letter. This change is not recommended at this time. The Club Racing Board will continue to monitor class performance and will make appropriate, data-based adjustments as necessary.

PX
1. #28403 (Jacek Mucha) Request to Classify JMS016CP in PX
Thank you for your letter. The Club Racing Board does not recommend this change. The PX class is not intended to be a category for cars that are eligible to compete in another U.S. Majors class. The car is currently classified in P1.

2. #28516 (James Devenport) Request to add FIA Group CN cars to class
Thank you for your letter. The Club Racing Board does not recommend this change. The PX class is not intended to be a category for cars that are eligible to compete in another U.S. Majors class. The car is currently classified in P1.

GCR
1. #27868 (Eric Prill) Restart Procedures
Thank you for your letter. Due to the varying track configurations and the multiple class groupings, there is no one simple solution to the issue raised. 6.6.2.B. is for our conventional Road Racing rules, 5.5.5.A.4. & 5.5.5.C. are specific to Oval Track Racing and are not in conflict with 6.6.2.B.
GT
1. #28122 (Craig Anderson) STO AERO Rule - Older Gen Corvette
   Thank you for your letter. Aero and power to weight rules are adequate as written.

2. #28362 (Paul Fairchild) Move Porsche 2016 Factory Cayman GT4 Clubsport to GT3
   Thank you for your letter. This car is not a good fit for GT3.

ITA
1. #28441 (Lawrence Murdter) Camber Adjustment for Miatas Running ITA
   Thank you for your letter. The request does not align with the class philosophy of IT.

STL
1. #26621 (Darrel Stein) RX 7 Weight Reduction
   Thank you for your letter. The CRB believes the car is classified correctly. The CRB will continue to monitor performance.

2. #28331 (Tom Fowler) Rear Camber Arms
   Thank you for your letter. Current STL control arm rules are sufficient.

3. #28598 (Josh Smith) Request to Omit 9.1.11. SPEC MX-5 CLASS
   Thank you for your letter. The CRB does not recommend removing Spec MX5 from STL at this time.

STU
1. #26957 (Eric Thompson) Alternate Turbo Allowance Modernization
   Thank you for your letter. The requested turbo is outside the current STU turbocharger capabilities.

2. #27631 (Eric Heinrich) Request to adjust NA chart to graduated
   Thank you for your letter. The current STU weight chart is sufficient as written.

3. #27843 (John Schmitt) Request for Honda NA K24 Intake Manifold
   Thank you for your letter. The STU Honda K24 is competitive as classified.

T1
1. #27448 (Dave Mead) Change Miller Challenge Mustang Classification to Show 4.6/5.0L
   Thank you for your letter. These changes are not recommended at this time.

T2-T4
1. #28397 (Marshall Mast) T2-T3 2015+ Ford Mustang Ecoboost Rear Gear Ratio
   Thank you for your letter. It appears that the requested gear ratio was only available on cars with an automatic transmission. We do not recommend a change at this time.
**Recommended Items**
The following subjects will be referred to the Board of Directors for approval. Address all comments, both for and against, to the Club Racing Board. It is the BoD’s policy to withhold voting on a rules change until there has been input from the membership on the presented rules. Member input is suggested and encouraged. Please send your comments via the form at www.clubracingboard.com.
None.

**Taken Care Of**

**GT2**
1. #28246 (Lou Gigliotti) Corvette Rule Change Issues
Thank you for your letter. The balance of performance between the various rule sets are competitive, the GTAC will continue to monitor performance and make adjustments as necessary.

**GTL**
1. #28027 (Kenneth Gassin) Request to Remove 27641 Until Better Language Can be Provided
Thank you for your letter. The 64 sq. inches was an error and has been "officially" corrected to read 84 sq. inches.

**T1**
1. #28451 (Tim Myers) Clarify ZERO Cars are Permitted Slicks Unless Specifically Noted
Thank you for your letter. Please see letter #28452 in current Fastrack.

**What Do You Think**
None.

**RESUMES**
1. #28184 (Nathan McBride) Request to become CRB member
Thank you for your resume. We will keep your resume on file for future needs on the GTAC AdCom.

Formula/Sports Racing

F
1. #28662 (Formula/Sports Racing Committee) Rain light E&O
In GCR section 9.3.32.B.2, change as follows:
"All Formula (open wheel) and Sports Racing cars shall be equipped with a red taillight of at least the equivalent illumination power of a 15-watt bulb. This light shall be mounted as high as possible on the centerline of the car. Light assemblies shall be considered one light for the purposes of this rule, irrespective of the number of individual lamps the assembly may contain."

FA
1. #28162 (JEREMY HILL) Request higher compression ratio and prior weights for F1000 cars
In FA Table 2, Formula 1000 spec line, change as follows:
"Motorcycle-based 4-cycle up to 1000cc, maximum compression ratio 13.5:1; otherwise, current FA engine rules apply."

2. #28554 (Formula/Sports Racing Committee) Remove redundant wheel dimension provisions
In FA, GCR section 9.1.1.A.1.h, make changes as follows:
"The minimum wheel diameter is thirteen (13) inches. Ex-FSV cars are permitted front wheel width:
minimum six (6) inches, maximum eight (8) inches; rear wheel width: minimum eight (8) inches,
maximum ten (10) inches. All other cars: front wheel width: ten (10) inches; rear wheel width: minimum
fourteen (14) inches, maximum fifteen (15) inches."
3. #28596 (Formula/Sports Racing Committee) E&O Formula 3 spec line
In FA Table 2, Formula 3 car spec line, change as follows:
"Formula 3 car"
"All FIA compliant engines years 1997 to 2017. Engines must be run per FIA spec. with 30mm required restrictor."

**FF**
1. #28204 (Joe Fisher) E&O FF Kent Engine alternator language
In GCR section 9.1.1.B.12.r, change as follows:
"Generators/Alternators: not required optional."

**FX**
1. #28057 (Mark Green) Request to classify FSV in FX
In FX, GCR section 9.1.1.B, add the following:
"5. Ex-Pro Formula Super Vee - Shall comply with notes in Table 1."

In FX Table 1, classify the Ex-Pro Formula Super Vee as follows:

<table>
<thead>
<tr>
<th>Car</th>
<th>Engine</th>
<th>Wheel Width (in) ± .060</th>
<th>Aero</th>
<th>Transmission</th>
<th>Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ex-Pro Formula Super Vee</td>
<td>1600cc VW non-crossflow head or 1835cc VW</td>
<td>(F) 6 Min. (R) 8 Min.</td>
<td>See notes</td>
<td>Up to 5 forward gears, limited slip and locked differential allowed</td>
<td>1190</td>
<td>Car must be prepared to original professional racing rules. Engine must comply with GT engine preparation rules; no changes in bore and stroke. May use either Weber-type side draft carburetors with no restrictor or fuel injection with 37mm restrictor located between cylinder head and butterflies.</td>
</tr>
</tbody>
</table>
In FA Table 2, remove Ex-Pro Formula Super Vee spec line in its entirety.

2. #28715 (Formula/Sports Racing Committee) Classify FormulaSPEED in FX

In FX, GCR section 9.1.1.J.B, add the following:
"6. FormulaSPEED - Shall comply with notes in Table 1"

In FX Table 1, classify the FormulaSPEED as follows:

<table>
<thead>
<tr>
<th>Car</th>
<th>Engine</th>
<th>Wheel Width (in) ± .060</th>
<th>Aero</th>
<th>Transmission</th>
<th>Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>FormulaSPEED</td>
<td>2.0 Liter Mazda MZR</td>
<td>(F) 8 (R) 10</td>
<td></td>
<td>6 forward speeds and reverse with open differential. No lift shift system.</td>
<td>1350</td>
<td>Must use sealed ECU map and sealed engine, FS2.0 sealed Ohlins TTX dampers, spec three-piece FS2.0 wheels with FS2.0 logo, and spec FS2.0 intake manifold. No part of the car may be altered from FS2.0 original parts, except for repairs that do not affect performance. World Speed Inc. must provide complete specifications by 04/30/2020.</td>
</tr>
<tr>
<td>(FS2.0)</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In FA Table 2, remove FormulaSpeed2.0 (FS2.0) spec line in its entirety.
PX
1. #28404 (Formula/Sports Racing Committee) Classify approved cars in Table 1

In PX, GCR section 9.1.8.I.B, add the following:
"12. Vehicles listed in Table 1 below."

In PX, GCR section 9.1.8.I, classify approved cars as follows:

<table>
<thead>
<tr>
<th>Marque</th>
<th>Model</th>
<th>Engine</th>
<th>Restrictor</th>
<th>Min Weight (lbs)</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Radical</td>

<td></td>
</tr>
</tbody>
</table>

GCR
1. #28386 (Jim Rogaski) Change Required Stewards Rule to Reflect Alternate SOM Model

In GCR, change 5.1.1. as follows:
"At a minimum, there shall be a Race Director or Chief Steward, an ACS – Safety, and at least 2 SOM (including a Chairman and one other licensed steward in addition to any Stewards-in-Training unless the Alternate SOM Model (5.12.1.C.) is used)."

2. #28470 (SCCA Staff) Request to clarify 9.3.32 Lights

In GCR section 9.3.32. Lights, change as follows:
1. "Non-Formula and Sports Racing cars shall utilize the original equipment red tail lights, or the rain light described in 9.3.32.B.2, or both."

3. "Original equipment tail light assemblies may be used. Light assemblies may perform both rain and brake light functions provided they have two distinct illumination levels. Lights that function as strobe lights are not permitted except in Formula and Sports Racer classes. The taillight may strobe when directed to be used as a rain light."

3. #28471 (SCCA Staff) Request to clarify SA SA2010/SAH2010 expiration date

In GCR section 9.3.19.C.3.2, add wording as follows:
“Crash helmets approved by the Snell Foundation with Snell sticker 2010 or later Special Application SA2010/SAH2010, or SA2015/SAH2015, or by the SFI with a SFI Sticker SFI 31.1, or by the FIA standard 8860-2004 or later, or British Standards Institute BS6658-85 type A/FR. Each driver’s helmet shall be labeled with a minimum of the driver’s name. Crash helmets with SA2010/SAH2010 certification will remain valid until December 31, 2021."
4. #28478 (SCCA Staff) Request to add SFI Spec 3.4 Advanced Drivers Suits
In GCR, section 9.3.19.C.1. change as follows:
The following required equipment shall be in good condition and free of defects, holes, cracks, frays, etc. "Driving suits that effectively cover the body from the neck to the ankles and wrists. One piece suits are highly recommended. All suits shall bear an SFI 3.2A/1, SFI 3.4 or higher certification label or FIA 1986 Standard or FIA Standard 8856-2000 homologation label."

5. #28597 (SCCA Staff) Update Section 3 errors and omissions
In GCR section 3, make changes as follows:
“3. EVENTS

3.1. TYPES OF SCCA RACE EVENTS

The SCCA sanctions various types of race events conducted in compliance with the GCR. SCCA race events are classified by the persons eligible to participate, the categories of cars eligible to compete, defined organizational requirements, and the awards offered.

3.1.1. U.S. Majors Tour Races

U.S. Majors Tour races are high-profile events for drivers seeking an elevated level of competition. The Head of Road Racing oversees and is responsible for the U.S. Majors Tour; events are operated by host Regions, with assistance from the U.S. Majors Tour Staff in some cases. The U.S. Majors Tour is organized as series of events within six geographic units known as Conferences.

A. Types of U.S. Majors Tour Events

1. Conference Events

Points earned in Conference races in Runoffs-eligible classes will count toward Conference Championships (see 3.7.2), and qualification for the National Championship Runoffs (see 3.7.4). They may also count toward Divisional Championships (see 3.7.1).

There may be a non-Runoffs eligible component of an event.

Competitors will find information on the classes eligible and the structure for each event on the SCCA website and in the Supplemental Regulations.

2. Super Tour Events

Super Tour Events are specially-designated Conference Events that include additional enhancements. Points earned in Super Tour Events in Runoffs-eligible classes will count toward Conference Championships (see 3.7.2), the Super Tour Championship (see 3.7.3) and qualification for the National Championship Runoffs (see 3.7.4).

3. Festival
Entry invitations are limited to the particular class(es) specified in the Supplemental Regulations. Points earned in Festival events do not count toward Conference Championships.

B. Driver Eligibility

Only drivers who hold an SCCA Full Competition License or an SCCA Pro License are eligible to enter.

C. Organizing Personnel

1. Head of Club Road Racing or their designate - oversees all aspects of the U.S. Majors Tour, including the appointment of personnel.

2. Race Director (RD)
   a. Appointed by Head of Club Road Racing for all Super Tours. Appointed by local Executive Stewards for their respective Conference. Conference RD serves as Asst. RD for Super Tour events within that Conference.
   b. The RD works with each Executive Steward and host Region to appoint the balance of the Stewards for each U.S. Majors Tour event.
   c. The RD works with the event Stewards to conduct the event.
   d. Only the RD in agreement with the Region’s representative may modify the Supplemental Regulations, as permitted in 5.12.2, after the Sanction has been issued; he may act on these matters without filing a Request for Action with the SOM.
   e. Administrative actions taken by the RD (including modifying the Schedule of Events and race groupings), are non-protestable; actions/penalties imposed by the RD for driving or compliance are protestable.

3. Series Administrator (SA)
   a. Required for all Super Tours, optional for other Conference events.
   b. The SA oversees series organization and administration of the U.S. Majors Tour series events for his Conference.

4. Series Chief Technical Inspector (SCTI)
   a. Required for all Super Tours, optional for other Conference events.
   b. The SCTI works with the CCC and event Technical Staff to provide consistent compliance checking across all the events in his Conference.

5. Series Timing Administrator
   a. Required for all Super Tours, optional for other Conference events.
6. Series Public Relations Representative
   a. Required for all Super Tours, optional for other Conference events.
   b. The Series PR Representative provides communication and public relations support for the event.

7. Series Clerk of the Course
   a. May be designated for Super Tours, optional for other Conference events.
   b. The Clerk of the Course is an Operating Steward that works in Race Control with local stewards to provide consistency in race operations.

8. One or more SCCA Regions may organize a U.S. Majors Tour event. The region or group hosting a U.S. Majors Tour Super Tour event will enter into a written agreement with the National Office that details the responsibilities of both parties.

D. Event Format / Schedule

1. Conference Events
   a. The National Office has developed standard formats for each type of U.S. Majors Tour event. Regions are encouraged to utilize these standard formats to retain program consistency.
   b. There shall be a maximum of two (2) races per race weekend. At least one race for each race group will be a minimum of 45 miles. The other race of the weekend shall be a minimum of 20 minutes in length.
   c. Minimum track time
      1. Two-day events shall have a minimum of 35 minutes of non-racing track time available per Majors class entry. Two qualifying sessions are recommended.
      2. Three-day events shall have a minimum of 65 minutes of non-racing track time available per Majors class entry. One practice and two qualifying sessions are recommended.

2. Super Tour Events
   a. The National Office has developed standard formats for each type of U.S. Majors Tour event, and works with Regions to create a specific schedule, which must be approved by the Head of Club Road Racing, who has final authority.
b. **There shall be a maximum of two (2) races per race weekend.** At least one race for each race group will be 35 minutes in length with a maximum of 50 miles (variations may be approved by the head of Club Road Racing and published in the supplemental regulations). The other race of the weekend shall be a minimum of 25 minutes in length.

c. **Minimum track time**

   1. Two-day events shall have a minimum of two (2) qualifying sessions totaling at least 35 minutes of non-racing track time available per Majors class entry.

   2. Three-day events shall have a minimum of two (2) qualifying sessions totaling at least 65 minutes of non-racing track time available per Majors class entry. One practice and two qualifying sessions are recommended.

   3. The schedule must show start times for all sessions, however, it is understood that actual start times will vary based on on-track situations and forces of nature. Minor running adjustments to the schedule do not require Requests for Action to the SOM.

   4. All U.S. Majors Tour events are open to the public. Host Regions and the National Office jointly promote U.S. Majors Tour events.

E. **Classes to be included in U.S. Majors Tour events:**

   1. All Runoffs-eligible classes will be included in Conference and Super Tour events.

   2. Run groups comprised of non-Runoffs eligible classes may be included in U.S. Majors Tour Conference events to encourage participation.

F. **Additional Majors Requirements:**

   1. Conference Preferred Numbers will be administered by the National office and shall be honored at all Majors events until 14 days prior to the event. If two drivers holding the same Preferred Number request that number for the same run group, the number will be assigned to the driver with the earliest request.

   2. For the purposes of Conference points keeping, timing and scoring shall supply an Orbits database backup file (Orbits 4 preferred) to the SCCA National office (see front of book for email address) within three business days of the event to tabulate series points. Any revisions not included in that file shall be communicated with the submission.

   a. All drivers listed on the final race results shall be consistent with the numbers included in the event audit.

   b. When non-Runoffs eligible classes are included in Runoffs-eligible groups at Majors Conference events, the non-Runoffs eligible entries are treated as Majors entries and are
subject to the same event audit fees and must meet the driver eligibility requirement in GCR 3.1.1.B.”

Grand Touring
GT2
1. #28280 (R. Paul Evans) Request to revisit Panoz GT-S BoP
   In GT2, add to Engines - PANOZ as follows:

   **GT Engines - PANOZ**

<table>
<thead>
<tr>
<th>Engine Family</th>
<th>Engine Type</th>
<th>Bore x Stroke (mm)</th>
<th>Disp. (CC)</th>
<th>Head Type</th>
<th>Valves / Cyl.</th>
<th>Fuel Induction</th>
<th>Weight (lbs)</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>TA2</td>
<td>&quot;Choice Engine&quot;</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>2880</td>
<td></td>
</tr>
</tbody>
</table>

2. #28583 (Grand Touring Committee) GT2-ST Corvette LS2 & L76
   In GT2-ST, Chevrolet Corvette (-2019), change Spec Line as follows:

   **GT2-ST**

<table>
<thead>
<tr>
<th>Maximum Displacement</th>
<th>Minimum Weight</th>
<th>Restrictor</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>LS2</td>
<td>5967</td>
<td>3000</td>
<td>GM LS2/L76. May use the LSX cast iron block with OEM LS2 bore and stroke.</td>
</tr>
</tbody>
</table>

3. #28584 (Grand Touring Committee) GT2-ST Corvette L76
   In GT2-ST, Chevrolet Corvette (-2019), add to Spec Line as follows:

   **GT2-ST**

<table>
<thead>
<tr>
<th>Maximum Displacement</th>
<th>Minimum Weight</th>
<th>Restrictor</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>

<td>5967</td>
<td>3000</td>
<td>GM L76. May use the LSX cast iron block with OEM LS2 bore and stroke.</td>
</tr>
</tbody>
</table>

Improved Touring
None.
**Production**
1. #28498 (Omer Norton) Caterham 7 Spec Line

In EP, modify the "Notes" section of the "Lotus/Caterham 7 America" spec line as follows:
"Level 2 suspension preparation. Engine is limited to IT preparation except modifications permitted in sections 9.1.5.E.2.e., 9.1.5.E.2.f, and 9.1.5.E.2.h. and f. Comp. Ratio limited to 10.0: 1, Valve lift limited to .380".

Note that the "Level 2 suspension preparation" limitation is already mandated by the fact that this is a "Prep Level 2" classified vehicle. Removal of that wording from the "Notes" section is purely due to redundancy, and not to change the allowed preparation.

