

Runoffs Report (Drivers/Teams) - September 29, 2024

Welcome to the 60th Anniversary SCCA National Championship Runoffs presented by Sunoco! Sunday, Day 2 of on track activities and wonderful Wisconsin Fall weather!

Here is the news and information you need to know today:

Notes from Race Director Steve Pence:

Please be advised that a new clockwise traffic pattern will be in effect around the Tech Building. This is a very dynamic area which has seen a few near misses. The aisle along the Tech Building will be one way - flow will be away from the pit exit towards the paddock. Do not attempt to enter that lane from the paddock - this applies to all motorized vehicles, *including golf carts!*

Drivers coming off track need to immediately respect the paddock speed limit of 15 mph. In a few days the paddock will be crawling with spectators, many of whom will be little, excited, and not used to being around race cars. Please be safe and keep your head on a swivel. My four-year-old granddaughter might be out there. Just sayin'....

A reminder about VSC: this is a safety tool, and you have 10 seconds to get down to 45 mph. Please use them! Throwing out the anchor and triggering a bigger incident than the one requiring the VSC is not the goal. Use your hand signals. Slow down smoothly, predictably, and safely. Your fellow competitors will appreciate it!

Thanks for your attention to these matters.

Flagtronics Unit Updates:

Race Control has seen 150 Flagtronics in-car units that have not had their device firmware updated. Much of the feedback we are hearing from drivers, such as seeing a "35" during the purple Virtual Safety Car condition instead of "45," is because teams have not updated their firmware.

We have been communicating the following information weekly for the last month. Please help us help you!

Instructions are available here: https://scribehow.com/shared/Updating_FT200FT-RD_Firmware_with_Flagtronics_Device_Manager_Software_gvY21QZvS2ayuCgfdlPzQ

Updates are made by a PC with the Flagtronics Device Manager software, which is available here:

https://github.com/Flagtronics/Release/raw/main/software/ftdevicemanager/current/Flagtronics_Device_Manager_Setup.exe

If you do not have a PC, you can text the following number to request support: (804) 299-4551.

Track Walk Activities

Track walks will start tonight Sunday, the 29th as well as Monday, the 30th. They begin at 6:00 and end at 7:30. Monday night we will offer a "Happy Hour" beer trailer stop at Turn 5.

Sign Up for Mobile Alerts

Sign up to receive text messages during the event! This will be our primary communication method throughout the event, so don't miss a message and sign up today! Choose a keyword group(s) from the list below and send {Keyword} i.e. Text Bspec or FormulaA to 833-345-2423.

To receive general event information messages, text RUNOFFS to 833-345-2423.

Keyword Groups:

- Worker
- ASedan
