

SCCA Racers, Welcome to Frederick Oklahoma

All of you have GPS navigation, but some visuals of where you are going once you are at the airport might be helpful. We don't want racecars wandering around the active airport. Do not drive anywhere in the area marked "off limits" near the hangars. Please study the attached map before you get to the airport.

The road to the airport is the E1820 road one mile south of the city on US 183 highway. From there you will travel about 2 miles east to the main gated entrance to the airport. You will then follow the road marked in red on the attached map. All vehicle traffic (racecars and trailers) will go south on the red gravel road to the paddock. All racecars will park in the paddock area on the south side of the apron. If you want to drive to the Test and Tune Track and the ADT hanger, you may use the driving path marked by cones near the taxiway. Be mindful to watch for aircraft traffic going to the terminal.

Breakfast and lunch will be available in the paddock area on Saturday and Sunday. There will be a banquet on Friday night at the Tech Center located about a mile to the north of the site.

The WWII Airborne Demonstration Team, ADT, is located on the north side of the airport and has several vintage aircraft including the C-47 "Boogie Baby" and several other interesting aircraft in the hanger that are open for inspection and photos. They conduct parachute schools that allow participants to experience WWII parachute jumping. <https://wwiadt.org/>

There are two motels on the south side of Frederick. Both are clean, well-kept and match the comfort of nationally known motels. The Tanglewood Motel and the Scottish Inns can be reserved at 580 335 7557.

Information on motels, food, and services is included in some documents provided by the Frederick Chamber of Commerce.