**FP**
1. #28553 (David Montgomery) Request to classify SOHC 1989-90 240SX in F prod L2

In FP, Spec Line, add 1989-90 Nissan 240-SX SOHC:

<table>

STL
1. #27884 (David Mead) Change GM LNF 2.0 Allowance to LSJ Engine for Viable STL 2.0
   In STU, GM Ecotech LNF Spec Lines, add to Notes as follows:
   “LNF Engine Permitted with turbocharger removed. LNF Engine short block with LE5 cylinder head and intake manifold permitted. Must meet all other STL specifications.”

2. #28663 (Club Racing Board) Acura/Honda B18C engine chart. Reduce the current 54 mm flat plat
   In STL, Mazda MZR Table A, change the restrictor size in the notes as follows:
   "$453mm"

3. #28664 (Club Racing Board) Mazda MZR engine chart. Reduce the current 55 mm flat plate to 53
   In STL, Mazda MZR Table A, change the restrictor size in the notes as follows:
   "$553mm"

STU
1. #27281 (Matt Spicuzzi) Request to approve Honda S2000 HKS supercharger
   In STU, Honda S2000 (2000 Maximum Displacement) Spec Lines, change notes as follows:
   "HKS Supercharger kit 12001-AH006 and 12001-AH010, allowed"

   In STU, Honda S2000 (2157 Maximum Displacement) Spec Lines, change notes as follows:
   "HKS Supercharger kit 12001-AH006 and 12001-AH010, allowed"

2. #27637 (Eric Heinrich) Request BoP on the Lotus
   In STU, Lotus Elise Cup R Spec Lines, change weight as follows:
   "22002300"

   In STU, Lotus Elise SC/ LotusExige SC Spec Lines, change weights as follows:
   "22002300"
   "24002500"

3. #27704 (Joshua Fitzpatrick) Turbo Inlet Restrictor On MK5 Volkswagen
   In STU, classify the Volkswagen GTI/GLI MK5 as follows:
   "May install TIR in the OEM turbo inlet housing. Must comply with all TIR specification."

   In STU, Volkswagen Jetta Mk4 Spec Lines, add to Notes as follows:
   "May install TIR in the OEM turbo inlet housing. Must comply with all TIR specification."
In STU, add Spec Line, Volkswagen GTI/GLI MK5:

<table>
<thead>
<tr>
<th>STU</th>
<th>Maximum Displacement (cc's)</th>
<th>Minimum Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Volkswagen GTI/GLI MK5</td>
<td>1984</td>
<td>Chart</td>
<td>K04 turbocharger permitted. May install TIR in the OEM turbo inlet housing. Must comply with all alternate TIR location specification.</td>
</tr>
</tbody>
</table>

4. #27732 (SCCA Staff) Honda K20C1 removal
In STU, Honda K20C1 Turbo I4 Table A, change Notes as follows: "δ35mm"

5. #28259 (Tim Pitts) Alternate Engine for Porsche 944
In STU, classify the Porsche 944 as follows:

<table>
<thead>
<tr>
<th>STU</th>
<th>Maximum Displacement (cc's)</th>
<th>Minimum Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Porsche 944</td>

Touring

T1
1. #28153 (JAKE NAMER) Request 996 GT3 Trunk for Wing Allowance.
In T1, Porsche 996 Spec Lines, add to Chassis Notes as follows: "996 Cup Replica Rear deck lid allowed."

2. #28452 (Tim Myers) All Touring, Change DOT Tire Language 9.1.9.1, 9.3.45
In T1, Acura NSX Turbo World Challenge Spec Lines, add to Chassis Notes as follows: "DOT tires required as per GCR section 9.3."

In T1, Audi TTRS (GTS 2011 Spec) Spec Lines, add to Chassis Notes as follows: "DOT tires required as per GCR section 9.3."

T2
1. #28242 (Thomas Herb) Limit Changes to the 997.2 Porsche
In T2, Porsche 911 / 997 (06-08) Spec Lines, add to Notes as follows: "OEM rear deck lid required. OE Porsche GT3 Cup front fascia number "997-505-980-97-G2X FRONT BUMPER GT3 CUP" or equivalent aftermarket allowed (+75lb). GT3 Cup splitter not allowed."
In T2, Porsche 911 / Carrera S 997.2 (09-12) Spec Lines, add to Notes as follows:
"OEM rear deck lid required. OE Porsche GT3 Cup front fascia number "997-505-980-97-G2X FRONT BUMPER GT3 CUP" or equivalent aftermarket allowed (+75lb). GT3 Cup splitter not allowed."

2. #28732 (Touring Committee) Correct T2 Mustang Transmission
In T2, Ford Mustang GT 5.0L (15-17) Spec Lines, change Gear Ratios as follows:
"3.66, 2.43, 1.69, 1.32, 1.00, 0.65 or 4.69, 2.98, 2.14, 1.76, 1.52, 1.27, 1.00, 0.85, 0.68, 0.63"
JUDGEMENT OF THE COURT OF APPEALS
Mike Amy vs. SOM  COA Ref. No. 20-01-SE
February 27, 2020

FACTS IN BRIEF
Following the Saturday, January 11, 2020, Group 3 race of the Winter Vacation Hoosier Super Tour at Sebring International Raceway, Mike Amy, Entrant for Spec Racer Ford 3 (SRF3) #38, driven by David Dickerson, filed a Protest against Brian Schofield, driver of SRF3 #61, alleging he “jumped the restart by going before the Green Flag was displayed.”

The Stewards of the Meeting (SOM) Stu Cowitt and Matias Bonnier (Chairman) met to hear and rule on the Protest. The SOM determined Mr. Schofield violated General Competition Rules (GCR) 6.6.2.B.1.iii. and 6.6.2.B.3.iii. (Full Course Yellow Procedures) by not maintaining the speed of the safety car prior to the green flag being displayed at start. The SOM penalized Mr. Schofield with a reprimand and one penalty point on his Competition License. Mr. Amy is appealing the severity of the penalty.

DATES OF THE COURT
The Court of Appeals (COA) Jack Kish, Laurie Sheppard, and James Averett (Chairman) met on February 13 and 27, 2020, to review, hear, and render a decision on the appeal.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED
3. Videos from Car #23 and Car #38, received February 6, 2020.
4. Comments from SOM Chairman Matias Bonnier, received February 6, 2020.

FINDINGS
In his appeal, Mr. Amy does not dispute the facts or the SOM decision regarding the rules violations, but argues the penalty assessed was not sufficient. Mr. Amy provided no additional evidence.

The COA reviewed the original witness statements and video evidence and found Mr. Schofield, Car #61, was running first during a full course yellow segment of the SRF3 race. The safety car entered Pit Lane while Car #61 was still negotiating the final turn. Mr. Schofield accelerated continuously, well before the front straight and before the Starter was in sight. The next several cars also accelerated to stay with Mr. Schofield. The SOM determined Mr. Schofield violated GCR 6.6.2.B.1.iii. (“Maintain the speed of the
safety car coming down to a restart.”) and 6.6.2.B.3.iii. (“Drivers must maintain the safety car’s pace and not improve their position or begin racing until the green flag has been displayed to restart the race.”).

The COA finds the SOM ruling was based on clear and convincing evidence, well-reasoned, and within the authority granted in the GCR. The penalty imposed is within the range of penalties allowed by GCR 7.2. (Range of Penalties).

**DEcision**

The COA upholds the SOM decision in its entirety. Mr. Amy’s appeal fee, less the administrative portion retained by the SCCA, will be returned.
FACTS IN BRIEF

Following the Saturday, January 11, 2020, Group 3 race of the Winter Vacation Hoosier Super Tour at Sebring International Raceway, two independent Protests were filed against Richard Baldwin, driver of Spec Racer Ford 3 (SRF3) #25, for violating General Competition Rules (GCR) 6.11.1. (On Course Driver Conduct). The first protest was filed by Alan Olson, driver of SRF3 #63, against Mr. Baldwin for failure to provide racing room which resulted in metal-to-metal contact at Turn 1 on Lap 1. The second protest was filed by Robert Reed, driver of SRF3 #03, who protested Mr. Baldwin for metal-to-metal contact at Turn 7 on Lap 1. In addition to the two Protests, Assistant Chief Steward (ACS) Dennis Joyce submitted a Request for Action (RFA) to investigate a multiple car incident at Turn 17 (SOM Action #10) on Lap 3 of the SRF3 race.

The Stewards of the Meeting (SOM) Bob Gardner, Mark Russell, Lori Vitagliano, and Russ Gardner (Chairman) met to hear and rule on the Protests. The SOM chose to combine both Protests (Olson, SOM Action #7, and Reed, SOM Action #8) into a single hearing as both involved the same protested driver, Mr. Baldwin. Because the multi-car incident at Turn 17 (SOM Action #10) involved contact between Car #25 and Car #7, the RFA was added to the Protest hearing.

After hearing witness testimony, evaluating witness statements, and reviewing race videos, the SOM ruled Mr. Baldwin violated GCR 6.11.1.B. (Failure to leave racing room) and GCR 2.1.4. (Driving recklessly or dangerously) and issued him a six weekend probation and three penalty points against his Competition License. Mr. Baldwin is appealing the decision regarding the two Protests, Action #7 and Action #8.

DATES OF THE COURT

The Court of Appeals (COA) James Averett, Jack Kish, and Pat McCammon (Chairman) met on February 13 and 27, 2020, to review, hear, and render a decision on the appeal.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED

3. Action #7 race videos from Car #11, Car #25, Car #40, Car #63, and Car #64, received February 6, 2020.
4. Action #8 race videos from Car #03, Car #25, Car #40, and Car #64, received February 6, 2020.
5. Action #10 race videos from Car #03, Car #4, Car #11, Car #25, Car #64, and Car #92, received February 6, 2020.
FINDINGS

Mr. Baldwin left the track before the SOM finalized its deliberations and he was notified by phone of the findings. A packet with notification of the actions, Mr. Baldwin’s probationary license, and the 2020 Court of Appeals Guide was delivered by express carrier, signature required, on January 15, 2020. Conversations with the SOM at the track and a subsequent phone conversation left Mr. Baldwin with the incorrect impression he had 30 days to file an appeal. The COA recognizes this delayed submission of his appeal and accepts it.

Action #7

On the initial lap of the SRF3 race, approaching left hand Turn 1, Mr. Olson, Car #63, was next to the wall, driver’s left. To his right and slightly ahead was Mr. Baldwin, Car #25, who had Car #64 to his right. As the trio approached the apex, Mr. Baldwin moved driver’s left and his left rear made contact with the right front of Mr. Olson, forcing him into the wall, driver’s left. Mr. Baldwin continued; Mr. Olson’s car was disabled and pulled off track. Mr. Olson protested Mr. Baldwin for failure to provide racing room, per GCR 6.11.1. (On Course Driver Conduct).

In the SOM hearing, Mr. Baldwin acknowledged the incident, but denied responsibility. Mr. Baldwin believed when he turned in for the corner, he had cleared Mr. Olson, and Mr. Olson should have backed off to allow the pass. GCR 6.11.1.B. states “Each competitor has a right to racing room, which is generally defined as sufficient space on the marked racing surface that under racing conditions, a driver can maintain control of his car in close quarters.” The SOM upheld the Protest.

Action #8

On the initial lap of the SRF 3 race, a group of cars approached right hand Turn 7. Inside track right was Car #11, with Mr. Reed, Car #03, to his left, and Car #64 further left. Mr. Baldwin approached the group and filled the gap left of Mr. Reed and right of Car #64. Approaching the turn, Mr. Baldwin turned in, making side-to-side contact with Mr. Reed and forcing him driver’s right into Car #11. The resulting contact damaged Mr. Reed’s car, which was unable to continue. Mr. Reed protested Mr. Baldwin for failure to provide racing room, per GCR 6.11.1. Mr. Baldwin acknowledged the incident to the SOM but denied responsibility. Mr. Baldwin agrees he turned in, but maintains he had already passed Mr. Reed and Mr. Reed should have backed off when the pass was initiated. The SOM upheld the Protest.

Mr. Baldwin declined to appeal the decision in Action #10, the RFA to investigate the multi-car incident in Turn 17 where he contacted Car #7. In the combined ruling on Action #7, Action #8, and Action #10, the SOM noted Mr. Baldwin made contact with 3 different cars in the first 3 laps of the race, resulting in two competitors being unable to continue. Because the SOM combined the three actions into a single hearing, the COA considered the totality of all actions as well, while noting only Action #7 and Action #8 were specifically included in Mr. Baldwin’s appeal.
After a thorough review of the documentation and video evidence, the COA finds the SOM reached a responsible and thoughtful decision and issued a penalty within its authority, per GCR 7.2. (Range of penalties).

DECISION

The COA upholds the SOM decision in its entirety. Mr. Baldwin’s appeal is well founded, and his appeal fee less the administrative portion retained by SCCA, will be returned.
CLUB RACING BOARD MINUTES | March 3, 2020

The Club Racing Board met by teleconference on March 3, 2020. Participating were Peter Keane, Chairman; David Arken, David Daughtery, Jim Goughary John LaRue, Paula Hawthorne, Sam Henry and Shelly Pritchett, secretary. Also participating were: Bob Dowie and Chris Albin, BoD liaisons; Eric Prill, Chief Operations Officer, Deanna Flanagan, Director of Road Racing; Rick Harris, Club Racing Technical Manager and Scott Schmidt, Technical Services Assistant. The following decisions were made:

Member Advisory
None.

No Action Required

FA
1. #28573 (William Wald) PM18 Additional Info
Thank you for your letter. Please see the response to letter #28507 in this Fastrack. The Tatuus PM-18 is a different car than the proposed Formula Mazda FMzR, and the Club Racing Board's recommendation regarding the FMzR in letter #27712 in the January 2020 Fastrack Minutes does not apply to the PM-18.

FX
1. #28307 (Dennis Sideri) Request to Allow FSV Cars in FX
Thank you for your letter. Please see the response to letter #28057 in this Fastrack's Technical Bulletin.

PX
1. #28039 (Stanley Clayton) Please Approve Additional Cars in New FX and PX Classes
Thank you for your letter. The Club Racing Board appreciates your comments. Please see the response to letter #28404 in this Fastrack's Technical Bulletin.

2. #28249 (Andres van der Dys) Request to Classify Radical SR8 in PX
Thank you for your letter. Please see the response to letter #28404 in this Fastrack's Technical Bulletin.

3. #28250 (Andres van der Dys) Request to Classify Radical RXC in PX
Thank you for your letter. Please see the response to letter #28404 in this Fastrack's Technical Bulletin.

4. #28405 (Jacek Mucha) In Reference to Letter 28403
Thank you for your letter. Please see the response to letter #28403 in this Fastrack.

5. #28445 (Andres van der Dys) PX class for Radicals and Wolfs
Thank you for your letter. The Club Racing Board appreciates your comments. Please see the response to letter #28404 in this Fastrack’s Technical Bulletin.

**GCR**

1. #28123 (Peter Watson) Recent Fastrack Items
   Thank you for your letter. Per the Divisional Administrator for T&S, Section 6.10.1. is adequate as written and no further definition is required.

2. #28335 (Chris Rupnik) Request clarification of SFI belt certification
   Thank you for your letter. Per GCR Section 9.3.18.E.1. SFI Certified belts expire on December 31st of the year of their expiration date.

3. #28482 (Paul Messier) Clarification of the start/end of impound
   Thank you for your letter. Cars are technically considered in impound once they cross the Finish line after the Checkered Flag. They are then subject to the Impound Rules.

4. #28483 (Paul Messier) Request allowance for measuring tire pressure/ temp during impound
   Thank you for your letter. The CRB does not consider checking tire temperatures or pressures as working on a car.

5. #28496 (Allen Davis) Requirement for Rain Lights to be Turned On.
   Thank you for your letter. It is within the Chief Steward/Race Director’s power to request a board be run on Grid instructing drivers to turn on their rain lights.

**GT2**

1. #28257 (Lou Gigliotti) More on GT2 vs GT2 ST tire issue
   Thank you for your letter. The balance of performance between the various rule sets are competitive, the CRB will continue to monitor performance and make adjustments as necessary.

2. #28334 (Craig Anderson) Request Corvette BOP between Corvettes
   Thank you for your letter. The CRB will continue to monitor class performance.

3. #28361 (Tyler Kicera) Request for TA2 BoP
   Thank you for your letter. The CRB will continue to monitor the performance of the class.

4. #28395 (Lou Gigliotti) Request for Ride Height Rule Merge
   Thank you for your letter. The balance of performance between the various rule sets are competitive, the CRB will continue to monitor performance and make adjustments as necessary.

**EP**

1. #28502 (James Rogerson) Opposes z3 2.8 restrictor plate
   Thank you for your letter. The performance potential of this vehicle will continue to be monitored, to ensure that its recent classification change still allows it to remain a viable option in the class. Competitors are encouraged to bring them out, so additional data can be collected.
**Prod General**

1. #28413 (David Stephens) Alternate Side draft Carburetor Intake Manifold (Prep 2)
   Thank you for your letter. 9.1.5.E.2.b.7 is the governing rule for all intake manifold's for all Prep Level 2 vehicles, regardless of if the OEM piece or an allowed alternative is being used, unless otherwise specified on its spec line.

**ST General**

1. #26821 (Andrew Conner) Request to classify a 2006 E90 325 with S54 driveline
   Thank you for your letter. The BMW E90 chassis and S54 engine are currently allowed in STU.

2. #28549 (Eric Heinrich) Re: #27532 tire widths - smart call, support response
   Thank you for your letter.

**STL**

1. #28388 (Spencer Clark) Bumper Grille Removal
   Thank you for your letter. Front bumper grills may be opened for ducting.

2. #28390 (Spencer Clark) Radiator Ducting
   Thank you for your letter. Radiator grills may be modified to allow more air flow.

3. #28391 (Spencer Clark) Air Dam Mounting Clarification
   Thank you for your letter. Air dams may be mounted between the splitter and bumper cover.

**STU**

1. #24146 (John Whitaker) Request classification of a RealTime Racing V6 TSX
   Thank you for your letter. Car does not comply with the STU regulations in the current configuration.

2. #27013 (Eric Heinrich) Adapting Rules to Attract
   Thank you for your letter.

3. #27735 (Jim Drago) Direct injection Penalties
   Thank you for your letter. There is no change to the current TIR chart.

4. #27817 (Mark Liller) Request for Traction Control Systems
   Thank you for your letter. Traction control is not legal in the Super Touring classes.

5. #28552 (Jim Drago) Request response to letter 27735
   Thank you for your letter. Please see letter # 27735 in current Fastrack.

**T1**

1. #28040 (Chris Arbuckle) Clarification on 996 GT3 Cup in T1
Thank you for your letter. The 996 GT3 is allowed to run in T1. The "not allowed" wording only implies that the car isn't allowed to run that specific spec line. The car must run under the "Porsche 996 GT3 Cup (02-05)" spec line on page 625 of the February GCR.

T4
1. #28387 (Roldan de Guzman) BRZ/FRS/86 245 Section Width Tires in T4
   Thank you for your letter. We'll continue to monitor the class.

Not Recommended
B-Spec
1. #28090 (Rob Piekarczyk) Request Cold Air Intake - 2011
   Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time. However, the committee will take this change under advisement as we consider future changes.

2. #28091 (Rob Piekarczyk) Request Weight reduction - 2009-2012 Honda Fit
   Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

3. #28197 (James Rogerson) Request to review Mini and balance of power
   Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

4. #28312 (Rob Piekarczyk) Request for Help for 2009-2012 Honda Fit
   Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

5. #28313 (Rob Piekarczyk) Request to Add Cold Air Intake for 09-12 Honda Fit
   Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

6. #28314 (Rob Piekarczyk) Request for Weight Reduction for 2009-2012 Honda Fit
   Thank you for your letter. The committee has recently adjusted the Balance of Performance for the B Spec class. No further changes are being considered at this time.

