

SCCA Members -

We are evolving! Want a voice? Want to be a part of shaping your Club?

We are opening an easier path to be considered for Road Racing advisory committee positions who have the important job of guiding, advising and leading change and direction for road racing classes and categories. Volunteering for an advisory committee will help inject your new ideas and experience into this process.

All you need to do is send in your resume to join the technical side of the Club. Your resume will go DIRECTLY to the Club Racing Board for committee appointment consideration, which is a NEW process. This improved process flow is designed to increase transparency between members, committees and the CRB and encourage more overall member participation.

Visit www.crbscca.com to submit your resume. If you have previously submitted a resume, we encourage you to re-submit using the above link. Please include the following information:

- *Name, Region of Record, Contact Information*
- *Class you want to represent*
- *SCCA Experience*
- *Non-SCCA Experience*
- *What do you do for a living?*
- *Related key technical experience*

We hope you consider getting involved to keep the Club moving in a positive direction. The Club Racing Board will be available at your Category/Class Town Hall meetings during the 2021 SCCA Runoffs, if you have questions.

Thank you,
The Club Racing Board
