

Runoffs Report (Drivers/Teams) - September 28, 2024

Welcome to the 60th Anniversary SCCA National Championship Runoffs presented by Sunoco! Thank you all for a great first day of on track activity.

Here is the news and information you need to know today:

Notes from Race Director Steve Pence:

Notes from the Race Director

Overall, we had a pretty good day with a lot of green flag running. We had one lengthy delay because of an oil down. That's a good reminder for all of us to make sure to safely pull off the track if you feel that you may be dropping fluid.

Another reason for delays today was because of running the checker. We put seven drivers on probation because they didn't pit after receiving the checkered flag. Remember, the timing line and checkered flag are at station 11B, which is between The Kink and Canada Corner. Everyone needs to pit their first opportunity after receiving the checker.

The first session for each group started out under a purple Flagtronics condition for Virtual Safety Car (VSC) until the lead car passed Turn Five. This will continue the next two test days to give everyone an opportunity to see how their in-car unit reacts to various speeds. Remember, while we won't have speeding penalties during that out-lap test, there is still no passing until the course is green.

On the Flagtronics/VSC front, we did find an issue with a handful of cars registering false high-G load impacts, particularly in the wings group. For that reason, we paused using VSC during a session in the afternoon. Flagtronics staff has worked to resolve the issue, and VSC will again be in Race Control's toolbox on Sunday to clean up incidents and return you to green quickly.

Just a reminder that the paddock speed limit is 15 mph. The paddock will be getting more crowded each day, so please keep it safe.

Fun local activities

In case your teams are looking for something fun to do tonight there is a dirt track right down the road in Plymouth and tonight they are hosting the Wisconsin Sprintcar Championships.