F5
1. #28673 (Stanley Novak) Suggestion to save F500
   Thank you for your letter. The Club Racing Board does not recommend this change. Please see the response to letter #27515 in the December 2019 Fastrack Minutes.

2. #28677 (Stanley Novak) Request removal motorcycle engines in F500
   Thank you for your letter. The Club Racing Board does not recommend this change. Please see the response to letter #27515 in the December 2019 Fastrack Minutes and the response to letter #27883 in the January 2020 Fastrack Technical Bulletin.
FA
1. #28507 (William Wald) Request to classify PM-18 in FA
   Thank you for your letter. The Club Racing Board does not recommend this change because the car is not within the intended performance envelope of the FA class.

FF
1. #28221 (Chris Bologna) Request modification of Formula F bodywork rule
   Thank you for your letter. The Club Racing Board does not recommend this change. Please see the response to letter #23681 in the Board of Directors’ Minutes, March 2018 Fastrack.

P1
1. #28534 (Michael Major) Request change in MZR 2.0
   Thank you for your letter. The Club Racing Board does not recommend this change. Removal of the required restrictor is not supported by the data: the P1 rules permit cars using a 2.0L engine to weigh 75 lbs. less than those using a 2.5L engine. The Club Racing Board will continue to monitor class performance and will make appropriate, data-based adjustments as necessary.

P2
1. #28432 (Mike Reupert) Updating the Prototype 2 Engine Table
   Thank you for your letter. This change is not recommended at this time. The Club Racing Board will continue to monitor class performance and will make appropriate, data-based adjustments as necessary.

PX
1. #28403 (Jacek Mucha) Request to Classify JMS016CP in PX
   Thank you for your letter. The Club Racing Board does not recommend this change. The PX class is not intended to be a category for cars that are eligible to compete in another U.S. Majors class. The car is currently classified in P1.

   2. #28516 (James Devenport) Request to add FIA Group CN cars to class
      Thank you for your letter. The Club Racing Board does not recommend this change. The PX class is not intended to be a category for cars that are eligible to compete in another U.S. Majors class. The car is currently classified in P1.

GCR
1. #27868 (Eric Prill) Restart Procedures
   Thank you for your letter. Due to the varying track configurations and the multiple class groupings, there is no one simple solution to the issue raised. 6.6.2.B. is for our conventional Road Racing rules, 5.5.5.A.4. & 5.5.5.C. are specific to Oval Track Racing and are not in conflict with 6.6.2.B.

GT2
1. #28122 (Craig Anderson) STO AERO Rule - Older Gen Corvette
   Thank you for your letter. Aero and power to weight rules are adequate as written.
2. #28362 (Paul Fairchild) Move Porsche 2016 Factory Cayman GT4 Clubsport to GT3
Thank you for your letter. This car is not a good fit for GT3.

ITA
1. #28441 (Lawrence Murdter) Camber Adjustment for Miatas Running ITA
Thank you for your letter. The request does not align with the class philosophy of IT.

STL
1. #26621 (Darrel Stein) RX 7 Weight Reduction
Thank you for your letter. The CRB believes the car is classified correctly. The CRB will continue to monitor performance.

2. #28331 (Tom Fowler) Rear Camber Arms
Thank you for your letter. Current STL control arm rules are sufficient.

3. #28598 (Josh Smith) Request to Omit 9.1.11. SPEC MX-5 CLASS
Thank you for your letter. The CRB does not recommend removing Spec MX5 from STL at this time.

STU
1. #26957 (Eric Thompson) Alternate Turbo Allowance Modernization
Thank you for your letter. The requested turbo is outside the current STU turbocharger capabilities.

2. #27631 (Eric Heinrich) Request to adjust NA chart to graduated
Thank you for your letter. The current STU weight chart is sufficient as written.

3. #27843 (John Schmitt) Request for Honda NA K24 Intake Manifold
Thank you for your letter. The STU Honda K24 is competitive as classified.

T1
1. #27448 (Dave Mead) Change Miller Challenge Mustang Classification to Show 4.6/5.0L
Thank you for your letter. These changes are not recommended at this time.

T2-T4
1. #28397 (Marshall Mast) T2-T3 2015+ Ford Mustang Ecoboost Rear Gear Ratio
Thank you for your letter. It appears that the requested gear ratio was only available on cars with an automatic transmission. We do not recommend a change at this time.

Recommended Items
The following subjects will be referred to the Board of Directors for approval. Address all comments, both for and against, to the Club Racing Board. It is the BoD’s policy to withhold voting on a rules change until there has been input from the membership on the presented rules. Member input is suggested and encouraged. Please send your comments via the form at www.clubracingboard.com.

None.
**Taken Care Of**

**GT2**
1. #28246 (Lou Gigliotti) Corvette Rule Change Issues
Thank you for your letter. The balance of performance between the various rule sets are competitive, the GTAC will continue to monitor performance and make adjustments as necessary.

**GTL**
1. #28027 (Kenneth Gassin) Request to Remove 27641 Until Better Language Can be Provided
Thank you for your letter. The 64 sq. inches was an error and has been "officially" corrected to read 84 sq. inches.

**T1**
1. #28451 (Tim Myers) Clarify ZERO Cars are Permitted Slicks Unless Specifically Noted
Thank you for your letter. Please see letter #28452 in current Fastrack.

**What Do You Think**
None.

**RESUMES**
1. #28184 (Nathan McBride) Request to become CRB member
Thank you for your resume. We will keep your resume on file for future needs on the GTAC AdCom.
DATE: March 20, 2020  
NUMBER: TB 20-04  
FROM: Club Racing Board  
TO: Competitors, Stewards, and Scrutineers  
SUBJECT: Errors and Omissions, Competition Adjustments, Clarifications, and Classifications  

All changes are effective 4/1/2020. If any day of a race event falls on the first day of the month, the previous month’s rules will be in effect for that event only. The new rules will become effective at the conclusion of the race event unless otherwise noted.

**American Sedan**  
None.

**B-Spec**  
None.

**Formula/Sports Racing**

**F**  
1. #28662 (Formula/Sports Racing Committee) Rain light E&O  
In GCR section 9.3.32.B.2, change as follows:  
"All Formula (open wheel) and Sports Racing cars shall be equipped with a red taillight of at least the equivalent illumination power of a 15-watt bulb. This light shall be mounted as high as possible on the centerline of the car. Light assemblies shall be considered one light for the purposes of this rule, irrespective of the number of individual lamps the assembly may contain."

**FA**  
1. #28162 (JEREMY HILL) Request higher compression ratio and prior weights for F1000 cars  
In FA Table 2, Formula 1000 spec line, change as follows:  
"Motorcycle-based 4-cycle up to 1000cc, maximum compression ratio 13.5:1 14.5:1; otherwise, current FA engine rules apply."

2. #28554 (Formula/Sports Racing Committee) Remove redundant wheel dimension provisions  
In FA, GCR section 9.1.1.A.1.h, make changes as follows:  
"The minimum wheel diameter is thirteen (13) inches. Ex-FSV cars are permitted front wheel width: minimum six (6) inches, maximum eight (8) inches; rear wheel width: minimum eight (8) inches, maximum ten (10) inches. All other cars: Front wheel width: ten (10) inches; rear wheel width: minimum fourteen (14) inches, maximum fifteen (15) inches."
3. #28596 (Formula/Sports Racing Committee) E&O Formula 3 spec line
In FA Table 2, Formula 3 car spec line, change as follows:
"Formula 3 car"
"All FIA compliant engines years 1997 to 2017. Engines must be run per FIA spec. with 30mm required restrictor."

**FF**
1. #28204 (Joe Fisher) E&O FF Kent Engine alternator language
In GCR section 9.1.1.B.12.r, change as follows:
"Generators/Alternators: not required optional."

**FX**
1. #28057 (Mark Green) Request to classify FSV in FX
In FX, GCR section 9.1.1.J.B, add the following:
"5. Ex-Pro Formula Super Vee - Shall comply with notes in Table 1."

In FX Table 1, classify the Ex-Pro Formula Super Vee as follows:

<table>
<thead>
<tr>
<th>Car</th>
<th>Engine</th>
<th>Wheel Width (in) ± .060</th>
<th>Aero</th>
<th>Transmission</th>
<th>Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Ex-Pro Formula Super Vee</strong></td>
<td>1600cc VW non-crossflow head or 1835cc VW</td>
<td>(F) 6 Min. (R) 8 Min.</td>
<td>See notes</td>
<td>Up to 5 forward gears, limited slip and locked differential allowed</td>
<td>1190</td>
<td>Car must be prepared to original professional racing rules. Engine must comply with GT engine preparation rules; no changes in bore and stroke. May use either Weber-type side draft carburetors with no restrictor or fuel injection with 37mm restrictor located between cylinder head and butterflies.</td>
</tr>
</tbody>
</table>
In FA Table 2, remove Ex-Pro Formula Super Vee spec line in its entirety.

2. #28715 (Formula/Sports Racing Committee) Classify FormulaSPEED in FX
   In FX, GCR section 9.1.1.1.B, add the following:
   "6. FormulaSPEED - Shall comply with notes in Table 1"

In FX Table 1, classify the FormulaSPEED as follows:

<table>
<thead>
<tr>
<th>Car</th>
<th>Engine</th>
<th>Wheel Width (in) ± .060</th>
<th>Aero</th>
<th>Transmission</th>
<th>Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Formula SPEED (FS2.0) 2.0 Liter Mazda MZR</td>
<td>(F) 8 (R) 10</td>
<td>Adjustable dual rear main planes. Fixed front main plane, adjustable front winglets. Wings and bodywork are delivered with FS2.0 marking that must remain visible for scrutineering.</td>
<td>6 forward speeds and reverse with open differential. No lift shift system.</td>
<td>6 forward speeds and reverse with open differential. No lift shift system.</td>
<td>1350</td>
<td>Must use sealed ECU map and sealed engine, FS2.0 sealed Ohlins TTX dampers, spec three-piece FS2.0 wheels with FS2.0 logo, and spec FS2.0 intake manifold. No part of the car may be altered from FS2.0 original parts, except for repairs that do not affect performance. World Speed Inc. must provide complete specifications by 04/30/2020.</td>
</tr>
</tbody>
</table>

In FA Table 2, remove FormulaSpeed2.0 (FS2.0) spec line in its entirety.
PX
1. #28404 (Formula/Sports Racing Committee) Classify approved cars in Table 1
   In PX, GCR section 9.1.8.I.B, add the following:
   "12. Vehicles listed in Table 1 below."
   
   In PX, GCR section 9.1.8.I, classify approved cars as follows:

<table>
<thead>
<tr>
<th>Marque</th>
<th>Model</th>
<th>Engine</th>
<th>Restrictor</th>
<th>Min Weight (lbs)</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Radical</td>
<td>SR8</td>
<td>RPE 2.7L V8</td>
<td>NA</td>
<td>1775</td>

<td>Radical</td>
<td>RXC 600R</td>
<td>Ford Ecoboost 3.5L V6 Turbo</td>
<td>NA</td>
<td>2675</td>
<td></td>
</tr>
</tbody>
</table>

GCR
1. #28386 (Jim Rogaski) Change Required Stewards Rule to Reflect Alternate SOM Model
   In GCR, change 5.1.1. as follows:
   "At a minimum, there shall be a Race Director or Chief Steward, an ACS – Safety, and at least 2 SOM (including a Chairman and one other licensed steward in addition to any Stewards-in-Training) unless the Alternate SOM Model (5.12.1.C.) is used."

2. #28470 (SCCA Staff) Request to clarify 9.3.32 Lights
   In GCR section 9.3.32. Lights, change as follows:
   1. "Non-Formula and Sports Racing cars shall utilize the original equipment red tail lights, or the rain light described in 9.3.32.B.2, or both."
   3. "Original equipment tail light assemblies may be used." Light assemblies may perform both rain and brake light functions provided they have two distinct illumination levels. Lights that function as strobe lights are not permitted except in Formula and Sports Racer classes. The taillight may strobe when directed to be used as a rain light."

3. #28471 (SCCA Staff) Request to clarify SA SA2010/SAH2010 expiration date
   In GCR section 9.3.19.C.3.2, add wording as follows:
   “Crash helmets approved by the Snell Foundation with Snell sticker 2010 or later Special Application SA2010/SAH2010, or SA2015/SAH2015, or by the SFI with a SFI Sticker SFI 31.1, or by the FIA standard 8860-2004 or later, or British Standards Institute BS6658-85 type A/FR. Each driver’s helmet shall be labeled with a minimum of the driver’s name. Crash helmets with SA2010/SAH2010 certification will remain valid until December 31, 2021."
4. #28478 (SCCA Staff) Request to add SFI Spec 3.4 Advanced Drivers Suits
In GCR, section 9.3.19.C.1. change as follows:
The following required equipment shall be in good condition and free of defects, holes, cracks, frays, etc.
"Driving suits that effectively cover the body from the neck to the ankles and wrists. One piece suits are highly recommended. All suits shall bear an SFI 3.2A/1, SFI 3.4 or higher certification label or FIA 1986 Standard or FIA Standard 8856-2000 homologation label."

5. #28597 (SCCA Staff) Update Section 3 errors and omissions
In GCR section 3, make changes as follows:
“3. EVENTS

3.1. TYPES OF SCCA RACE EVENTS
The SCCA sanctions various types of race events conducted in compliance with the GCR. SCCA race events are classified by the persons eligible to participate, the categories of cars eligible to compete, defined organizational requirements, and the awards offered.

3.1.1. U.S. Majors Tour Races
U.S. Majors Tour races are high-profile events for drivers seeking an elevated level of competition. The Head of Road Racing oversees and is responsible for the U.S. Majors Tour; events are operated by host Regions, with assistance from the U.S. Majors Tour Staff in some cases. The U.S. Majors Tour is organized as series of events within six geographic units known as Conferences.

A. Types of U.S. Majors Tour Events

1. Conference Events
   Points earned in Conference races in Runoffs-eligible classes will count toward Conference Championships (see 3.7.2), and qualification for the National Championship Runoffs (see 3.7.4). They may also count toward Divisional Championships (see 3.7.1).
   There may be a non-Runoffs eligible component of an event.
   Competitors will find information on the classes eligible and the structure for each event on the SCCA website and in the Supplemental Regulations.

2. Super Tour Events
   Super Tour Events are specially-designated Conference Events that include additional enhancements. Points earned in Super Tour Events in Runoffs-eligible classes will count toward Conference Championships (see 3.7.2), the Super Tour Championship (see 3.7.3) and qualification for the National Championship Runoffs (see 3.7.4).

3. Festival
Entry invitations are limited to the particular class(es) specified in the Supplemental Regulations. Points earned in Festival events do not count toward Conference Championships.

B. Driver Eligibility

Only drivers who hold an SCCA Full Competition License or an SCCA Pro License are eligible to enter.

C. Organizing Personnel

1. Head of Club Road Racing or their designate - oversees all aspects of the U.S. Majors Tour, including the appointment of personnel.

2. Race Director (RD)
   a. Appointed by Head of Club Road Racing for all Super Tours. Appointed by local Executive Stewards for their respective Conference. Conference RD serves as Asst. RD for Super Tour events within that Conference.
   b. The RD works with each Executive Steward and host Region to appoint the balance of the Stewards for each U.S. Majors Tour event.
   c. The RD works with the event Stewards to conduct the event.
   d. Only the RD in agreement with the Region’s representative may modify the Supplemental Regulations, as permitted in 5.12.2, after the Sanction has been issued; he may act on these matters without filing a Request for Action with the SOM.
   e. Administrative actions taken by the RD (including modifying the Schedule of Events and race groupings), are non-protestable; actions/penalties imposed by the RD for driving or compliance are protestable.

3. Series Administrator (SA)
   a. Required for all Super Tours, optional for other Conference events.
   b. The SA oversees series organization and administration of the U.S. Majors Tour series events for his Conference.

4. Series Chief Technical Inspector (SCTI)
   a. Required for all Super Tours, optional for other Conference events.
   b. The SCTI works with the CCC and event Technical Staff to provide consistent compliance checking across all the events in his Conference.

5. Series Timing Administrator
   a. Required for all Super Tours, optional for other Conference events.
b. The Series Timing Administrator works with the local Timing team to deliver enhanced timing functionality to events.

6. Series Public Relations Representative

a. Required for all Super Tours, optional for other Conference events.

b. The Series PR Representative provides communication and public relations support for the event.

7. Series Clerk of the Course

a. May be designated for Super Tours, optional for other Conference events.

b. The Clerk of the Course is an Operating Steward that works in Race Control with local stewards to provide consistency in race operations.

8. One or more SCCA Regions may organize a U.S. Majors Tour event. The region or group hosting a U.S. Majors Tour event will enter into a written agreement with the National Office that details the responsibilities of both parties.

D. Event Format / Schedule

1. Conference Events

a. The National Office has developed standard formats for each type of U.S. Majors Tour event. Regions are encouraged to utilize these standard formats to retain program consistency.

b. **There shall be a maximum of two (2) races per race weekend.** At least one race for each race group will be a minimum of 45 miles. **The other race of the weekend Additional races on a weekend shall be a minimum of 20 minutes in length.**

c. Minimum track time

1. Two-day events shall have a minimum of 35 minutes of non-racing track time available per Majors class entry. **Two qualifying sessions are recommended.**

2. Three-day events shall have a minimum of 65 minutes of non-racing track time available per Majors class entry. **One practice and two qualifying sessions are recommended.**

2. Super Tour Events

a. The National Office has developed standard formats for each type of U.S. Majors Tour event, and works with Regions to create a specific schedule, which must be approved by the Head of Club Road Racing, who has final authority.
b. There shall be a maximum of two (2) races per race weekend. At least one race for each race group will be 35 minutes in length with a maximum of 50 miles (variations may be approved by the head of Club Road Racing and published in the supplemental regulations). The other race of the weekend shall be a minimum of 25 minutes in length.

c. Minimum track time

1. Two-day events shall have a minimum of two (2) qualifying sessions totaling at least 35 minutes of non-racing track time available per Majors class entry.

2. Three-day events shall have a minimum of two (2) qualifying sessions totaling at least 65 minutes of non-racing track time available per Majors class entry. One practice and two qualifying sessions are recommended.

3. The schedule must show start times for all sessions, however, it is understood that actual start times will vary based on on-track situations and forces of nature. Minor running adjustments to the schedule do not require Requests for Action to the SOM.

4. All U.S. Majors Tour events are open to the public. Host Regions and the National Office jointly promote U.S. Majors Tour events.

E. Classes to be included in U.S. Majors Tour events:

1. All Runoffs-eligible classes will be included in Conference and Super Tour events.

2. Run groups comprised of non-Runoffs eligible classes may be included in U.S. Majors Tour Conference events to encourage participation.

F. Additional Majors Requirements:

1. Conference Preferred Numbers will be administered by the National office and shall be honored at all Majors events until 14 days prior to the event. If two drivers holding the same Preferred Number request that number for the same run group, the number will be assigned to the driver with the earliest request.

