

### **Important Message from Race Director Steve Pence - October 3**

Thankfully, things settled down a bit today, but this has been a tough event so far. We've already written off a lot of cars and we have transported a distressing number of drivers. I hope we are done doing that.

It's time to get your heads right for racing. I want all of you leaving here healthy and safe. The Kink is just eating us up. If you are driving into a seemingly impenetrable cloud of dust maybe you slow down? How much is this race worth to you? Are you leaving any of the exit curbing as a safety margin? If not, the Kink has proven the price it will extract if you get it just a little bit wrong. Choose how to think. Please decide to go home in one piece.

For those of you over 115% of the fastest qualifying time in your class, remember that you will not be on the final grid unless you've gotten permission from me. It's up to you to make your case.

Be smart everybody. Have a great, *safe* race!

Steve
