Protest Report Protestor - Intends to File appeal

Protest Filed: 08-Sep-2026 12:47:05

Protest Filed by:	**Protest against:**
Donour Sizemore	**Keegan shepderd**
Xb - 49 - Lotus evor	**181 - 181 - Xb**

Section Protested: 21 a and other.

Protest Description:

Front splitter is beyond the measurement limits for the class, although it has been presented as a special item that can be bought from the builder commercial commercially

Protest Committee Decision:

Per article 21.a in the rule book (CAM/X class definitions):
All commercially available wings, splitters, air dams, and diffusers that are vehicle model specific and installed per the manufacturer's directions are permitted with the following exclusions:
– Rear wings are not permitted on CAM-T cars

Per FastTrack:
Jan 2025

#36939 Wing allowences
Thank you for your letter. The current CAM/XS rules do not place restrictions on commercially available aero devices. If an off the shelf aero device were to surface that the CAM/XS committee felt was outside the spirit of the category it would be placed on the exclusion list. An item could be placed on the exclusion list for reasons such as availability, dimensions, price, etc. If you feel there are commercially available aero devices which should be placed on the exclusion list please submit a letter with details so that the CAM/XS committee can evaluate it.

Given these two sources of information, the protest committee determines that 81/181 XA is in compliance to the rules. As they are currently written.

The part is available for purchase on two websites.

Recommendation to SEB to re-evaluate wording of rule for clarity.

Section Protested: 20.3.A
20.3.H
20.2.A

Protest Description:

Tire prep used on tires

Protest Committee Decision:

The PC used a durometer to measure all 4 tires on the car plus 4 that were in grid out of a random 12 as the competitor could not specify which of them had actually been used. The PC also tested 2 tires from the protester's car as a comparison. The PC also consulted tire experts and a representative from Falken on site for testing methods and to review results of durometer testing. There were no obvious anomalies in the durometer readings, and experts advised that it is not really a reliable method of proof of use of tire treatment.
Protester was advised that the only reliable method was to send the tires to a lab for testing, and bond to do so would be $750, Protester declined to proceed.

Protest Report Protestor - Intends to File appeal

Protest Filed: 09-Sep-2026 18:41:29

Protest Filed by:	**Protest against:**
Nick Bradenbaugh	**Jon Bennett**
Smf - 156 - Honda crx	**Smf - 168 - Honda crx**

Section Protested: 15 2.S.6

Protest Description:

This protest concerns excessive chassis reinforcement on the Bennett entry. The extensive front-end welding serves as a structural modification to accommodate increased horsepower and tire size. This intent was validated by Jon's own testimony at the 2025 Nationals, where he noted that the vehicle's high power output necessitated such reinforcements to prevent structural failure. Consequently, these welds violate the spirit and letter of Rule 15 2.S.6, which permits durability repairs only when they do not result in a performance advantage."

Protest Committee Decision:

The protest committee reviewed the protest from last year, and although 15.2.s.6 was not specifically addressed in the protest language, it was addressed in the protest committee's response. That protest was appealed, and the PC decision was upheld.
This year's PC finds no additional information to come to a different conclusion.
Photographs from last year were reviewed and found to be consistent with the current condition of the car.
The welding does not appear to be excessive, based on the experience of several PC members and SEB liasons familiar with common failure points in a production CRX used for autocrossing.

Protest Report Protestor - Intends to File appeal

Protest Filed: 11-Sep-2026 17:41:16

Protest Filed by:	**Protest against:**
Jason Hobbs	**Results**
FM - 199 - Novakar J9	**- -**

Section Protested:

Protest Description:

Cone number 212 was displaced for driver's 3rd run. Driver perspective video available.

Protest Committee Decision:

Rule 7.8.2 says a driver must make the decision to stop or continue. The PC spoke with the Chief Steward who reported that the rerun was requested due to a missing cone in the final corner leading to the finish at corner station 5. The Chief Steward interviewed the corner workers there but found no evidence of a down or missing cone. The PC reviewed the driver's video which clearly indicated run 3 (the run in question). The video showed a missing cone at station two where only three lay down pointer cones were visible (possibly cone 212). It was not clear that the missing or down cone provided an advantage to the driver. The driver chose to continue the run. The driver finished the run with his fastest run of the day. The driver requested and was given a provisional by the Chief Steward since this was the last run of the last day of the last heat of competition, allowing time for the issue to be reviewed. The competitor reported that he believed there was precedent referred to informally as the "O'Gorman Rule" that a competitor will be required to do a rerun even if they do not stop where the missing cone provided them with an advantage - based on the rule that all drivers must compete on the same course. If one cone in a four cone slalom is missing, for example, that driver has an advantage and is not driving the same course. The PC did not find the missing cone at issue in this case created an unfair advantage for the competitor. The PC is concerned about the precedent of not following 7.8.2 in these circumstances and allowing competitors to ignore a missing cone, complete a run at speed, and then protest/ask for a rerun only if they don't get the time they wanted. The Chief Steward denial of rerun time is upheld, the protest is denied. Fee shall be returned.

SOLO NATIONAL APPEALS COMMITTEE

On 9/21/26, the Solo National Appeals Committee held a conference call to consider two appeals from the 2026 SCCA Solo Nationals. Present on the call were Mike King, David Marcus, Daniel McCelvey and Rick Myers.

FACTS IN BRIEF

On 9/6/26, Nick Bradenbaugh, SMF #156, protested Jonathan Bennett, SMF #168, for having excessive chassis reinforcement. The Protest Committee concluded the welding on the car was not excessive, consistent with the PC's findings from the same protest at the 2025 SCCA Solo Nationals.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED

Appeal letter from Nick Bradenbaugh. Photos of the welded areas of the protested car.

FINDINGS

The NAC agrees with the PC that the welding done to the car is within the scope of rule 15.2.S.

DECISION

The NAC upholds the decision of the PC. Since this same protest was filed last year (by a different competitor), the appeal is not well-founded and the appeal fee will be retained by the SCCA.

FACTS IN BRIEF

On 9/11/26, Jason Hobbs, FM #199, filed a protest asking for a re-run, since cone #212 was missing from the course on his 3rd run. The Chief Steward gave him a provisional re-run, but denied the re-run time since the driver never stopped for the displaced cone.

DOCUMENTS AND OTHER EVIDENCE RECEIVED AND REVIEWED

Appeal letter from Jason Hobbs. Video of his 3rd run.

FINDINGS

The NAC agrees with the Chief Steward. If a driver does not stop for a downed or displaced cone, no re-run will be granted. (Rule 7.8.2)

DECISION

The appeal is well founded and the appeal fee, less an administrative charge retained by the SCCA, will be returned.