2. For the purposes of Conference points keeping, timing and scoring shall supply an Orbits database backup file (Orbits 4 preferred) to the SCCA National office (see front of book for email address) within three business days of the event to tabulate series points. Any revisions not included in that file shall be communicated with the submission.

   a. All drivers listed on the final race results shall be consistent with the numbers included in the event audit.

   b. When non-Runoffs eligible classes are included in Runoffs-eligible groups at Majors Conference events, the non-Runoffs eligible entries are treated as Majors entries and are
subject to the same event audit fees and must meet the driver eligibility requirement in GCR 3.1.1.B.”

Grand Touring
GT2
1. #28280 (R. Paul Evans) Request to revisit Panoz GT-S BoP
In GT2, add to Engines - PANOZ as follows:

<table>
<thead>
<tr>
<th>GT Engines - PANOZ</th>
</tr>
</thead>
<tbody>
<tr>
<td>Engine Family</td>
</tr>
<tr>
<td>TA2 &quot;Choice Engine&quot;</td>
</tr>
</tbody>
</table>

2. #28583 (Grand Touring Committee) GT2-ST Corvette LS2 & L76
In GT2-ST, Chevrolet Corvette (-2019), change Spec Line as follows:

<table>
<thead>
<tr>
<th>GT2-ST</th>
<th>Maximum Displacement</th>
<th>Minimum Weight</th>
<th>Restrictor</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>LS2</td>
<td>5967</td>
<td>3000</td>
<td>70-75mm flat plate</td>
<td>GM LS2/L76. May use the LSX cast iron block with OEM LS2 bore and stroke.</td>
</tr>
</tbody>
</table>

3. #28584 (Grand Touring Committee) GT2-ST Corvette L76
In GT2-ST, Chevrolet Corvette (-2019), add to Spec Line as follows:

<table>
<thead>
<tr>
<th>GT2-ST</th>
<th>Maximum Displacement</th>
<th>Minimum Weight</th>
<th>Restrictor</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>L76</td>

</tbody>
</table>

Improved Touring
None.

Legends Car
None.
Production
1. #28498 (Omer Norton) Caterham 7 Spec Line
In EP, modify the "Notes" section of the "Lotus/Caterham 7 America" spec line as follows:
"Level 2 suspension preparation. Engine is limited to IT preparation except modifications permitted in sections 9.1.5.E.2.e., 9.1.5.E.2.f, and 9.1.5.E.2.h. and f. Comp. Ratio limited to 10.0:1, Valve lift limited to .380."

Note that the "Level 2 suspension preparation" limitation is already mandated by the fact that this is a "Prep Level 2" classified vehicle. Removal of that wording from the "Notes" section is purely due to redundancy, and not to change the allowed preparation.

FP
1. #28553 (David Montgomery) Request to classify SOHC 1989-90 240SX in F prod L2
In FP, Spec Line, add 1989-90 Nissan 240-SX SOHC:

</table>

Touring
T1
1. #28153 (JAKE NAMER) Request 996 GT3 Trunk for Wing Allowance.
In T1, Porsche 996 Spec Lines, add to Chassis Notes as follows:
"996 Cup Replica Rear deck lid allowed."

2. #28452 (Tim Myers) All Touring, Change DOT Tire Language 9.1.9.1, 9.3.45
In T1, Acura NSX Turbo World Challenge Spec Lines, add to Chassis Notes as follows:
"DOT tires required as per GCR section 9.3."
In T1, Audi TTRS (GTS 2011 Spec) Spec Lines, add to Chassis Notes as follows:
"DOT tires required as per GCR section 9.3."

T2
1. #28242 (Thomas Herb) Limit Changes to the 997.2 Porsche
In T2, Porsche 911 / 997 (06-08) Spec Lines, add to Notes as follows:
"OEM rear deck lid required. OE Porsche GT3 Cup front fascia number "997-505-980-97-G2X FRONT BUMPER GT3 CUP" or equivalent aftermarket allowed (+75lb). GT3 Cup splitter not allowed."

In T2, Porsche 911 / Carrera S 997.2 (09-12) Spec Lines, add to Notes as follows:
"OEM rear deck lid required. OE Porsche GT3 Cup front fascia number "997-505-980-97-G2X FRONT BUMPER GT3 CUP" or equivalent aftermarket allowed (+75lb). GT3 Cup splitter not allowed."
2. #28732 (Touring Committee) Correct T2 Mustang Transmission
In T2, Ford Mustang GT 5.0L (15-17) Spec Lines, change Gear Ratios as follows:
"3.66, 2.43, 1.69, 1.32, 1.00, 0.65 or 4.69, 2.98, 2.14, 1.76, 1.52, 1.27, 1.00, 0.85, 0.68, 0.63"
FACTS IN BRIEF

Following the Saturday, January 11, 2020, Group 3 race of the Winter Vacation Hoosier Super Tour at Sebring International Raceway, Mike Amy, Entrant for Spec Racer Ford 3 (SRF3) #38, driven by David Dickerson, filed a Protest against Brian Schofield, driver of SRF3 #61, alleging he “jumped the restart by going before the Green Flag was displayed.”

The Stewards of the Meeting (SOM) Stu Cowitt and Matias Bonnier (Chairman) met to hear and rule on the Protest. The SOM determined Mr. Schofield violated General Competition Rules (GCR) 6.6.2.B.1.iii. and 6.6.2.B.3.iii. (Full Course Yellow Procedures) by not maintaining the speed of the safety car prior to the green flag being displayed at start. The SOM penalized Mr. Schofield with a reprimand and one penalty point on his Competition License. Mr. Amy is appealing the severity of the penalty.

DATES OF THE COURT

The Court of Appeals (COA) Jack Kish, Laurie Sheppard, and James Averett (Chairman) met on February 13 and 27, 2020, to review, hear, and render a decision on the appeal.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED

3. Videos from Car #23 and Car #38, received February 6, 2020.
4. Comments from SOM Chairman Matias Bonnier, received February 6, 2020.

FINDINGS

In his appeal, Mr. Amy does not dispute the facts or the SOM decision regarding the rules violations, but argues the penalty assessed was not sufficient. Mr. Amy provided no additional evidence.

The COA reviewed the original witness statements and video evidence and found Mr. Schofield, Car #61, was running first during a full course yellow segment of the SRF3 race. The safety car entered Pit Lane while Car #61 was still negotiating the final turn. Mr. Schofield accelerated continuously, well before the front straight and before the Starter was in sight. The next several cars also accelerated to stay with Mr. Schofield. The SOM determined Mr. Schofield violated GCR 6.6.2.B.1.iii. (“Maintain the speed of the
safety car coming down to a restart.”) and 6.6.2.B.3.iii. (“Drivers must maintain the safety car’s pace and not improve their position or begin racing until the green flag has been displayed to restart the race.”).

The COA finds the SOM ruling was based on clear and convincing evidence, well-reasoned, and within the authority granted in the GCR. The penalty imposed is within the range of penalties allowed by GCR 7.2. (Range of Penalties).

DECISION

The COA upholds the SOM decision in its entirety. Mr. Amy’s appeal fee, less the administrative portion retained by the SCCA, will be returned.
FACTS IN BRIEF

Following the Saturday, January 11, 2020, Group 3 race of the Winter Vacation Hoosier Super Tour at Sebring International Raceway, two independent Protests were filed against Richard Baldwin, driver of Spec Racer Ford 3 (SRF3) #25, for violating General Competition Rules (GCR) 6.11.1. (On Course Driver Conduct). The first protest was filed by Alan Olson, driver of SRF3 #63, against Mr. Baldwin for failure to provide racing room which resulted in metal-to-metal contact at Turn 1 on Lap 1. The second protest was filed by Robert Reed, driver of SRF3 #03, who protested Mr. Baldwin for metal-to-metal contact at Turn 7 on Lap 1. In addition to the two Protests, Assistant Chief Steward (ACS) Dennis Joyce submitted a Request for Action (RFA) to investigate a multiple car incident at Turn 17 on Lap 3 of the SRF3 race.

The Stewards of the Meeting (SOM) Bob Gardner, Mark Russell, Lori Vitagliano, and Russ Gardner (Chairman) met to hear and rule on the Protests. The SOM chose to combine both Protests (Olson, SOM Action #7, and Reed, SOM Action #8) into a single hearing as both involved the same protested driver, Mr. Baldwin. Because the multi-car incident at Turn 17 (SOM Action #10) involved contact between Car #25 and Car #7, the RFA was added to the Protest hearing.

After hearing witness testimony, evaluating witness statements, and reviewing race videos, the SOM ruled Mr. Baldwin violated GCR 6.11.1.B. (Failure to leave racing room) and GCR 2.1.4. (Driving recklessly or dangerously) and issued him a six weekend probation and three penalty points against his Competition License. Mr. Baldwin is appealing the decision regarding the two Protests, Action #7 and Action #8.

DATES OF THE COURT

The Court of Appeals (COA) James Averett, Jack Kish, and Pat McCammon (Chairman) met on February 13 and 27, 2020, to review, hear, and render a decision on the appeal.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED

3. Action #7 race videos from Car #11, Car #25, Car #40, Car #63, and Car #64, received February 6, 2020.
4. Action #8 race videos from Car #03, Car #25, Car #40, and Car #64, received February 6, 2020.
5. Action #10 race videos from Car #03, Car #4, Car #11, Car #25, Car #64, and Car #92, received February 6, 2020.
FINDINGS

Mr. Baldwin left the track before the SOM finalized its deliberations and he was notified by phone of the findings. A packet with notification of the actions, Mr. Baldwin’s probationary license, and the 2020 Court of Appeals Guide was delivered by express carrier, signature required, on January 15, 2020. Conversations with the SOM at the track and a subsequent phone conversation left Mr. Baldwin with the incorrect impression he had 30 days to file an appeal. The COA recognizes this delayed submission of his appeal and accepts it.

Action #7

On the initial lap of the SRF3 race, approaching left hand Turn 1, Mr. Olson, Car #63, was next to the wall, driver’s left. To his right and slightly ahead was Mr. Baldwin, Car #25, who had Car #64 to his right. As the trio approached the apex, Mr. Baldwin moved driver’s left and his left rear made contact with the right front of Mr. Olson, forcing him into the wall, driver’s left. Mr. Baldwin continued; Mr. Olson’s car was disabled and pulled off track. Mr. Olson protested Mr. Baldwin for failure to provide racing room, per GCR 6.11.1. (On Course Driver Conduct).

In the SOM hearing, Mr. Baldwin acknowledged the incident, but denied responsibility. Mr. Baldwin believed when he turned in for the corner, he had cleared Mr. Olson, and Mr. Olson should have backed off to allow the pass. GCR 6.11.1.B. states “Each competitor has a right to racing room, which is generally defined as sufficient space on the marked racing surface that under racing conditions, a driver can maintain control of his car in close quarters.” The SOM upheld the Protest.

Action #8

On the initial lap of the SRF 3 race, a group of cars approached right hand Turn 7. Inside track right was Car #11, with Mr. Reed, Car #03, to his left, and Car #64 further left. Mr. Baldwin approached the group and filled the gap left of Mr. Reed and right of Car #64. Approaching the turn, Mr. Baldwin turned in, making side-to-side contact with Mr. Reed and forcing him driver’s right into Car #11. The resulting contact damaged Mr. Reed’s car, which was unable to continue. Mr. Reed protested Mr. Baldwin for failure to provide racing room, per GCR 6.11.1. Mr. Baldwin acknowledged the incident to the SOM but denied responsibility. Mr. Baldwin agrees he turned in, but maintains he had already passed Mr. Reed and Mr. Reed should have backed off when the pass was initiated. The SOM upheld the Protest.

Mr. Baldwin declined to appeal the decision in Action #10, the RFA to investigate the multi-car incident in Turn 17 where he contacted Car #7. In the combined ruling on Action #7, Action #8, and Action #10, the SOM noted Mr. Baldwin made contact with 3 different cars in the first 3 laps of the race, resulting in two competitors being unable to continue. Because the SOM combined the three actions into a single hearing, the COA considered the totality of all actions as well, while noting only Action #7 and Action #8 were specifically included in Mr. Baldwin’s appeal.
After a thorough review of the documentation and video evidence, the COA finds the SOM reached a responsible and thoughtful decision and issued a penalty within its authority, per GCR 7.2. (Range of penalties).

DECISION

The COA upholds the SOM decision in its entirety. Mr. Baldwin’s appeal is well founded, and his appeal fee less the administrative portion retained by SCCA, will be returned.
JUDGEMENT OF THE COURT OF APPEALS
Michael West vs. ACS  COA Ref. No. 20-03-SW
March 19, 2020

FACTS IN BRIEF

Following the Saturday, February 8, 2020, Group 3 Hoosier Super Tour race at Circuit of the Americas, Spec Miata (SM) post-race impound included a visual inspection of the intake manifolds on the top three finishing cars. Two of the three cars’ intake manifolds were identical. Class Compliance Chief (CCC) Tyrone Till determined SM #39’s intake manifold may have been modified. He completed a Technical Inspection Report (TIR) and discussed his observation with Assistant Chief Steward (ACS) Roger Heyl.

ACS Heyl determined the car was not compliant with General Competition Rules (GCR) 9.1.7.C.1.j.1. (Intake Manifold) and disqualified Mr. Steyn from the Saturday race. Mr. Steyn accepted the penalty without protest, and Series Chief Technical Inspector Scott Schmidt retained SM #39’s intake manifold.

Subsequently, information became available indicating the intake manifold from SM #39 was an unmodified stock Mazda part. Race Director Michael West appealed to overturn the penalty assessed to Mr. Steyn.

DATES OF THE COURT

The SCCA Court of Appeals (COA) Tom Campbell, Pat McCammon, and Jack Kish (Chairman) met on March 5, 2020, to review, hear, and render a decision on the appeal.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED

4. Witness Statement from Rick Harris, received March 2, 2020.
6. Photos of the intake manifold from SM #39, taken by Rick Harris, received March 2, 2020.

FINDINGS
Race Director West is appealing a Chief Steward’s Action (CSA) filed on his behalf by ACS Roger Heyl. While this scenario is unusual, the COA finds that per GCR 8.4.1. (Right to Appeal), “The Race Director or Chief Steward of an event has the right to appeal any decision or penalty imposed.” Further, due to new, clarifying information received regarding the original action, it is appropriate to reopen the appeal window and allow Mr. West’s appeal to be heard.

The COA acknowledges the inspections and subsequent actions taken by all parties at the Hoosier Super Tour event were authorized by the GCR and the decisions made were based on the information available to them at the time.

Following the event, Mr. Schmidt delivered SM #39’s intake manifold to SCCA Road Racing Technical Manager Rick Harris, who examined and photographed the part. Per standard procedure, the pictures were forwarded to Spec Miata Advisory Committee Chairman Sean Hedrick and Club Racing Board (CRB) liaison, Sam Henry. Mr. Henry compared the photo to a stock manifold in his own shop and discovered the appearance of the part was identical. Mr. Henry photographed the stock manifold and sent the photos to Mr. Harris.

Mr. Harris forwarded the photos of the confiscated part and the stock intake manifold from Mr. Henry’s shop to Joshua Smith at Mazda Motorsports. After discussion with Mr. Harris, Mr. Smith investigated and found “there are variations in the manufacturing on the Mazda Miata NB intake manifolds.” Mr. Smith concluded it was unlikely SM #39’s intake manifold was altered. Mr. Harris agreed and notified Mr. West of their findings, prompting Mr. West to appeal.

The COA finds the basis for the penalty against Mr. Steyn is refuted. As such, the penalty itself must be overturned, and Mr. Steyn’s disqualification is removed. His finishing position is restored and all prizes, awards, and points will be reinstated.

**DECISION**

The COA overturns the CSA penalty in its entirety. Mr. West’s appeal is well founded, and his entire appeal fee will be returned.
The Club Racing Board met by teleconference on March 31, 2020. Participating were Peter Keane, Chairman; David Arken, David Daughtery, Jim Goughary, John LaRue, Sam Henry, Tony Ave, and Shelly Pritchett, secretary. Also participating were: Bob Dowie, Chris Albin, and Marcus Meredith, BoD liaisons; Eric Prill, Chief Operations Officer, Deanna Flanagan, Director of Road Racing, Rick Harris, Club Racing Technical Manager, and Scott Schmidt, Technical Services Assistant. The following decisions were made:

**Member Advisory**
None.

**No Action Required**

**B-Spec**
1. #28013 (Chris Taylor) Request for Rules Clarification
   Thank you for your letter. After review the committee agrees that the rules as written are clear. It clearly states that the body (in this case the strut tower) is allowed to be modified. From 9.1.10.35 - "Modifications to the top of the strut tower may be made to allow for camber adjustment only."

2. #28503 (James Rogerson) Opposes BoP by Runoffs
   Thank you for your letter. The decision was not based on only runoffs results it was also based on data from previous races and results. Data collected during the season will be used to make future adjustments.

3. #28505 (Conner Kelleher) Request to remove 11-13 Mini Cooper Restrictor Plate
   Thank you for your letter. The BOP for the class was recently adjusted in the March FastTrack with letter #28394. No further adjustments are being considered at this time. Data collected during the season will be used to make future adjustments.

4. #28509 (James Rogerson) Old PWC Parts Packages
   Thank you for your letter. This is counter to how the class works. Current availability is not required for parts to be legal.

**PX**
1. #27216 (Mike McAleenan) Request to Add SL-C as Approved Car
   Thank you for your letter. A spec line for the Superlite SL-C will be added to PX Table 1 after the Club Racing Board receives the necessary specifications, provided the car meets the requirements of GCR section 9.1.8.B. The Formula/Sports Racing Committee will forward a list of the specifications to be supplied by the letter writer through the CRB letter log system.
2. #28037 (Vincent Vavrosky) Request to Classify ASR Diasio in PX
Thank you for your letter. The Club Racing Board is uncertain as to which car this request refers. Please clarify through the CRB letter log system which car you are asking to have classified.

3. #28251 (Andres van der Dys) Request to Classify Wolf GB08 in PX
The Wolf GB08SM equipped with a naturally-aspirated Honda K24 2.4L engine may compete in the P1 class under Spec Line G in the P1 Engine Table. The Wolf GB08 Tornado equipped with a turbocharged PSA 1.6L engine may compete in the regional-only ASR class, provided the car meets the requirements of GCR section 9.1.8.B. The Formula/Sports Racing Committee will generate a What Do You Think (WDYT) letter to determine whether class stakeholders believe turbocharged engines should be allowed to compete in the P1 class.

GT2
1. #28048 (Tim Horrell) Porsche GT4 Clubsport
Thank you for your letter. This car is already classified in GT2-ST.

2. #28423 (Lou Gigliotti) Addendum: Letter ID Number: #28258 DOT vs Slick Selective Penalty
Thank you for your letter. The balance of performance between the various rule sets are competitive, the CRB will continue to monitor performance and make adjustments as necessary.

3. #28500 (Lou Gigliotti) COTA follow up observations and notes Re: tire rule
Thank you for your letter. The balance of performance between the various rule sets are competitive, the CRB will continue to monitor performance and make adjustments as necessary.

Strategic
1. #27962 (David Mead) Expand Quality/Quantity/Prestige/Benefit of Winning a Runoffs
Thank you for your letter. Runoffs invitation and qualification requirements are reviewed annually and your suggestion will be reviewed and considered for future years.

2. #27972 (Raymond Blethen) Request to Remove Runoffs Participation Requirements
Thank you for your letter. Runoffs qualification requirements are reviewed annually and your suggestion will be reviewed and considered.

3. #27976 (Mike Ogren) Please Amend the 2020 Runoffs Requirements.
Thank you for your letter. Runoffs qualification requirements are reviewed annually and your suggestion will be reviewed and considered.

