

Race Director Schedule Update

VIR Spring Sprints

Hoosier Racing Tire SCCA Super Tour Presented by North Carolina Region

Hello Drivers:

The VIR Super Tour team has reviewed the entry levels for Groups 5 through 7. To better balance the groups, providing the best opportunity for success and a good experience, the decision has been made to make the following changes to the run groups as authorized by GCR 5.2.12.A

F6, FF and FV (8 Entries) will move into Group 7 with FA, FC, FE2, P and P2 (15 entries).
STU, STL, T3 and T4 (22 entries) will move to Group 5
SMX (17 entries) will remain in Group 6

We recognize that Group 7 will not be a traditional grouping for a Super Tour event, but VIR is a long track and this will work with some cooperation from everyone. Please be cognizant of the separate class races and treat them with the respect that you would expect in return.

Additionally, the schedule for Saturday and Sunday will be revised to a "Followed By" format, allowing cars to be on course as it becomes available. This will give us the best opportunity to ensure each session receives the maximum track time possible. Please be aware of who is on track, and listen for PA announcements and, most importantly, report to grid during the latter part of the session before you.

Finally, the Thursday Test Day Check-in and Load-in times have been changed to facilitate earlier access.

As organizers, we do not take making schedule changes lightly, and acknowledge that this will be well-received by some, and not by others. We appreciate your understanding and look forward to a great weekend.

See you soon,
Kathy Barnes, HST Race Director
Mark Senior, North Carolina Region Race Chair
Sam Fouse, North Carolina Region Asst. Race Chair
