## MAZDA DRIVER/TEAM PADDOCK REMINDERS

---

*The following information pertains to the 2026 SCCA National Championship Runoffs® event at Elkhart Lake's Road America. Additional information is available and will be published on the Runoffs event page at [www.scca.com/runoffs](http://www.scca.com/runoffs).*

*This document provides supplemental information to Mazda drivers & teams, please review the linked overviews for additional information.*

---

### RUNOFFS REGISTRATION OVERVIEW

#### OVERVIEW

Mazda will once again host a special paddock area with SCCA at the 2026 Runoffs. Like last year, this will be in the North Paddock (map is available [here](#)), with paved spots as well as garage options. The Mazda area will be focused on the NP paddock spaces between the Gearbox concession stand and Turn 14 (on the east/right side of the main road in the map).

Spaces will be provided to Mazda teams and racers in this area courtesy of Mazda, as long as the appropriate information is provided at the time of team and driver registration. That means when you are asked about where you plan to paddock during the driver registration process in MotorsportReg, select "Mazda" and answer the additional questions. This will get you on the list for advanced paddock assignment.

There are nine (9) garages in the Mazda area in 2026. Each garage is 28'x18' inside with 120v/20A power. Each garage includes a 90x20 parking space. Mazda will cover the majority of the price of these premium spaces, less \$500 per space that the participant/team will be responsible for. If you are interested in one or more of these spaces, please email [runoffs@scca.com](mailto:runoffs@scca.com).

#### PREP SHOPS

If you are a Mazda-based prep shop, you can have your whole team in the Mazda area. In the Prep Shop paddock request form, you select the Mazda paddock.

### PREP SHOP PADDOCK PARKING OVERVIEW

**Updated July 22, 2026**

## **SINGLE-CAR ENTRANTS**

Drivers not affiliated with a prep shop or team will be able to select the Mazda area, along with other drivers they might be sharing space with or desire to park nearby. Mazda and SCCA will work together to accommodate these requests within the Mazda paddock.

### **SINGLE-CAR PADDOCK PARKING OVERVIEW**

## **DEADLINES**

Mazda paddock assignments will begin July 28, which means all drivers wishing to paddock in the Mazda area, either individually or with a prep shop, need to be registered prior to that time. Once the Mazda area is filled, participants desiring a spot will need to wait until August 19, when single-car space reservations open.

## **RACING A SPEC MIATA OR SMX? GET FREE TIRES!**

For the 14th-straight year, there will be some free Hoosier tires for Spec Miata drivers registering early, with a similar program starting in 2026 for Spec MX-5. The number of available tires varies year-to-year, with the majority of supply coming from unclaimed contingency tires throughout the season. Once the Majors season is complete, we'll work with Hoosier on the final distribution and e-mail the drivers who will receive them. Those that register early typically receive more.