STL
1. #28719 (Jonathan Gillean) FRS Weight
Thank you for your letter. Please see below BRZ calculation:
2.0L = 2700# X 1.5% for 12.5:1 compression ratio = 2740.5 pounds
2740.5 # X 5.5% rear wheel drive adder = 2891.
T2
1. #28193 (Nathan McBride) Request for amendment to recent Porsche T2 rule changes
   Thank you for your letter. Please see letter # 28242 in April Fastrack.

2. #28214 (John Snyder) Request Porsche changes
   Thank you for your letter. We will continue to monitor the class.

3. #28218 (Mark Boden) Opposes Porsche rule change
   Thank you for your letter. Please see letter # 28242 in April Fastrack.

Not Recommended
PX
1. #28045 (Jesse Grose) Request to Classify Praga R1T in PX
   Thank you for your letter. The Club Racing Board does not recommend this change because the Praga R1T is below the minimum weight for cars being considered for classification in the PX class. Members who wish to race the Praga R1T may compete in the regional-only ASR class, provided the car meets the requirements of GCR section 9.1.8.B. The Formula/Sports Racing Committee will generate a What Do You Think (WDYT) letter to determine whether class stakeholders believe turbocharged engines should be allowed to compete in the P1 class. The Formula/Sports Racing Committee will also generate a separate WDTY letter to determine whether class stakeholders believe closed-cockpit, single-seat cars should be allowed to compete in the P1 class.

GCR
1. #28484 (Scott Giles) Request recognition of Gridlife Competition Licenses
   Thank you for your letter. Gridlife Licenses do not require any medical review prior to license issuance. Therefore, they are not in compliance with the GCR medical review requirements.

GT2
1. #28654 (Craig Anderson) Request to update GT2 / ST (OLD 2012 STO RULES)
   Thank you for your letter. The CRB sees the competition in GT2 as being level and will continue to monitor the performance of the class.

GT3
1. #28665 (Luis Rivera) Bridgeport 12a Adjustment
   Thank you for your letter. The GTAC feels there are adequate engine/SIR/choke and weight options for the 12A Mazda Rotary in the class.

GTL
1. #28510 (Joe Harlan) 15
   Thank you for your letter. The GTAC has reviewed these different tires with Goodyear, measured contact patch and the conclusion is the same; the 4% weight penalty is adequate as described.
2. #28519 (Joe Harlan) Request a weight penalty change for 15 inch wheels.
Thank you for your letter. The GTAC has reviewed these different tires with Goodyear, measured contact patch and the conclusion is the same; the 4% weight penalty is adequate as described.

3. #28700 (Troy Ermish) GTL Competitive Adjustment
Thank you for your letter. The CRB does not recommend making changes to classifications based on the Runoffs track only - it does not represent the yearlong performance potential of a chosen car.

EP
1. #28702 (Mike Anderson) E36 Chassis Coilover
Thank you for your letter. The requested allowance is against the class philosophy, and adequate spring and ride height adjusting options are available for the rear of the BMW E36 chassis.

HP
1. #28759 (Mike Ogren) Request to classify 1973 VW Super beetle to HP
Thank you for your letter. The VW Beetle never came from the factory with the 1835cc engine.

SM
1. #27041 (Jim Drago) Tire Management and Cost Control
Thank you for your letter. After careful consideration of the tire limiting proposal and the official results of the March 2019 What Do You Think (WDYT) the SMAC has chosen not to recommend the tire limiting proposal at this time.

There were multiple factors that the SMAC considered when coming to this conclusion:
- The overall response rate to the WDTY via the letter system was low; suggesting that tire limiting may not be a priority to a large proportion of the Spec Miata community.
- Responses were not overwhelmingly in favor of tire limiting. Responses varied greatly, with approximately one third in favor of the tire limiting proposal, one third suggesting their own proposals, and one third not in favor of tire limiting.
- The ongoing development of the Hoosier SM8 may yield a better solution.
- The possible redistribution of the 2021 Hoosier contingency program could alleviate some tire costs to a greater number of participants.

2. #27574 (Marc Cefalo) Restrictor Plate Sizing
Thank you for your letter. The SMAC has extensively reviewed multiple forms of data regarding performance and believes that balance of performance for the entire class is being achieved at this time.

3. #27604 (Marc Cefalo) Request to Reduce Weight of 94 Through 97 Model Year Cars
Thank you for your letter. The SMAC has extensively reviewed multiple forms of data regarding performance and believes that balance of performance for the entire class is being achieved at this time.

4. #27774 (Tom Sager) Request for competition adjustment
Thank you for your letter. The SMAC has extensively reviewed multiple forms of data regarding performance and believes that balance of performance for the entire class is being achieved at this time.
5. #27801 (Ron Gayman) Request to Reduce Weight of 1994-97 NA 1.8L
Thank you for your letter. The SMAC has extensively reviewed multiple forms of data regarding performance and believes that balance of performance for the entire class is being achieved at this time.

6. #28532 (Dennis Mathias) Request a different spec tire
Thank you for your letter. The tire contract for SpecMiata is an SCCA business decision that fall outside of the SMAC's responsibilities. SMAC is working with Hoosier on the development of an SM8 tire that should hopefully reduce tire costs in SpecMiata.

7. #28682 (Lee Graser) Request Parity test and verify
Thank you for your letter. The SMAC has extensively reviewed multiple forms of data regarding performance and believes that balance of performance for the entire class is being achieved at this time.

T1
1. #28450 (Tim Myers) Remove +100lbs Big Brake Penalty From all Touring Cars
Thank you for your letter. The brake kit you mention was allowed due to the lack of cooling ability available on the smaller OEM front brakes. Coupled with the OEM-nature of the rotor and caliper it was determined this combination was not worthy of a penalty versus aftermarket brakes.

2. #28453 (Tim Myers) Request to Allow All T1 Cars +100 lbs and Remove Restrictors
Thank you for your letter. We'll continue to monitor the class.

T2
1. #28383 (Joe Aquilante) Allow Any 4 Piston Caliper to the Alternate C5 T2 Corvette Config
Thank you for your letter. Recent changes have been made in T2 that should benefit this car. If the small brake configuration isn't acceptable, please consider a different configuration.

T3
1. #28399 (Philip Di Pippo) 2015 + Ford EcoBoost Mustang Restrictor
Thank you for your letter. We did suggest allowing sway bars on the Mustang in letter #28398. Please bring the car out to race prior to a TIR change.

2. #28480 (Jim Leithauser) Opposes Solstice GXP in T3
Thank you for your letter. The Solstice GXP has been classed in T3 for years. Minor adjustments were made to the existing spec line prior to 2020. The T3 spec line is being closely monitored.

Recommended Items
The following subjects will be referred to the Board of Directors for approval. Address all comments, both for and against, to the Club Racing Board. It is the BoD’s policy to withhold voting on a rules change until there has been input from the membership on the presented rules. Member input is suggested and encouraged. Please send your comments via the form at www.clubracingboard.com.

GCR
1. #28168 (Robert Wright) Request to add Pro Racing runoffs eligibility
   In GCR 3.7.4.A.1.a, add to FX as follows:
   "USF2000 MZR (FRP rules)"

2. #28575 (Stephen Hyatt) Request to use of FIA disability identification
   In GCR, section 9.3.29. add as follows:
   "E. Disability Identification
   To ensure course marshals, emergency services crew, and other officials are made aware that the driver
   may need to be dealt with differently in case of an emergency, non-ambulant drivers must display the
   disability identification symbol on both sides of the car near the driver’s compartment."

IT General
1. #28610 (Improved Touring Committee) Remove Verbiage about an Assessment Clock in 9.1.3.C.
   In Improved Touring, GCR section 9.1.3.C, change as follows:
   "During the initial vehicle classification process, the Club shall assess vehicle performance factors such as
   – but not limited to – manufacturer’s published specifications for engine type, displacement,
   horsepower, and torque; vehicle weight; brake type and size; suspension design; and aerodynamic
   efficiency. Based only on such clearly measurable physical factors, a minimum allowable weight shall be
   established. At the end of the second, third, and fourth full years of classification, the vehicle’s racing
   performance relative to other vehicles in its class shall may be evaluated. If the Club deems that, in the
   interest of fostering greater equity within a class, a vehicle should be reclassified to another Improved
   Touring class, such a reclassification may be made. Alternatively or additionally, if the Club deems that
   an upward or downward revision in the minimum allowable weight is warranted, such an adjustment
   may be made. At the end of a vehicle’s fourth full year of Improved Touring classification, the vehicle’s
   minimum weight shall be established. Cars with weights assigned prior to 1/1/2005 may have their
   weights reassigned using the same process that is used for new listings. Should this occur, the
   assessment clock will start anew. Racing history of this particular model may be considered at this time
   and an adjustment may be included in the new minimum weight, and the adjustment may be
   reconsidered at the end of any of the first four full years of competition. If at any time an error is
   discovered in the physical factors used to assess a vehicle’s weight or an error was made during the
   application of the weight-assignment process, the error may be corrected. Should such an error
   correction occur, the assessment clock will start anew. Racing history of this particular model may be
   considered at this time and a performance compensation adjustment may be included in the new
   minimum weight, and the racing history of this model may be evaluated for an adjustment at the end of
   any of the first four full years of competition after the correction is made. On rare occasion—and only
   after careful review of the actual racing performance of a particular make/model/year of vehicle—the
   Club may reclassify a vehicle, revise a vehicle’s minimum allowable weight, and/or in the most extreme
   situation an intake restrictor may be required. Such an action shall be taken solely for the purpose of
   restoring equity within the vehicle’s class."

Taken Care Of
FA
1. #28675 (JEREMY HILL) F1000 WEIGHT
Thank you for your letter. F1000 cars are no longer required to use stock engines, and a 25-lb. allowance for cars with engines manufactured before 2011 is not warranted because competitors are now permitted to make any modifications and use any engine components they wish to run, subject to the requirements of the F1000 spec line and the general FA rules. Please see the response to letter #28162 in the April 2020 Fastrack Technical Bulletin.

GCR
1. #28632 (Fred Brinkel) Request Rain Light Activation
   Thank you for your letter. Please see response to letter # 28496, posted in the April 2020 Fastrack.

SM
1. #28311 (KYLE WEBB) Tire Limiting
   Thank you for taking the time to respond to the WDYT. Please see response to initial request letter # 27041 in the May Fastrack.

2. #28533 (Jim Drago) Tire limiting proposal
   Thank you for taking the time to respond to the WDYT. Please see response to initial request letter # 27041 in the May Fastrack.

3. #28535 (Clark Cambern) Tire Limiting Proposal
   Thank you for taking the time to respond to the WDYT. Please see response to initial request letter # 27041 in the May Fastrack.

4. #28536 (Chad Cheshire) Tire limiting proposal
   Thank you for taking the time to respond to the WDYT. Please see response to initial request letter # 27041 in the May Fastrack.

5. #28537 (Vinnie Baratta) Tire Limiting Proposal WDYT
   Thank you for taking the time to respond to the WDYT. Please see response to initial request letter # 27041 in the May Fastrack.

6. #28539 (Chris Lefferdink) Tire Limiting Proposal
   Thank you for taking the time to respond to the WDYT. Please see response to initial request letter # 27041 in the May Fastrack.

7. #28540 (Chris Ciufo) Tire Limiting Proposal
   Thank you for taking the time to respond to the WDYT. Please see response to initial request letter # 27041 in the May Fastrack.

8. #28541 (Todd Buras) Tire Limiting Proposal
   Thank you for taking the time to respond to the WDYT. Please see response to initial request letter # 27041 in the May Fastrack.
9. #28544 (John Ogle) Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

10. #28545 (Christopher Shaffer) Tire Limiting Proposal WDYT
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

11. #28546 (Steve Scheifler) Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

12. #28547 (David Price) Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

13. #28548 (Dennis Hamminga) Tire Limiting Process Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

14. #28551 (William McDonnell) Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #
27041 in the May Fastrack.

57. #28639 (Shay Corbin) Tire Limiting Proposal - on the fence
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #
27041 in the May Fastrack.

58. #28642 (John Harms) Opposes Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #
27041 in the May Fastrack.

59. #28643 (Steve Bertok) Opposes Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #
27041 in the May Fastrack.

60. #28646 (Domenico Leuci) SM Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #
27041 in the May Fastrack.

61. #28648 (Stephen Figura) Proposed Tire Rule
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #
27041 in the May Fastrack.

62. #28649 (Case Crowell) Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #
27041 in the May Fastrack.
63. #28650 (James Randall) Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

64. #28666 (Tom Sager) Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

65. #28668 (Jon Yanca) Opposes Tire Limiting Proposal (WDYT)
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

66. #28670 (Natalino Scappaticci) Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

67. #28671 (Mike Hichme) Tire Limiting Proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

68. #28683 (Steve Greenhill) Opposes Tire Limiting Proposal (WDYT)
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

69. #28691 (Dan Goff) Tire limiting program
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

70. #28692 (Chris Giesen) Opposes Tire Limiting Proposal (WDYT)
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

71. #28721 (Justin Hille) Opposes Tire limiting proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

72. #28723 (Eric Matoy) Opposes SM tire limiting proposal
Thank you for taking the time to respond to the WDYT. Please see response to initial request letter #27041 in the May Fastrack.

What Do You Think
F5
1. #28359 (Scott Thorp) Request for Cockpit Adjustment of External Jetting Devices
   Should the rules allow cockpit adjustment of external jetting devices on two cycle cars?
   Please reply via the letter log system.

FV
1. #28697 (Chris Zarzycki) Request Consideration of Steering Rack
   Should aftermarket steering racks be allowed as an alternative to the VW steering box?
   Please reply via the letter log system.

RESUMES
1. #28023 (David Oliveira) Resume for Advisory Board Position
   Thank you for your letter and volunteering to serve on the committee. David will be added to the B-Spec advisory committee.

---

**Technical Bulletin**

DATE: April 20, 2020
NUMBER: TB 20-05
FROM: Club Racing Board
TO: Competitors, Stewards, and Scrutineers
SUBJECT: Errors and Omissions, Competition Adjustments, Clarifications, and Classifications

All changes are effective 5/1/2020. If any day of a race event falls on the first day of the month, the previous month's rules will be in effect for that event only. The new rules will become effective at the conclusion of the race event, unless otherwise noted.

**American Sedan**

**AS**

1. #28785 (American Sedan Committee) weight adjustments for 2020 season
   In AS, Chevrolet/Pontiac Camaro & Firebird (82-92), change weight as follows:
   "35503500"

   In AS, Chevrolet/Pontiac Camaro & Firebird (93-02), change weight as follows:
   "35503500"

   In AS, Chevrolet/Pontiac Camaro & Firebird (98-02) Restricted Prep. 5.7L V-8 (Aluminum Block, Aluminum Heads) LS1, 2 valves per cylinder, change weight as follows:
   "32503200"

   In AS, Chevrolet Camaro (10-15), change weight as follows:
In AS, Ford Mustang Incl. Cobra & Cobra R (79-93), change weight as follows:
"34503400"

In AS, Ford Mustang Incl. Cobra thru 95 (94-98), change weight as follows:
"35503500"

In AS, Ford Mustang Cobra and GT (94-95) Restricted Prep. 5.0L V8 pushrod engine (Iron Block, Iron Heads), 2 valves per cylinder, change weight as follows:
"32503150"

In AS, Ford Mustang Cobra R (1995) Restricted Prep. 5.8L V8 pushrod engine (Iron Block, Iron heads), 2 valves per cylinder, change weight as follows:
"33503250"

In AS, Ford Mustang Cobra and GT (96-98) Restricted Prep. GT: 4.6L V8 OHC engine (Iron Block, Aluminum heads), 2 valves per cylinder Cobra: 4.6L dual OHC engine (Aluminum Block, Aluminum Heads), 4 valves per cylinder, change weight as follows:
"32003150"

In AS, Ford Mustang Cobra (99-02) Restricted Prep. 4.6L dual OHC V8 Aluminum Block, Aluminum Heads), 4 valves per cylinder, change weight as follows:
"32503200"

In AS, Ford Mustang Incl. Cobra (99-04), change weight as follows:
"35503500"

In AS, Ford Mustang GT (99-04) Restricted Prep 4.6L V8 OHC engine (Iron Block, Aluminum heads), 2 valves per cylinder, change weight as follows:
"32003150"

In AS, Ford Mustang Mach 1 (03-04) Restricted Prep. 4.6L V8 dual OHC (Aluminum Block, Aluminum Heads), 4 valves per cylinder, change weight as follows:
"32003150"

In AS, Ford Mustang GT (05-14), change weight as follows:
"36503600"

In AS, Ford Mustang Coupe GT 4.6L OHC (05-10) Restricted Prep. (Aluminum Block, Aluminum Heads), 3 valves per cylinder, change weight as follows:
"3200 275 Tire: 3150
295 Tire: 3200"
In AS, Ford Mustang Coupe GT HR 4.6L OHC (05-10) Restricted Prep. (Aluminum Block, Aluminum Heads), 3 valves per cylinder, change weight as follows:

"3200 275 Tire: 3150
295 Tire: 3200"

In AS, Mercury Capri (79-86), change weight as follows:
"313 CID 3450 3400"

**B-Spec**

1. #28171 (James Rogerson) Transmission cooler for automatic equipped cars

In B-Spec, Chevrolet Sonic 5dr Hatch (12-19), add Spec Line as follows:

<table>
<thead>
<tr>
<th>B-SPEC</th>
<th>Bore x Stroke(mm)</th>
<th>Wheelbase (mm)</th>
<th>Gear Ratios</th>
<th>Final Drive</th>
<th>Brakes (inches)</th>
<th>Weight (lbs)</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chevrolet Sonic 5dr Hatch (12-19)</td>
<td>80.5 x 88.2, 1796</td>
<td>2525</td>
<td>3.72, 1.96, 1.32, 0.94, 0.75 or 4.45, 2.91, 1.89, 1.44, 1.00, 0.74</td>
<td>3.94 or 3.47</td>
<td>(F)10.8 (R) 9.0 drum</td>
<td>2650</td>
<td>34mm flat plate restrictor required. GM suspension kit #23123679 permitted. Allow rear sway bar ZZ Performance #ZZ-SNCRSB. Alternate transmission ratio’s and final drive are for 6T40e automatic equipped cars only. For automatic allow Setrab 1-series Part No. FP119M221</td>
</tr>
</tbody>
</table>

In B-Spec, Chevrolet Sonic 4dr Sedan (12-19), change Spec Line as follows:

<table>
<thead>
<tr>
<th>B-SPEC</th>
<th>Bore x Stroke(mm)</th>
<th>Wheelbase (mm)</th>
<th>Gear Ratios</th>
<th>Final Drive</th>
<th>Brakes (inches)</th>
<th>Weight (lbs)</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chevrolet Sonic 4dr Sedan (12-19)</td>
<td>80.5 x 88.2, 1796</td>
<td>2525</td>
<td>3.72, 1.96, 1.32, 0.94, 0.75 or 4.45, 2.91, 1.89, 1.44, 1.00, 0.74</td>
<td>3.94 or 3.47</td>
<td>(F)10.8 (R) 9.0 drum</td>
<td>2650</td>
<td>32mm flat plate restrictor required. GM suspension kit #23123679 permitted. Allow rear sway bar ZZ Performance #ZZ-SNCRSB. Alternate transmission ratio’s and final drive are for 6T40e automatic equipped cars only. For automatic allow Setrab 1-series Part No. FP119M221</td>
</tr>
</tbody>
</table>
2. #28384 (B-Spec Committee) Spring Update for all models
In Fiat 500 (12-15), change Notes as follows:
"Allow Fiat suspension kit"

In Honda Fit (09-12), change Notes as follows:
"Allow Damper and spring set"

In Honda Fit (15-19), change Notes as follows:
"Allow Damper FR LH"

In Kia Rio 5-door/LX (12-19), change Notes as follows:
"Allow AKSJ03-10-001 Damper Frt Assembly"

In Mazda2 (10-14), change Notes as follows:
"Allow Coil over shock kit"

In Mini Cooper Hatchback (R50) (02 - 06), change Notes as follows:
"Allow KW: Coilover Kit"

In Mini Cooper (R56) (07-10), change Notes as follows:
"Allow L/F Strut-spring"

In Mini Cooper Clubman (R55) (07 - 10), change Notes as follows:
"Allow L/F Strut-spring assembly"

In Mini Cooper (2011-13), change Notes as follows:
"Allow L/F Strut-spring assembly"

In Mini Cooper Countryman (R60) (11-13), change Notes as follows:
"Allow L/F Strut-spring assembly"

In Mini Cooper Paceman (R61) (11-13), change Notes as follows:
"Allow L/F Strut-spring assembly"

In Mini Cooper Clubman (R55) (11-15), change Notes as follows:
"Allow L/F Strut-spring assembly"
In Mini Cooper Coupe (R58) (12-15), change Notes as follows: 
"Allow L/F Strut-spring assembly"

3. #28401 (James Rogerson) Request to Cleanup Sunroof Wording
In B-Spec Category Specifications, section 9.1.10.D., change as follows and renumber:
4. Cars with sunroofs must be retained on the vehicle and securely bolted in place unless operating rails adequately secure the panel.

