

Runoffs Report (Drivers/Teams) - September 27, 2024

Welcome to the 60th Anniversary SCCA National Championship Runoffs presented by Sunoco! For those of you on site already, we're happy to see you. For those of you still en route, safe travels!

Here is the news and information you need to know today:

Notes from Race Director Steve Pence:

Here are 6 key items for drivers and teams to remember as we enter Test Days:

1. Make sure you have your Test Day Sticker on your car.
2. Make sure you have your Runoffs Event Sticker on your car.
3. Make sure drivers have the Test Day wristband on their wrist.
4. Make sure drivers have their event wristband on their wrist.
5. Make sure your transponder is operating.
6. Make sure your Flagtronics is operating.

If you have not already done so, please watch both the Race Director video and the Flagtronics video available at the Runoffs event page. Here are direct links to the videos:

Race Director: <https://youtu.be/YboN3AaN5F8?si=b88MAPtj8AoDEYEX>

Flagtronics: https://youtu.be/nOrQrN9dEAQ?si=OrSunKOF_7qKP_g5

Additional Information About Virtual Safety Car Tests

The first session of each group on each test day will start under a Virtual Safety Car (VSC) condition until the first car passes Turn 5. We are doing this to give drivers an opportunity to see how the Flagtronics in-car units react to your speed under this condition. There will not be penalties for exceeding the 45 mph speed limit during this—in fact, we want you to see how the display changes when you are over 45 mph. For a summary of what will be displayed on the Flagtronics units during on-track sessions, look for the Flagtronics Display Information guide under the "Driver/Prep Shop Info" menu item, or directly here: <https://www.scca.com/downloads/73232>.

Updated Supplemental Regulations

Updated supplemental regulations have been posted today and are available from the event page. Here is a direct link: <https://www.scca.com/downloads/73172-2024-scca-runoffs-supplemental-regulations-web2-rev-090424>

Flagtronics

Flagtronics has published a new process for updating the FT200 Firmware to accommodate the Virtual Safety Car (VSC) condition at the Runoffs. It's important that all units complete this update. https://scribehov.com/shared/Updating_FT200FT-RD_Firmware_with_Flagtronics_Device_Manager_Software_gvY21QZvS2ayuCgfdlPzQ

Sign Up for Mobile Alerts

Sign up to receive text messages during the event! This will be our primary communication method throughout the event, so don't miss a message and sign up today! Choose a keyword group(s) from the list below and send {Keyword} i.e. Text Bspec or FormulaA to 833-345-2423.

To receive general event information messages, text RUNOFFS to 833-345-2423.
Keyword Groups:

- Worker
- ASedan
- Bspec
- EProd
- F600