Formula/Sports Racing

FA
1. #28720 (Formula/Sports Racing Committee) Remove redundant spec line in Table 1
In FA Table 1, remove the Volkswagen 1835cc SOHC spec line in its entirety.

2. #28772 (Formula/Sports Racing Committee) E&O general engine rules
In FA, GCR section 9.1.1.A.2.a, change as follows:
"Engines shall be derived from automobiles and may be prepared for competition in accordance with SCCA GT preparation rules, except as otherwise specified in the Tables below. OEM blocks and heads must be used except when otherwise noted in the FA Engine Tables below."

FE
1. #28814 (Robey Clark) FE spring rule update changed to November 1, 2020
In GCR section 9.1.1.I.2.h, change as follows:
"Effective June November 1, 2020, Part # WM203013 Front and Part # WM203014 Rear will be required for FE2 and optional for FE."

P1
1. #28731 (Formula/Sports Racing Committee) E&O minimum weights and intake manifolds
In P1, delete GCR section 9.1.8.C.J.1 as follows:
"Applicable minimum weights are specified in the P1 Engine Table."

In P1, GCR section 9.1.8.C.J.3, make changes as follows:
"Intake manifolds: individual runner, no plenum or balance pipes permitted are unrestricted on engines that do not require a flat plate intake restrictor unless using an SIR or otherwise noted on the engine spec line. Cars using an SIR may use any manifold type. Plenums and/or balance pipes are not permitted on engines that use an individual runner-type manifold and require a flat plate intake restrictor."

P2
1. #28669 (Mike Davies) SCCA Enterprises ESR / P2 engine restrictor testing
In GCR section 9.1.8.H.7.a, add a new part and renumber the section accordingly:
"15. 55mm flat plate intake restrictor Part # WM303013 as supplied by Enterprises"
In P2 Table 1, Enterprises Sports Racer spec line, change as follows:
"See ESR rules in GCR section 9.1.8. for complete specifications. Effective 4/1/2020, the ESR 2.3L engine must have either an SIR or a Flat Plate restrictor fitted that meets the peak horsepower specified by the SCCA. The SIR or Flat Plate restrictor must be sized in whole or 0.5mm increments. Dyno data also must be submitted for restrictors 1.0 and 2.0mm on either side of the restrictor size that permits the engine to meet the specified peak horsepower."

SRF
1. #28712 (Robey Clark) Update Bump Stop Rule
In GCR section 9.1.8.E.1.I, change as follows:
"NO MODIFICATIONS ALLOWED. Bump stop shall remain on shock but may be slit vertically to ease removal for shock adjustment. Effective May 1, 2020, only the SCCA Bump Stop P/N 280407 may be used, with no modification of any kind. Bump stops are optional. If used, only one bump stop per shock is permitted. The same brand of shock absorbers must be used in all shock absorber positions on the car."

In GCR section 9.1.8.E.1.X.h, change as follows:
"Shock Absorbers: Penske shock P/N 280396 with spec valving shall be used as a sealed assembly, with no modification of any kind. If shock seals are damaged in any way, the shock must be sent to an authorized SCCA Enterprises service center for verification and resealing at the competitor’s cost. Effective May 1, 2020, only the SCCA Bump Stop P/N 280407 may be used, as delivered with no modification of any kind; Bump stops are optional. If used, maximum of only one bump stop per shock is permitted. Effective 05/01/2020, only the SCCA bump stop P/N 280407 may be used as delivered with no modification of any kind; if used, maximum of one bump stop per shock."

GCR
1. #28499 (Greg Amy) GCR Technical Glossary -
In Appendix F, Technical Glossary, add new definitions as follows:
"Gurney flap - A small tab projecting from the trailing edge of a wing, typically set at a right angle."

"Wickerbill - (see Gurney flap)"

Grand Touring
GT2
1. #28576 (Craig Anderson) Request Corvette engine parity
In GT2, Chevrolet Corvette (-2019) 5665, add to the notes as follows:
"LS6 may reduce weight by 50 lbs."

GTL
1. #28754 (Grand Touring Committee) GTL Wing Rule
In GTL, GCR section 9.1.2.F.7.b.13.F, add as follows:
"Openings in the side view of the wing mounts are not included in the sq. inch limit."

SCCA Fastrack News May 2019 Page 19
GTX
1. #27057 (William Goodro) Request to Classify Lotus Evora GTS
In GTX, classify the Lotus Evora GTS as follows:

T1
1. #28060 (Chris Arbuckle) Additional Clarification on 996 Cup in T1 From Letter #28040
   In T1, Porsche 996 GT3 Cup, change years as follows:
   "(02-05) (98-04)"

2. #28182 (John Nguyen) Request SPEC Corvette Rear Spoiler
   In T1, Chevrolet Corvette Cadillac XLR, add to notes as follows:
   "Cars using OE bodywork may install SCRSPLR-001 Rear spoiler."

3. #28402 (Clark Nunes) T1 Rear Brake Rotor Size Exemption for Gen 5 Camaro
   In T1, Cadillac CTS/CTS-V Chevrolet Camaro Pontiac Firebird Pontiac GTO, add to the 6162 OEM chassis notes as follows:
   "Camaro OEM 366mm rear rotor and caliper allowed without weight penalty."

T2
1. #28421 (ALI SALIH) Please Add the Following BBK to Allowed List for E92 M3
   In T2, BMW E92 M3 (08-14), add to notes as follows:
   "AP Racing: Front Part Number 13.01.10038, Rear Part Number 13.01.10053 permitted."
2. #28433 (Steven Glaab) C5 Weight Adjustment
In T2, Chevrolet Corvette C-5 Incl. Fxd Cpe (98-04) Z06 (hardtop) (01-04), change weight as follows:
"3225 3175 (w/45mm flat plate restrictor)
3400 3350 (w 55mm flat plate restrictor, only permitted when using OEM Wheels and Stock Brakes)"

T2-T4
1. #28437 (Ryan Ciechanski) Z3M Roadster Weight
In T3, BMW Z3 M & Coupe, add years and change weight as follows:
"(98-99)"
"3350 3150"

T3
1. #28398 (Philip Di Pippo) 2015 + Ford EcoBoost Mustang Sway Bars
In T3, Ford Mustang EcoBoost (2015-), add to the notes as follows:
"Sway bars allowed up to 35mm (F) 25mm (R)."

In T3, Ford Mustang V6 (15-17), add to the notes as follows:
"Sway bars allowed up to 35mm (F) 25mm (R)."

T4
1. #28223 (David Mead) Request to change allowed header part # for T4 06-15 Miata
In T4, Mazda MX-5 / Club Model (06-15), change notes as follows:
"Allow Mazda header part numbers 0000-06-5407 or 0000-06-5407-NC."

CLUB RACING BOARD MINUTES | May 5, 2020

The Club Racing Board met by teleconference on May 5, 2020. Participating were Peter Keane, Chairman; David Arken, David Daughtery, Jim Goughary, John LaRue, Paula Hawthorne, Sam Henry, and Shelly Pritchett, secretary. Also participating were: Bob Dowie, Chris Albin, and Marcus Meredith, BoD liaisons; Eric Prill, Chief Operations Officer, Deanna Flanagan, Director of Road Racing, Rick Harris, Club Racing Technical Manager. The following decisions were made:

Member Advisory
None.

No Action Required

SM
1. #28850 (Sean Hedrick) in behalf of James Wetter, Request to remove stock oil pressure sending unit
Thank you for your letter. This request is already allowed in the GCR section 9.1.7.O.6
"Relocating/removal of the oil pressure sending unit in order to install an oil pressure gauge is permitted."

STL
1. #27939 (Jose De Miguel) Request to Remove Restrictor Plate From B16 and B18 Engines
Thank you for your letter. Please see letter # 28794 in the May 2020 Fastrack.

STU
1. #28099 (Thomas Wiegner) 2008 Subaru Impreza WRX STI
Thank you for your letter. All wheel and rear wheel drive cars are treated as a rear wheel drive car.

Not Recommended

B-Spec
1. #28679 (James Rogerson) Request to adjust weight on
Thank you for your letter. The BOP for the class was recently adjusted in the March FastTrack with letter #28394. No further adjustments are being considered at this time. Data collected during the season will be used to make future adjustments.

2. #28684 (Toni Daughtery) Request to restrict Sonic hatch to be in line with other cars
Thank you for your letter. The BOP for the class was recently adjusted in the March FastTrack with letter #28394. No further adjustments are being considered at this time. Data collected during the season will be used to make future adjustments.
3. #28685 (James Rogerson) Request Sonic Balance of Power
Thank you for your letter. The BOP for the class was recently adjusted in the March FastTrack with letter #28394. No further adjustments are being considered at this time. Data collected during the season will be used to make future adjustments.

4. #28690 (John Phillips) Request bop adjustment Chevy Sonic
Thank you for your letter. The BOP for the class was recently adjusted in the March FastTrack with letter #28394. No further adjustments are being considered at this time. Data collected during the season will be used to make future adjustments.

5. #28693 (Kent Carter) Sonic Needs a Restrictor Plate
Thank you for your letter. The BOP for the class was recently adjusted in the March FastTrack with letter #28394. No further adjustments are being considered at this time. Data collected during the season will be used to make future adjustments.

PX
1. #28063 (Scott Meyer) Request to Classify Modified Elan NP01 in PX
Thank you for your letter. The Club Racing Board does not recommend this change because the car is not within the intended performance envelope of the PX class. Members who wish to race an Elan NP01 using a modified Mazda 2.5L MZR may compete in the regional-only ASR class, provided the car meets the requirements of GCR section 9.1.8.B. Members who wish to race an NP01 in U.S. Majors Tour events may compete in the P2 class using a stock Mazda 2.0L MZR. Please see the response to letter #28812 in this Fastrack’s Technical Bulletin.

2. #28075 (Joseph Fagner) Request to Classify Modified Elan NP01 in PX
Thank you for your letter. The Club Racing Board does not recommend this change because the car is not within the intended performance envelope of the PX class. Members who wish to race an Elan NP01 using a modified Mazda 2.5L MZR may compete in the regional-only ASR class, provided the car meets the requirements of GCR section 9.1.8.B. Members who wish to race an NP01 in U.S. Majors Tour events may compete in the P2 class using a stock Mazda 2.0L MZR. Please see the response to letter #28812 in this Fastrack’s Technical Bulletin.

ITA
1. #28826 (Louis Boustani) Request to clarify Miata balljoint
Thank you for your letter. Request is not consistent with current class philosophy.

EP
1. #28524 (Kip VanSteenburg) Proposed Performance Penalties for Porsche and BMW
Thank you for your letter. The Club Racing Board would like to see the effect of these recent adjustments before any additional changes would be made. If the letter writer would like to submit some factual test data such as dyno or head flow plots, that would be incredibly helpful as the PAC continues to seek equal parity.
SM
1. #28796 (Justin Lee) Request aftermarket rear hubs
Thank you for your letter. The Club Racing Board does not recommend this at this time, but will continue to monitor.

2. #28851 (Sean Hedrick) in behalf of James Wetter, Request to remove transmission sensors
Thank you for your letter. The Club Racing Board does not recommend this change as the factory transmission sensors are critical to the gear selector mechanisms internal to the transmission.

STL
1. #28651 (Darrel Stein) 2019 Mazda MX-5 Global Cup Miata
Thank you for your letter. Please see letter # 28604 in June 2020 Fastrack.

STU
1. #28504 (Eric Heinrich) Request to classify 12-15 Audi S5 Supercharged in STU
Thank you for your letter. After a discussion on 3 separate calls, it has been determined it is too much for STU.

2. #28782 (John Weisberg) Request to add a list of eligible Manufacturer partners
Thank you for your letter. The rule as written is sufficient.

Recommended Items
The following subjects will be referred to the Board of Directors for approval. Address all comments, both for and against, to the Club Racing Board. It is the BoD’s policy to withhold voting on a rules change until there has been input from the membership on the presented rules. Member input is suggested and encouraged. Please send your comments via the form at www.clubracingboard.com.

B-Spec
1. #28787 (Josh Smith) Request for Mazda Motorsports Radiator
In B-Spec Spec Lines, Mazda2 (10-14), add to Notes as follows: "Allow Mazda part number - 0000-01-2501-CR Radiator."

GCR
1. #28653 (SCCA Staff) Update GCR Language - Change Practice Day to Test Day
In GCR, Section 3.1.5., change as follows:
“3.1.5. Practice SCCA Test Days”

“Practice SCCA Test Days are non-competition track days scheduled, sanctioned, and insured under standards included in AppB. Practice SCCA Test Days are conducted according to the GCR. This does not apply to track-run test days. In addition, the following standards apply:

A. Each driver is an SCCA member holding an SCCA Full Competition License, SCCA Pro License, Vintage License or an SCCA Novice Permit showing Drivers’ School requirements signed off as provided in AppC.2.7.D and F, or an SCCA approved license. A Novice Permit holder who is participating in an Alternative Drivers’ School may participate in SCCA Practice Test Days in accordance with the provisions of AppC.2.7.E.3.
B. 9.1 identifies the classes of cars eligible to compete in Practice SCCA Test Days.”

In GCR, Section 7.2., change as follows:
“A driver on probation may be restricted to competing in his Division; limited to competing in certain types of levels of events; or required to perform specified event related activities, including attending an SCCA Drivers’ School. Participating in SCCA Practice Test Days or SCCA events that are not sanctioned by SCCA Road Racing will not fulfill probation.”

In GCR, APPENDIX B, change as follows:
“A. The Division’s Race Schedule encompasses all road race activities, including U.S. Major Tour events, Regional Events, Drivers’ Schools, and Practice SCCA Test Days, Performance Driving Experience and TimeTrial events.”

In GCR, APPENDIX D, change as follows:
“3.1.5.E. A RD or CS is required for an SCCA sanctioned Practice Test Day.”

In GCR, INDEX, change as follows:
In P: “Practice Days 26”
In T: “Test Days 26”

SM
1. #28566 (James Wetter) Request to Remove Speedo Cable
In Section 9.1.7.8, add the following:
"k. Removal of speedometer cable is permitted."

STL
1. #28798 (Christopher Jurkiewicz) Request to remove BMW S14B20 factory ported head
In STL, Table B, remove BMW S14B20.

STU
1. #28784 (David Mead) Request to remove Mercedes CLK classification
In STU, remove Mercedes CLK classification.

Taken Care Of
T2
1. #28382 (Joe Aquilante) Request to Allow Coil Over Shocks on C5 And C6 Corvettes
Thank you for your letter. Please see letter #28824 in June 2020 Fastrack.
What Do You Think

**P1**

1. #28809 (Formula/Sports Racing Committee) Turbocharged engines
The Club Racing Board requests class stakeholder input on whether turbocharged engines should be allowed in the P1 class. Please reply via the CRB letter log system.

2. #28810 (Formula/Sports Racing Committee) Closed-cockpit, single-seat cars
The Club Racing Board requests class stakeholder input on whether closed-cockpit, single-seat cars should be allowed in the P1 class. Please reply via the CRB letter log system.

RESUMES

1. #28506 (Kent Carter) Request to be on the Advisory Committee
Thank you for your letter. The B Spec advisory committee is full right now. We will keep your letter on hand for when we have a vacancy.

2. #28795 (Jose De Miguel) Consideration for Super Touring Adv Comm
Approved for STAC

---

**TECHNICAL BULLETIN**

DATE: May 20, 2020  
NUMBER: TB 20-06  
FROM: Club Racing Board  
TO: Competitors, Stewards, and Scrutineers  
SUBJECT: Errors and Omissions, Competition Adjustments, Clarifications, and Classifications

All changes are effective 6/1/2020. If any day of a race event falls on the first day of the month, the previous month’s rules will be in effect for that event only. The new rules will become effective at the conclusion of the race event, unless otherwise noted.

American Sedan

None.

**B-Spec**

1. #28786 (Tony Roma) Request to change units on wheelbase for consistency with wording
In B-Spec, Spec Lines, change Chevrolet Sonic (12-19) Wheelbase as follows:
"99.42525"

In B-Spec, Spec Lines, change Fiat 500 (12-15) Wheelbase as follows:
"90.62300"
In B-Spec, Spec Lines, change Kia Rio 5-door/LX (12-19) Wheelbase as follows:
"101.2 2570"

In B-Spec, Spec Lines, change Mazda2 (10-14) Wheelbase as follows:
"98.0 2490"

In B-Spec, Spec Lines, change Mini Cooper (2011-13) Wheelbase as follows:
"97.1 2466"

In B-Spec, Spec Lines, change Nissan Versa (07-11) Wheelbase as follows:
"102.4 2600"

In B-Spec, Spec Lines, change Nissan Versa (09-11) Wheelbase as follows:
"102.4 2600"

In B-Spec, Spec Lines, change Nissan Versa (2012) Wheelbase as follows:
"102.4 2600"

In B-Spec, Spec Lines, change Nissan Versa (2013-) Wheelbase as follows:
"102.4 2600"

In B-Spec, Spec Lines, change Nissan Versa Note (2013-) Wheelbase as follows:
"102.4 2600"

In B-Spec, Spec Lines, change Toyota Yaris (07-12) Wheelbase as follows:
"96.9 2461"

In B-Spec, Spec Lines, change Toyota Yaris (12-18) Wheelbase as follows:
"98.8 2510"

In B-Spec, Spec Lines, change Toyota Yaris Sedan (2007-) Wheelbase as follows:
"100.4 2550"

**Formula/Sports Racing**

**FA**

1. #28831 (Formula/Sports Racing Committee) E&O permitted engine modifications

In FA, GCR section 9.1.1.A.2.b, change as follows:
"The following modifications are permitted unless restricted in the tables below."

In FA, GCR section 9.1.1.A.2.b.6, change as follows:
"The bore, crankshaft, stroke, and flywheel are unrestricted, provided the appropriate specified displacement limit is not exceeded, unless restricted in the tables below."
In FA, GCR section 9.1.1.A.2.b.9, change as follows:
"Any distributor and/or transistor ignition may be used, provided it’s installation does not require any modification of the engine."

In FA, GCR section 9.1.1.A.2.b.19, change as follows:
"The compression ratio may be increased by machining, using any head gasket(s), or eliminating of head gasket(s), unless otherwise noted in the FA Engine Table at http://www.scca.com/clubracing/content.cfm?cid=44472 tables below."

2. #28832 (Formula/Sports Racing Committee) E&O Transmissions
In FA, GCR section 9.1.1.A.3.a, change as follows:
"For all types of transmissions, no more than five forward speeds and an operational reverse gear shall be used unless otherwise noted in Table 2 below."

3. #28884 (SCCA Staff) Swift 016 Gurney flap wicker clarification
In FA Table 2, Swift 016 2.3 liter Mazda Duratec line, clarify wording as follows:
"Wickers: Wickers/gurneys Gurney flaps: Gurney flaps may be added to the top of the trailing edge of the front flaps, front main plane, and rear wing lower elements only, and but may not be used on the rear wing upper element. They must be 90 degrees to the mounting surface and may be no more 0.500 inch high as measured from the upper surface of the wing element. Wicker/gurney Gurney flap height must remain constant across the width of the individual component span. No saw tooth wickers/gurneys Gurney flaps are allowed. The trailing edge of wings and flaps may be drilled for the purposes of attaching wickers/gurneys Gurney flap."

FE
1. #28885 (SCCA Staff) FE Gurney flap wicker clarification
In FE, GCR section 9.1.1.I.2.F., clarify wording as follows:
"g. Wicker bill (Gurney flaps) are permitted as an option for installation on the trailing edge upper surface of the front wing secondary elements only, not the wing main plane.

h. Wicker bill (Gurney flaps) are permitted as an option for installation on the trailing edge upper surface of the wing element."
P2
1. #28812 (Formula/Sports Racing Committee) Classify Elan NP01 in P2 Table 1
In P2 Table 1, classify the Elan NP01 as follows:

<table>
<thead>
<tr>
<th>Marque</th>
<th>Wheelbase inches max/Track Max inches</th>
<th>Weight Displacement</th>
<th>Engine</th>
<th>Restrictor</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elan NP01</td>
<td>102/TBD</td>
<td>2000cc</td>
<td>P2 Engine Table Spec Line E stock</td>
<td>42mm</td>
<td>Body, front splitter, and rear wing must be either OEM or P2 compliant.</td>
</tr>
</tbody>
</table>

SRF
1. #28791 (Robey Clark) SRF Shocks
In GCR section 9.1.8.E.1.I, change as follows:
"NO MODIFICATIONS ALLOWED. Effective May 1, 2020, only the SCCA Bump Stop P/N 280407 may be used, with no modification of any kind. Bump stops are optional. If used, only one bump stop per shock is permitted. The same brand of shock absorbers must be used in all shock absorber positions on the car.

All shock absorbers must be sealed by Enterprises. Prior to sealing, the shock absorbers will be rebuilt by Enterprises or its authorized rebuilders."

GCR
1. #27385 (SCCA Staff) Request to Add Fire Bottle Re-certification Verbiage
In GCR Section 9.3.22. FIRE SYSTEM, make changes as follows:
Race Memo RM 20-04
"All cars shall be equipped with an On-Board Fire System except T3, T4, STL, Spec Miata, B-Spec, and Improved Touring. A. On-Board Fire System Requirements
It is recommended that all other cars employ onboard fire systems that meet the following requirements:

- Systems certified to SFI specification 17.1 or 17.2, or
- Those listed by the FIA on Technical List No. 16

The following information must be visible of the unit:

- Certification label
- Capacity
- Type of extinguishing agent
Weight, or volume, of the extinguishing agent

The following is acceptable for cars registered before 1/1/09:

On-board fire systems shall use Halon 1301 or 1211, with a five pound minimum capacity (by weight). Alternatively, on-board fire systems may use AFFF or equivalent surfactant foam material, 2.25 liter minimum capacity (by volume). All AFFF fire system bottles, except non-pressurized AFFF systems with CO2 propellant, shall incorporate a functional pressure gauge and shall be marked with the manufacturer’s recommended “filled weight.” CO2 cartridge propellant fire extinguishing systems are permitted provided that the seal of the manufacturer specified CO2 cartridge is not punctured and the fire bottle is equal to the weight specified by the system manufacturer.

Cars shall meet the following:

1. The fire system cylinder shall be securely mounted in such a manner that it can be checked during a technical inspection and may be removed for weighing periodically for compliance to full weight shown on the cylinder. (Weight is without valve assembly.)

2. Manual or automatic release is allowed. The release mechanism shall be within reach of the driver when belted in the car.

3. All on-board fire systems shall be identified with a circle “E” decal.
   a. In GT and Production cars, two circle “E” decals may be required— one at the release location and the second on the outside bodywork in line with or as near to the release location as possible.
   b. In Formula and Sports Racing cars, a circle “E” decal shall be located on the outside bodywork as near to the release location as possible.

4. There shall be a minimum of two nozzle locations—one in the driver’s compartment and one in either the engine area or the fuel cell area. The nozzles shall be suitable for the type of extinguishing agent used.

5. The firing safety pin(s) shall be removed from all on-board fire systems prior to going on track. It is recommended that a warning tag be attached to the safety pin to remind the driver to remove the safety pin before entering the racing surface.

6. All fire systems shall be serviced according to manufacturer’s specifications.”

2. #28681 (SCCA Road Racing) Request Two Week Cut-Off Date”

In GCR, Section 3.7.4.A.1., change as follows:
"Drivers in the following classes may replace participation in up to two (2) Majors weekends with SCCA Pro Racing weekends in the corresponding class. Drivers who substitute one (1) Majors weekend with an SCCA Pro Racing weekend must have three (3) Majors/Super Tour race finishes. Drivers who substitute two (2) Majors weekends with two (2) SCCA Pro Racing weekends must have two (2) Majors/Super Tour race finishes. Eligible Pro weekends shall occur between January 1st of that year and a date not less than two (2) weeks prior to the start of the Runoffs or as otherwise specified in the Runoffs supplemental
Drivers must request this replacement through the Road Racing Department, and pay the entry fee to the Majors event(s) of their choice, to be collected and distributed by SCCA.

In GCR, Section 3.7.4.A.2.c., change as follows:
"If a Division Championship is not concluded at the time of the Runoffs, invitations will be extended to competitors meeting the requirements at a period of time three to two weeks prior to the start of the Runoffs event. This allows Divisions to run programs year-round, if desired."

3. #28686 (Michael West) Race Director Authorities
In GCR, Section 5.12.2, change as follows:
"U.S. Majors Tour Race Director
In addition to the Chief Steward’s responsibilities and duties stated in 5.12.3., the US Majors Tour Race Director has the power:

A. To change the Schedule and/or Race Groups, in agreement with the organizing Region,

B. To correct any typographical or clerical errors or omissions (see 3.1.1.D.2.c and 3.1.1.D.2.d), or

C. To place a driver on probation per 7.2.G., but for no more than three event weekends.
For all other changes to the Supplemental Regulations or GCR violations requiring probation for more than three event weekends, the Race Director must file a Request for Action with the SOM. Stewards of the Meeting."

4. #28714 (Jim Rogaski) Road Racing Passing Guidelines
In GCR, Section 6.11.1.C, change as follows:
"C. Drivers must respect the right of other competitors to racing room. Drivers are entitled to one safe protective move. Once the one safe move is made, any abrupt changes in direction that impede or affect the path of another car attempting to overtake or pass may be interpreted as an effort to deprive a fellow competitor of the right to racing room."

In GCR Appendix, add Racing Room & Guidelines as Appendix P. as follows:

“Appendix P. Racing Room & Passing Guidelines

The Club Road Racing Program sincerely thanks Randy Pobst and Terry Earwood for developing these guidelines defining racing room and passing etiquette. Randy Pobst is a SCCA Hall of Fame member, a National Road Racing and Solo Champion, professional driver champion, and a very experienced driver’s coach. Terry Earwood is a legendary Skip Barber driver instructor, professional driver champion, professional driver’s coach, and is the current Driver Orientation Manager for the TransAm Racing Series.

The guidelines were created by Randy and Terry based on decades of racing experience and driver coaching. The guidelines represent what the Club Road Racing Program’s intent is for General Competition Rules Section 6.11., Rules of the Road.
1. Racing Room & Passing Guidelines

Safe, successful passing is based on what drivers can see. An overtaking car bears the largest percentage of responsibly for passing safely.

2. Peripheral Vision

The overtaking car (the car attempting a pass) must get into the peripheral vision of the lead car (the car being passed) in the brake zone, before the lead car turns for the corner. Once the lead car turns for the corner, it can no longer see the trailing car, because the lead car’s mirrors now point outside, and the lead car is looking toward the apex.

The diagram above shows that the overtaking car has gotten up to the A pillar and into the peripheral view of the lead car before turn in. The overtaking car now has taken the line away and earned the right to racing room on the inside.

To earn the corner, the overtaking car must have its front end up to at least the A pillar post, or windshield, with the car under control, before the lead car turns into the corner. The goal is for the overtaking car to present itself, to arrive in the peripheral vision of the lead car, before it turns in.

An overtaking open-wheel car should have its front wheel up to at least the lead car driver’s shoulder (within their peripheral vision) before the lead car begins its turn in.

3. The Blind Spot
The diagram above shows at the lead car’s turn in point the overtaking car has yet to get even with the A pillar and into the peripheral vision of the lead car. The overtaking car is in a blind spot. Do not pass, unless the lead car is much slower and gives racing room.

4. Racing Room

Should the lead car decide to ‘go with him’, side-by-side, then both cars must allow each other racing room, at least a car width plus six inches or so, to the edges of the racing surface. In both cases, the trailing car must be in the lead car’s peripheral vision to safely hold position. If not in vision, then the trailing car must back off and follow, because the lead car cannot see it.

The biggest mistake, and a common cause of contact, is the overtaking car taking a shortcut to the apex, from that blind spot (Turn One at Road Atlanta is classic). Pull parallel to the lead car, and as close as safely possible so that he KNOWS you’re there. Sometimes, the lead car may turn in early; therefore the overtaking car must be under enough control to avoid contact.

5. Passing on Straights

On straights, the lead car is allowed “one safe move”. It is allowed to choose a side, but cannot move back, and cannot move over in reaction to an overtaking car if late enough to invite contact. It must leave a car’s width (plus 6 inches) of racing room if the overtaking car has already committed in that direction and has achieved an overlap next to the leader. No weaving to break the draft or to block; that’s more than one move. On straights, as opposed to corner entry, it is possible for the lead car to look into its mirrors and see the overtaking car, so if the overtaking car gets even a small overlap next to the lead car, the lead car must give the overtaking car room to race, and can no longer move across the track.
When being passed, hold your line. This means be predictable, and do not change your line to pull out of the way. ‘Hold your line’ does not mean take the line for the apex and turn in front when a much faster car is approaching. Be aware of faster traffic, and leave a lane of racing room for them.

6. The Vortex of Danger
The Entry Vortex of Danger is a triangle inscribed by the turn-in point of the lead car, the apex, and the inside edge of the road. When overtaking, keep out of the Vortex of Danger. It’s too late to pass. The hole you see is closing rapidly, you are in a blind spot, there will likely be contact, and it will be your fault.

The Exit Vortex of Danger is a triangle inscribed by the apex, the track-out point of the lead car, and the outside edge of the road. When attempting a pass on the outside, be aware of the Exit Vortex of Danger, and back out of it if not in the lead car’s vision. It’s too late to safely pass. The hole you see on the outside is closing rapidly, you are in a blind spot, there will likely be contact, and it will be your fault.

7. The Outside Pass
On this outside pass attempt, the overtaking outside car never presents itself into the vision of the lead car, and cannot expect it to make room for a car it cannot see at the exit of the turn. So the outside trailing car must back off to leave racing room for the inside lead car that cannot see it, and avoid the Exit Vortex of Danger. In this situation, if the outside car makes contact or runs off the road, it is most likely their fault.

Turn 5 at Road America is a prime example of where a lead car may protect his line by not using all of the track on the right. The overtaking car, in this example, needs to clearly ‘present himself’ in the braking zone before turn in, because the lead car is looking into the corner, not at his right mirror, and in all probability will not leave racing room at the exit. Outside passing works well when both drivers have excellent spatial awareness but is a very low percentage move in most cases.

Safe, successful passing depends on what a driver can see. Do not hit what you can see!

5. #28734 (SCCA Road Racing) Appendix B and Appendix C updates
In GCR, Appendix B 1.3.3., change as follows and re-letter:
"B. Names of students
E. Brief outline of the training components/schedule
F. Approval letter from one of the following: by the Divisional Executive Steward or his designee.
   a. Divisional Chief Driving Instructor
   b. Divisional Driver Licensing Administrator
   c. Certified Driving Instructor (list of who is considered Certified to be provided by Divisional Chief Driving Instructors)
   d. Executive Steward"

In GCR, Appendix C 2.7.E., change as follows:
"3. Alternative Drivers’ Schools- Chief Driving Instructors and or Divisional Licensing Chairmen should coordinate with the Divisional Executive Steward and the Chief Steward of the event to ensure that the prospective student has had the proper ground school before the event and the right attitude and capabilities to complete the program. This is especially important for novice drivers with little or no prior experience.

At the request of the Divisional Chief Driving Instructor, or Divisional Driver Licensing Administrator, or Certified Driving Instructor or Divisional Executive Steward, and approval by the Divisional Executive Steward, a Novice Permit holder may be offered an alternative path to an SCCA Full Competition or Vintage license under the following conditions:"

6. #28849 (SCCA Staff) Annual Technical Inspection Expiration Extension
In GCR Section 5.9.2.A Annual Inspection, add verbiage as follows:
Race Memo RM 20-03
“In anticipation of the large number of drivers who will need an Annual Technical Inspection when racing resumes and a likely reduction in volunteers, we are proposing the following temporary change to annual inspection expiration dates.

In GCR Section 5.9.2.A Annual Inspection, add verbiage as follows:
A car must have full and complete Annual Technical Inspection by a tech inspector holding either a Divisional, National or Senior license once a year (12 months). For 2020 only, current annual technical inspections will be extended 3 months past their original expiration date (valid for a total of 15 months). All expiration extensions will end on 12/31/2020. For example, an original expiration date of June 15, 2020 will have an extended expiration of September 15, 2020. All inspections with an original expiration date between September – December 2020, will have an extended expiration date of 12/31/2020. If the car passes the inspection, the tech inspector enters the date of the safety harness expiration in the Vehicle Logbook and then stamps, decals, or inscribes approval; dates and signs the Vehicle Logbook. The driver’s safety equipment does not have to be inspected at the same time the car is inspected, but it must be inspected by or at the driver’s first race of each calendar year. An Annual Tech expiring on a race weekend is valid for the full weekend. (See 9.3. Driver’s Safety Equipment) 

Note: This extension does not extend the expiration dates for Safety Equipment (Seat belts, Fire systems, etc.).

Reference Table for Expiring Annual Inspections:

<table>
<thead>
<tr>
<th>Original Expiration</th>
<th>New Expiration</th>
</tr>
</thead>
<tbody>
<tr>
<td>March 2020</td>
<td>June 2020</td>
</tr>
<tr>

<tr>
<td>August 2020</td>
<td>November 2020</td>
</tr>
<tr>
<td>September 2020</td>
<td>December 2020</td>
</tr>
<tr>
<td>October 2020 (eligible for 2-month extension)</td>
<td>December 2020</td>
</tr>
<tr>
<td>November 2020 (eligible for 1-month extension)</td>
<td>December 2020</td>
</tr>
<tr>
<td>December 2020 (no extension)</td>
<td>December 2020</td>
</tr>
</tbody>
</table>

Suggested guidelines for Regions:

- Work with shops and regions to sponsor open house tech days
- Schedule additional time pre-event for annual inspections
- Depending on event tech staffing and demands, assign one or two tech inspectors to perform annual inspections only during the event weekend
Grand Touring

GT2
1. #28739 (Christopher Childs) Request to Adjust Weight of OEM 8.4 Viper
In GT2/ST, Dodge Viper, incl Comp Coupe, ACR/ ACR-X 8400 OEM, change Min. Weight as follows:
"3325 3275"

2. #28896 (Club Racing Board) Request to Adjust Weight of OEM Chevrolet Corvette
In GT2/ST, Chevrolet Corvette (-2019) 7011 OEM, change Min. Weight as follows:
"3325 3275"

GT3
1. #28808 (Roger Welling) Request Nissan KA24E specifications
In GT3, Engines - NISSAN, KA24E, change as follows:
"For 2011-2012 only, may use 32mm chokes at 2280 lbs."

GTL
1. #28709 (Chris Doodson) Stall Test
In Appendix F., SIR testing procedure, change as follows:
"The system is to be tested as is and the result is considered “as qualified or raced”. It is the responsibility of the competitor to present a system that can withstand every possible scenario that would or could result in a failed SIR stall test. The intake system shall be visually inspected for devices and design that could result in induction of additional air that did not pass through the SIR. Introduction of air behind the SIR by any means is prohibited. All inspections must be done in "as qualified or raced" condition."

GTX
1. #28333 (Robert Blizzard) Request to Re-classify SP Stock car to GTX
In GTX, 9.1.2.H.B.4., change as follows:
"GTX tube frame cars will consist of currently classified GT1 cars with improved aerodynamics, wheels, brakes and limited fuel injection systems. Stock car bodies permitted. GTX tube frame cars must weigh 2780 pounds."

Improved Touring
None.

Production
1. #28708 (Bill Lamkin) BMW Cylinder Head Casting and Part Numbers
In EP, correct the following spec lines as shown:
BMW Z3 2.5L, add to "Notes" section:
"Cylinder head casting number 1738400 permitted with use of the allowed iron block (casting number 1748933-C)."

BMW Z3 2.8L (97-00), modify "Block Mat'l" section:
"Alum or Iron"
BMW 328i/is E36 (96-99), modify "Block Mat'l" section: "Alum or Iron"

BMW 328i/ci E46 (01-06), modify "Block Mat'l" section: "Alum or Iron"

BMW 325i/is E46 (01-06), modify "Block Mat'l" section: "Alum or Iron"

BMW 325i/is E36 (92-95), modify "Block Mat'l" section: "Alum or Iron"

FP

1. #28892 (SCCA Staff) Correct Scirocco Spec line E&O
In FP, Volkswagen Scirocco, E&O, add to the spec line as follows:
Weight (lbs):

- 1520
- 1663
- 1783
- 1853

Bore x Stroke mm.(jn.):

- 76.5 x 80.0
- 79.5 x 80.0
- 79.5 x 86.4
- 81.0 x 86.4

Displ. cc(CI) (nominal)

- 1471
- 1588
- 1715
- 1780

Spec Miata
None.

Strategic Planning
None.

Super Production
None.
Super Touring

STL

1. #28604 (Josh Smith) Request to add 2016-2019 GMX-5 Spec line
   In STL, classify the Mazda MX-5 Global Cup (16-18) as follows:

<table>
<thead>
<tr>
<th>STL</th>
<th>Maximum Displacement (cc's)</th>
<th>Minimum Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mazda MX-5 Global Cup (16-18)</td>
<td>2000</td>
<td>2450</td>
<td>Must meet all MX-5 Global Cup rules. Any OEM or aftermarket hardtop is permitted that retains the OEM silhouette. If a hardtop is used, latches shall be replaced with positive fasteners. OBD2 requirement does not apply. Ballast box may be removed. Tires per STL rules.</td>
</tr>
</tbody>
</table>

   In STL, classify the Mazda MX-5 Global Cup (2019) as follows:

<table>
<thead>
<tr>
<th>STL</th>
<th>Maximum Displacement (cc's)</th>
<th>Minimum Weight</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mazda MX-5 Global Cup (2019)</td>
<td>2000</td>
<td>2550</td>
<td>Must meet all MX-5 Global Cup rules. Any OEM or aftermarket hardtop is permitted that retains the OEM silhouette. If a hardtop is used, latches shall be replaced with positive fasteners. OBD2 requirement does not apply. Ballast box may be removed. Tires per STL rules.</td>
</tr>
</tbody>
</table>

2. #28622 (SCCA Staff) Request to update PN for MX-5
   In STL, Mazda MX-5 / Club Model (06-15), make changes as follows:
   "Allow Mazda header part number 0000-06-5407-NC."

3. #28873 (Club Racing Board) Correction - Clarification Honda/Acura B18B engine Letter # 26209
   In STL, Table A, Acura/Honda B18 (except C engine) change as follows:
   "Acura/Honda B18 (except C1-engine)"

   In STL, Table A, Acura/Honda B18 (except C engine) change Notes as follows:
   "53-54 mm"

   In STL, Table A, Acura/Honda B18C (JDM Type R), B18C1, B18C5 (USDM Type R), B18C6 (UK and Euro Type R), B18C7 (Australia Type R) change as follows:
   "Acura/Honda B18C (JDM Type R), B18C1, B18C5 (USDM Type R), B18C6 (UK and Euro Type R), B18C7 (Australia Type R)"
In STL, Table A, Acura/Honda B18C (JDM Type R), B18C1, B18C5 (USDM Type R), B18C6 (UK and Euro Type R), B18C7 (Australia Type R)) change Notes as follows: "5453mm"

STU
1. #27833 (Nick Leverone) Rotary Help
In STU, Mazda 13B Bridge Port, add Spec Line as follows:

<table>
<thead>
<tr>
<th>STU Engines - Mazda</th>
<th>Engine Type</th>
<th>Stoke (mm)</th>
<th>Disp. (cc)</th>
<th>Head Type</th>
<th>Valves / Cyl.</th>
<th>Fuel Induction</th>
<th>Weight (lbs)</th>
<th>Notes</th>
</tr>

</tr>
</tbody>
</table>

Touring
T2
1. #28824 (Touring Committee) Consider coil spring conversion Corvette in T2
In T2 Spec Lines, Chevrolet Corvette C-5 Incl. Fxd Cpe (98-04) Z06 (hardtop) (01-04), add to Notes as follows:

"Aftermarket leaf spring suspension allowed 800 lb max. Coilover suspension allowed coil springs allowed 800 lb max."

In T2 Spec Lines, Chevrolet Corvette C6 Coupe / Grand Sport (05-13), add to Notes as follows:

"Aftermarket leaf spring suspension allowed 800 lb max. Coilover suspension allowed coil springs allowed 800 lb max."
In T2 Spec Lines, Chevrolet Corvette Z06 (06-12), add to Notes as follows:
"Aftermarket leaf spring suspension allowed 800 lb max. Coilover suspension allowed coil springs allowed 800 lb max."

In T1 Spec Lines, Chevrolet Corvette Z06 (06-12), change Notes as follows:
"Leaf spring suspension may be converted to conventional coilover suspension in T1 only."

### T2-T4

1. #27663 (Robert Gary) Request to Classify 2004 Mercedes Benz 320 CLK

In T4, classify the 2004 Mercedes Benz CLK 320 Coupe as follows:

<table>
<thead>
<tr>
<th></th>
<th>Bore x Stroke(mm) / Disp. (cc)</th>
<th>Wheelbase (mm)</th>
<th>Wheel Size(in.) / Mat'l</th>
<th>Tire Size (max)</th>
<th>Gear Ratio</th>
<th>Final Drive</th>
<th>Brake S (mm)</th>
<th>Weight (lbs)</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>2004 Mercedes Benz CLK 320 Coupe</td>
<td>89.9mm x 84mm 3299cc</td>
<td>2690mm</td>
<td>17 x 8</td>

<td>3.95, 2.42, 1.49, 1.00, .83</td>
<td>3.07</td>
<td>300 mm (f), 290 mm (R)</td>
<td>3200</td>
<td>EIBACH PN# 2563.140 allowed</td>
</tr>
</tbody>
</table>

### T3

1. #28145 (Ben Slechta) Request Nissan 350Z Part Number change

In T3 Spec Lines, Nissan 350Z Track/Touring/Standard/Nismo (03-08), change Notes as follows:
"Nissan brake kit part numbers 41000-BRKIT, NISMO Race Front Caliper Kit 41001-FR350, NISMO Front Rotor-RIGHT 40206-SZ350, NISMO Front Rotor-LEFT 40207-SZ350 permitted."

In T3 Spec Lines, Nissan 350Z Track/Touring/Standard/Nismo (03-08) Spec 2, change Notes as follows:

### COURT OF APPEALS

None to report.
The Club Racing Board met by teleconference on June 2, 2020. Participating were Peter Keane, Chairman; David Arken, David Daughtery, Jim Goughary, John LaRue, Sam Henry, Tony Ave, and Shelly Pritchett, secretary. Also participating were: Bob Dowie, Chris Albin, and Marcus Meredith, BoD liaisons; Eric Prill, Chief Operations Officer, Deanna Flanagan, Director of Road Racing, Rick Harris, Club Racing Technical Manager, and Scott Schmidt, Technical Services Assistant. The following decisions were made:

**Member Advisory**
None.

**No Action Required**

**FV**
1. #28864 (Jonathan Weisheit) WDYT Steering rack - Supports Letter #28697
   Thank you for your letter. Please see the response to letter #28697 in this Fastrack.

2. #28890 (Graham Loughead) Oppose Allowing Aftermarket Steering Racks
   Thank you for your letter. Please see the response to letter #28697 in this Fastrack.

**GCR**
1. #28939 (Ralph Provitz) GCR Appendix, add Racing Room & Guidelines
   Thank you for your letter. The intent of the guidelines is to have drivers realize that they should not hit what they can see and it takes two cooperating drivers to successfully complete a pass.

**Prod General**
1. #28893 (Mike Ogren) Brakes Feedback.
   Thank you for your feedback. The survey results are still being gathered, and its results will be the primary driving force for any changes that may occur.

**Not Recommended**

**F**
1. #28938 (Andy Kilcoyne) Request ignition distributor clarification
   Thank you for your letter. The Club Racing Board does not recommend this change because an electronically programmable ignition advance curve could provide a performance advantage.

**F5**
1. #28817 (Scott Thorp) Request performance adjustments for Rotax 494/493 Powered Cars
   Thank you for your letter. These changes are not recommended. The Club Racing Board has adjusted the minimum weight and inlet restrictor on 600cc motorcycle-engine cars and the Board of Directors has...
approved the use of external jetting devices on two-cycle cars. Time needs to be afforded these changes to evaluate their effectiveness in promoting competition between the two platforms.

**FV**
1. #28697 (Chris Zarzycki) Request Consideration of Aftermarket Steering Racks
   Thank you for your letter. The Club Racing Board does not recommend this change because there is no evidence of a supply problem with the VW steering box and the WDYT provided no indication that a majority of competitors would be in favor of allowing aftermarket steering racks.

**GCR**
1. #28788 (James Ray) Request for class letters front & rear
   Thank you for your letter. This request would not work on all cars, Formula cars as an example. Additionally, there is no rule that prevents a driver from voluntarily adding additional class identifications to their cars.

**GT2**
1. #28878 (Mitch Marvosh) Request to revisit TA2 Car Weight in GT2
   Thank you for your letter. The CRB will continue to monitor the performance within GT2/ST

**Recommended Items**
The following subjects will be referred to the Board of Directors for approval. Address all comments, both for and against, to the Club Racing Board. It is the BoD’s policy to withhold voting on a rules change until there has been input from the membership on the presented rules. Member input is suggested and encouraged. Please send your comments via the form at www.clubracingboard.com.

**FV**
1. #28955 (Formula/Sports Racing Committee) Allow 4-bolt pattern wheels from 1967-1973 Type 1
   In GCR section 9.1.1.C.3.C, make changes as follows:
   "Wheels shall be standard fifteen (15) inch X 4J as used on the 1200cc and 1300cc VW sedan as defined herein or 1967-1973 Type 1, or any steel fifteen (15) inch X 4.5J VW wheel with the same 5-bolt pattern as the standard fifteen (15) inch X 4J wheel or 4-bolt pattern of the 1967-1973 Type 1, all within the track dimensions of C.2. Wheels may be balanced only by the use of standard automotive balance weights (adhesive or clip on). Hub cap clips shall be removed."

**Taken Care Of**
**FV**
1. #28911 (Albert Spadin) Request for Disc Brakes
   Thank you for your letter. The disc brake system referenced is already permitted in FV, and the prohibition of wheel spacers was previously removed. Please see the response to letter #26674 in the May 2019 Fastrack Technical Bulletin.

**What Do You Think**
RESUMES
1. #28894 (Mike Ogren) I'd like to put my name in for the Prod Board
Thank you for your interest. At this time the Committee does not have any open positions that it is
looking to fill. However, your willingness to serve will be kept in mind, if such an opening does become
available.
DATE: June 20, 2020
NUMBER: TB 20-07
FROM: Club Racing Board
TO: Competitors, Stewards, and Scrutineers

SUBJECT: Errors and Omissions, Competition Adjustments, Clarifications, and Classifications

All changes are effective 7/1/2020. If any day of a race event falls on the first day of the month, the previous month's rules will be in effect for that event only. The new rules will become effective at the conclusion of the race event, unless otherwise noted.

American Sedan
None.

B-Spec
None.

Formula/Sports Racing
None.

GCR

1. #28526 (SCCA Road Racing) Multiple Class/Duplicate Car Numbers
   In GCR, 4.4.2, Entering Multiple Classes, add the following:
   “If both classes are in the same run group, a separate entry for each class and unique car # is required. Note: A car may only compete (earn points) in one class per race and must use the number associated with the unique entry for that class in that race.”

   In GCR, 9.3.29.A Numbers and Class Letters, add the following:
   “Duplicate car numbers within the same run group is prohibited. See also GCR section 6.4.1.A.”

2. #28733 (SCCA Road Racing) Update Appendix B Alternative Driver School Sanction Process
   In Appendix B., Sanctioning for Alternative Drivers’ Schools, change as follows:
   “A. Sanction Application Form
   B. Names of students
   C. Name(s) of approved Instructor(s)
   D. Dates of “school” elements (classroom/on-track)
   E. Brief outline of the training components/schedule
   F. Approval by the Divisional Executive Steward or his designee. Letter from one of the following:
   a. Divisional Chief Driving Instructor
   b. Divisional Driver Licensing Administrator
c. Certified Driving Instructor (list of who is considered Certified to be provided by Divisional Chief Driving Instructors)
d. Executive Steward”

Grand Touring
GT General
1. #28874 (SCCA Staff) TA2 Gurney flap wicker clarification
In Appendix L TA2 Rules, clarify wording as follows:
“4.8.4.10.1.1: The maximum height of the wing, including end plates and wicker Gurney flap, can be no greater than the highest point on the roof. The roof may not be altered or pushed up to increase its height.”

“4.8.4.10.1.5: The wing end plates must fit within a rectangle measuring 11.00 inches long by 4.00 inches tall. All wing elements, including the wicker bill Gurney flap, must be kept within the profile of the end plates. The endplates must be mounted parallel to the vehicle centerline, and must be perpendicular to the ground. Endplates must be flat, with no curvature or Gurney tabs flap.”

“4.8.4.10.1.6: A wicker bill (Gurney flap) may be added to the wing element. It must be a uniform shape across the complete width of the wing. No air may pass between the wicker bill Gurney flap and the wing. It must form a 90 degree angle with the wing surface. The size of the wicker bill Gurney flap cannot exceed 0.50 inch high as measured from the wing surface. The thickness of the wicker Gurney flap material must be 0.625 inch.”

“4.8.4.10.2.4: The dog leg style Howe endplates must be used without modification. All wing elements, including the wicker bill Gurney flap, must be kept within the profile of the end plates. The endplates must be mounted parallel to the vehicle centerline, and must be perpendicular to the ground. Endplates must be flat, with no curvature or Gurney tabs flap.”

“4.8.4.10.2.5: A wicker bill (Gurney flap) may be added to the upper wing element. It must be a uniform shape across the complete width of the wing. No air may pass between the wicker bill Gurney flap and the wing. It must form a 90 degree angle with the wing surface. The size of the wicker bill Gurney flap cannot exceed 0.375 inch high as measured from the wing surface. The thickness of the wicker Gurney flap material must be 0.0625 inch.”

“4.8.4.10.3.4: The dog leg style Howe endplates must be used without modification. All wing elements, including the wicker bill Gurney flap, must be kept within the profile of the end plates. The endplates must be mounted parallel to the vehicle centerline, and must be perpendicular to the ground. Endplates must be flat, with no curvature or Gurney tabs flap.”

“4.8.4.10.3.5: A wicker bill (Gurney flap) may be added to the upper wing element. It must be a uniform shape across the complete width of the wing, and must be kept within the profile of the end plates. It must form a 90 degree angle with the wing surface. The size of the wicker bill Gurney flap cannot exceed 0.375 inch high as measured from the wing surface. The thickness of the wicker Gurney flap material must be 0.0625 inch.”
2. #28883 (SCCA Staff) STO Gurney flap wicker clarification
In Appendix K, STO, clarify wording as follows:
B.2.a.: "Wings shall be a single element with a maximum chord length of 12.00 inches, including any wicker Gurney flap."
B.2.c.: "The entire rear wing assembly, including the end plates and any wicker Gurney flap, shall be mounted level with, or below, the peak of the roof."

3. #28909 (SCCA Staff) GT Gurney flap wicker clarification
In GT, GCR section 9.1.2.F.7.b.12., clarify Gurney flap as follows:
"D. The use of fences, end rails, Gurney flaps, wickerbills, or other forward facing lips or aerodynamic devices is prohibited."
"E. A maximum 0.50 inch Gurney tab flap is allowed at the trailing edge of the wing element. The tab must be mounted 90 degrees to the upper wing surface. No air may pass between the tab and the wing. The endplates must be mounted parallel to the vehicle centerline, and must be perpendicular to the ground. Endplates must be flat, with no curvature or Gurney tabs flaps."
"GT3: The maximum width of the entire wing assembly (wing element, endplates, Gurney tab flap and mounting hardware) is 64.00 inches, but no wider than the rear body width including fender flares."

In GT, GCR section 9.1.2.F.7.b.13., clarify Gurney flap as follows:
"A. Endplates must be flat, with no curvature or Gurney tabs flap. A maximum 0.5-inch wickerbill Gurney flap may be employed."

In GT, GCR section 9.1.2.F.7.b.15.D., clarify Gurney flap as follows:
"2. Rear Wing: Wings shall be a single element with a maximum chord length of 12.00 inches, including any wicker Gurney flap."
"4. The entire rear wing assembly, including the end plates and any wicker Gurney flap, shall be mounted level with, or below, the peak of the roof."

GT1
1. #28886 (SCCA Staff) GT1 Gurney flap wicker clarification
In GT1 Specifications, section D, clarify wording as follows:
"The use of fences, end rails, Gurney lips flaps, wickerbills, or other forward facing lips or aerodynamic devices is prohibited."

In GT1 Specifications, section E, clarify wording as follows:
"A maximum 0.50 inch Gurney tab flap is allowed at the trailing edge of the wing element."
"Endplates must be flat, with no curvature or Gurney tabs flaps. The maximum width of the entire wing assembly (wing element, endplates, Gurney tab flap, and mounting hardware) is 72.00 inches. In keeping in line with "Trans Am body work is legal in GT1", An alternate rear wing of 12” average chord
length and maximum 72” long is allowed, with a maximum 1/2” tall wicker Gurney flap, additionally endplates having a maximum size of 100 square inches."

**GT3**

1. #28842 (Bryan Floyd) Request to add Mazda 12A Peripheral Port to GT3 rule set

   In GT3, Mazda, add new classification as follows:

<table>
<thead>
<tr>
<th>Engine Family</th>
<th>Engine Type</th>
<th>Bore (mm)</th>
<th>Stroke (mm)</th>
<th>Disp. (cc)</th>
<th>Valve Type</th>
<th>Fuel Induction</th>
<th>Weight (lbs)</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>12A</td>
<td>Peripheral Port</td>
<td></td>
<td>229</td>
<td>2</td>
<td>37mm</td>
<td>SIR</td>
<td>2300</td>
<td>Disenfranchise d GT2*</td>
</tr>
</tbody>
</table>

2. #28931 (Grand Touring Committee) GT3 4v SIR size increase.

   In GT3, Spec Lines, 4v, 4 cylinder pistons engines with SIR, change Fuel Induction as follows:

   **ACURA**
   
   F20C: "31 32"
   K20A: "31 32"
   K24: "31 32"

   **AUDI**
   
   DOHC w/1984cc: "31 32"

   **BMW**
   
   DOHC w/1895cc: "31 32"
   DOHC w/2302cc: "31 32"

   **CHEVROLET**
   
   DOHC w/1998cc: "31 32"

   **CHRYLER/DODGE/PLYMOUTH**
   
   DOHC w/1997cc: "31 32"

   **FORD**
   
   DURATECH "31 32"

   **HONDA**
   
   F20C: "31 32"
   K20A: "31 32"
   K24: "31 32"

   **MITSUBISHI**
DOHC w/1997cc: "31 32"
DOHC w/2378cc: "31 32"

NISSAN
QR25DE/DD: "31 32"
SR20DE/VE: "31 32"
KA24DE: "31 32"

Touring
T3
1. #28763 (Benjamin Merwin) SADEV Sequential Gearbox
In T3 Spec Lines, Mazda MX-5 Global Cup Miata change car and notes as follows:
"(2016-2019) ND2"
"Must meet all ND2 MX-5 Global Cup rules in Appendix."

2. #28802 (Allen Briere) Request for competition adjustment for the MK5 GTI FSI engine
In T3 Spec Lines, Volkswagen GTI, Jetta GLI (06-10), change notes as follows:
"Front and rear sway bar max 42mm (body and suspension mounting same as OEM), Any spring up to a maximum spring rate of 800 pounds may be used. Turbo Inlet Restrictor 35mm allowed max 60mm from impeller. R32 model brake package allowed. Any 4 piston Stoptech brake kit (max 355mm) incl. 2-piece rotors allowed (+50lb) ECS street shield 003425EC501AKT allowed. Neuspeed intake and filter # 65.10.97 allowed or OEM Air Intake and filter -25 lbs."

T4
1. #28941 (Touring Committee) T4 RX8 bodywork clarification
In T4 Spec Lines, Mazda RX-8 Base/R3/Sport/ GT (04-12), add to notes as follows:
"OE Rear spoiler allowed #F151-V4-920F. OE front air dam allowed #F151-V4-900f-BB."

2. #28942 (Touring Committee) 2006-2015 MX-5 Clarification
In T4 Spec Lines, Mazda MX-5 / Club Model (06-15) change Notes as follows:
"The following items must remain stock OEM unmodified, unless alternate part numbers are permitted below: original wheels (06-15 factory wheels are allowed), and transmission, differential, and LSD."
